

Captured fish would be anesthetized, measured, weighed, tagged (PIT), allowed to recover, and released. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

19400-3R

ICF Consulting is seeking to renew for five years a research permit that currently allows them to take juvenile natural and listed hatchery SRWR and CVSR Chinook salmon, CCV steelhead and juvenile green sturgeon in Suisan Bay, CA. The purposes of the research are to (1) determine the spatial and temporal distribution and abundance of juvenile Chinook salmon in shallow-water habitats and compare observed patterns to predictions from habitat suitability models, and (2) provide baseline fish and invertebrate samples for a Before-After Control-Impact (BACI) study design to assess the impact of a planned breach at the Tule Red restoration site. The applicant proposes to capture fish with seines (beach, Lampara), nets (fyke), and trawls (midwater, otter). This study would result in the capture, handle, and release of juvenile green sturgeon and intentional directed mortality of juvenile salmon for isotopic and otolith analysis.

22270

The Wiyot tribe is seeking a five-year research permit that would allow them to annually take juvenile NC steelhead in the South Fork of the Eel River, CA. The purposes of the research are to (1) to evaluate the impacts of Sacramento pikeminnow, a non-native predator, on Pacific lamprey, steelhead, and other native species, and (2) to develop and test methods for pikeminnow population suppression in terms of catch-per-unit-effort and cost-per-fish-captured. The applicant proposes to capture fish with backpack and boat electrofishing, fyke net, seine, baited frame traps, dip netting and hook-and-line and to observe fish during snorkel surveys. A subset of captured fish would be anesthetized, measured, weighed, have a tissue sample taken, allowed to recover, and released. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

22303

The NOAA Fisheries California Central Valley office is seeking a five-year research permit that would allow them to annually take adult SRWR, CVSR, and CC Chinook salmon, subadult and adult green sturgeon. The purpose of the research is to test the use

of DIDSON cameras to characterize the physical interaction between green sturgeon and the halibut bottom trawl fishery (CHBT) operating out of Half Moon and San Francisco bays. In a previous cooperative study conducted with CHBT fishermen, NOAA observers, NMFS Science Center staff, and the CDFW, satellite tags were used to measure green sturgeon post-release survival in the halibut fishery. In this study, researchers would test the use of DIDSON cameras in the CHBT nets to characterize the physical interaction between green sturgeon and CHBT nets. Study results would be used to evaluate methods to minimize gear interactions and bycatch of green sturgeon. The applicant proposes to capture fish with a bottom trawl. Captured green sturgeon would be captured, handled and released. The researchers would avoid adult salmonids, but some may be encountered as an unintentional result of sampling. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

22700

The Monterey Bay Salmon and Trout Project (MBSTP) is seeking a five-year research permit that would allow them to annually take adult CC coho and CCC steelhead in the San Lorenzo River, CA. The purpose of the research is to gather genetic and life history data on CCC steelhead. This research will contribute to large-scale salmonid monitoring programs on the San Lorenzo River that are currently being implemented by the City and County of Santa Cruz. The applicant proposes to capture fish at the Felton Diversion Facility weir. Captured adult steelhead would be measured, weighed, PIT tagged, have a tissue sample taken, allowed to recover, and released. Adult coho would be captured, handled and released. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

22939

Tim Salamunovich of TRPA Fish Biologist is seeking a 5-year research permit that would allow him to annually take juvenile SRWR and CVSR Chinook salmon, CCV steelhead and green sturgeon in a central valley delta wetland area known as The Big Ditch on the Peterson Ranch in eastern Solano County, California. The purpose of this research is to collect seasonal presence/absence and relative abundance data to document seasonal fish use throughout the project area in order to document the baseline conditions prior to restoration efforts. The applicant

proposes to capture fish with beach seines and minnow traps. Captured fish would be anesthetized, measured, weighed, allowed to recover, and released. The researchers do not intend to kill any listed fish, but some may die as an inadvertent result of the research.

Authority

Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR 222-226). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the applications, associated documents, and comments submitted to determine whether the applications meet the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period. NMFS will publish notice of its final action in the **Federal Register**.

Dated: June 21, 2019.

Angela Somma,

Chief, Endangered Species Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

COMMODITY FUTURES TRADING COMMISSION

Agency Information Collection Activities: Notice of Intent To Renew Collection 3038-0012, Futures Volume, Open Interest, Price, Deliveries and Purchases/Sales of Futures for Commodities or for Derivatives Positions

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice.

SUMMARY: The Commodity Futures Trading Commission (CFTC or Commission) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected costs and burden. Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information. This notice solicits the second request for comments, and to allow 30 days for public comments on futures volume, open interest, price, deliveries, and purchases/sales of futures for commodities or for derivatives positions.

DATES: Comments must be submitted on or before July 29, 2019.

ADDRESSES: You may submit comments regarding any aspect of "Futures Volume & Open Interest Collection" directly to the Office of Information and Regulatory Affairs (OIRA) in OMB within 30 days of this notice's publication by either of the following methods. Please identify the comments by "OMB Control No. 3038-0012."

- By email addressed to: OIRASubmissions@omb.eop.gov; or
- By mail addressed to: Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for the Commodity Futures Trading Commission, 725 17th Street NW, Washington, DC 20503.

A copy of all comments submitted to OIRA should be sent to the CFTC by one of the following methods. The copies should refer to "OMB Control No. 3038-0012."

- Through the Commission's website at <https://comments.cftc.gov>. Please follow the instructions for submitting comments through the website;
- By mail addressed to: Christopher Kirkpatrick, Secretary of the Commission, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW, Washington, DC 20581; or
- By Hand Delivery/Courier to the same address as specified for mail.

Please submit your comments to the CFTC using only one method. A copy of the supporting statement for the collection of information discussed

herein may be obtained by visiting <http://RegInfo.gov>.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to <https://www.cftc.gov>. You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act (FOIA), a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.¹ The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <https://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the ICR will be retained in the public comment file and will be considered as required under applicable laws, and may be accessible under the FOIA.

FOR FURTHER INFORMATION CONTACT: Adam Charnisky, Market Analyst, Division of Market Oversight, Commodity Futures Trading Commission, (312) 596-0630; email: acharnisky@cftc.gov.

SUPPLEMENTARY INFORMATION:

Title: Futures Volume, Open Interest, Price, Deliveries and Purchases/Sales of Futures for Commodities or for Derivatives Positions (OMB Control No. 3038-0012). This is a request for extension of a currently approved information collection.

Abstract: Commission Regulation 16.01 requires the U.S. futures exchanges to publish daily information on the items listed in the title of the collection. The information required by this rule is in the public interest and is necessary for market surveillance. This rule is promulgated pursuant to the Commission's rulemaking authority contained in section 5 of the Commodity Exchange Act, 7 U.S.C. 7 (2010).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.² On April 22, 2019, the Commission published in the **Federal Register** notice of the proposed extension of this information collection

¹ 17 CFR 145.9.

² The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981).

and provided 60 days for public comment on the proposed extension, 84 FR 16663 ("60-Day Notice"). The Commission originally estimated that 15 entities would be affected by this rule, who would spend one hour daily on each response, 250 trading days per year, thus accumulating 3,750 hours annually in total burden hours. These numbers remain current, and the Commission did not receive any comments on the 60-Day Notice.

Burden Statement: The Commission is revising its estimate of the burden for this collection as the respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents: 15.

Estimated Average Burden Hours per Respondent: 1 hour.

Estimated Total Annual Burden Hours: 3,750 hours.

Frequency of Collection: Daily.

There are no known additional capital costs or operating and maintenance costs associated with this collection.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: June 24, 2019

Robert Sidman,

Deputy Secretary of the Commission.
