SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

- Puget Sound Chinook Salmon (*Oncorhynchus tshawytscha*): threatened, naturally and artificially propagated
- Puget Sound Steelhead (*Oncorhynchus mykiss*): threatened, naturally and artificially propagated

Background

Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. The ESA prohibits the take of endangered salmonids and, pursuant to ESA section 4(d), ESA regulations can be extended to prohibit the take of threatened salmonids. However, NMFS may make exceptions to the take prohibitions for hatchery programs that are approved by NMFS under the limits on the

prohibitions outlined in 50 CFR 223.203(b). STI and Washington Department of Fish and Wildlife (collectively the co-managers) have submitted HGMPs to NMFS pursuant to the ESA 4(d) Rule for salmon and steelhead.

The hatchery programs are intended to contribute to the survival and recovery of Puget Sound Chinook Salmon, provide information on exploitation rates, and support returns of coho salmon and chum salmon to the Stillaguamish River basin.

Authority

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) Rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. Limit 6 of the updated 4(d) Rule (50 CFR 223.203(b)(6)) further provides that the prohibitions of paragraph (a) of the updated 4(d) Rule (50 CFR 223.203(a)) do not apply to activities described in a joint management plan provided that it has been approved by NMFS to be in accordance with the salmon and steelhead 4(d) Rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005).
