Notice of Availability of an Environmental Assessment and Finding of No Significant Impact for the Biological Control of Brazilian Peppertree

AGENCY: Animal and Plant Health
Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a final environmental assessment and finding of no significant impact relative to the release of *Calophya latiforceps* and *Pseudophilothrips ichini* for the biological control of Brazilian peppertree, a significant invasive weed, within the contiguous United States. Based on our finding of no significant impact, we have determined that an environmental impact statement need not be prepared.

FOR FURTHER INFORMATION CONTACT: Dr. Colin D. Stewart, Assistant Director, Pests, Pathogens, and Biocontrol Permits, Permitting and Compliance Coordination, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 851-2327, email: Colin.Stewart@usda.gov.

SUPPLEMENTARY INFORMATION: Brazilian peppertree (*Schinus terebinthifolia*) is an evergreen perennial shrub or small tree found in various southern States but grows primarily in Florida. This noxious weed poses a serious threat to biodiversity in many ecosystems and invades areas such as canal banks, fallow farmlands, and natural communities.

On February 27, 2019, we published in the **Federal Register** (84 FR 6355-6356, Docket No. APHIS-2018-0075) a

notice¹ in which we announced the availability, for public review and comment, of an environmental assessment (EA) that examined the potential environmental impacts associated with the release of *Calophya latiforceps* and *Pseudophilothrips ichini* for the biological control of Brazilian peppertree within the contiguous United States.

We solicited comments on the EA for 30 days ending March 29, 2019. We received 129 comments by that date. Our responses to the comments are included in the final EA.

In this document, we are advising the public of our finding of no significant impact (FONSI) regarding the release of *C. latiforceps* and *P. ichini* for the biological control of Brazilian peppertree within the contiguous United States. The finding, which is based on the EA, reflects our determination that release of the *C. latiforceps* and *P. ichini* will not have a significant impact on the quality of the human environment. Concurrent with this announcement, we will issue a permit for the release of *C. latiforceps* and *P. ichini* for the biological control of Brazilian peppertree.

The EA and FONSI may be viewed on the [Regulations.gov](http://www.regulations.gov) website (see footnote 1). Copies of the EA and FONSI are also available for public inspection at USDA, Room 1141, South Building, 14th Street and Independence Avenue SW, Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect copies are requested to call ahead on (202) 799-7039 to facilitate entry into the reading room. SUPPLEMENTARY INFORMATION: Established in 2005, the U.S.-India CEO Forum brings together leaders of the respective business communities of the United States and India to discuss issues of mutual interest, particularly ways to strengthen the economic and commercial ties between the two countries, and to communicate their joint recommendations to the U.S. and Indian governments.

The Forum has U.S. and Indian private and public sector co-chairs. The Secretary of Commerce serves as the U.S. Government chair. Each government appoints the members of its respective Section. The Secretary of Commerce appoints the U.S. Section and the U.S. Section's private sector co-chair. The Forum allows private sector members to develop and provide recommendations to the two governments and their senior officials that reflect private sector views, needs, concerns, and suggestions about
