The Postal Service has observed two major cost shifts under the proposed study: (1) A shift from letter and flat shaped mail to packages; and (2) a shift from market dominant products to competitive products. Id. at 5. The Postal Service asserts that these effects result from “the updated data that underlie the new study capture the shift in SPR activities from collection to delivery that has taken place as package volumes have increased.” Id. The Postal Service notes that “SPR delivery is a package-related cost, whereas collection includes both letters and flats.” Id. The Postal Service concludes that “[t]he activity shift toward delivery also underlies the cost shift from market dominant to competitive products.” Id.

III. Notice and Comment

IV. Ordering Paragraphs

It is ordered:
2. Comments by interested persons in this proceeding are due no later than August 20, 2019.
3. Pursuant to 39 U.S.C. 505, the Commission appoints Lawrence Fenster to serve as an officer of the Commission (Public Representative) to represent the interests of the general public in this docket.
4. The Secretary shall arrange for publication of this Order in the Federal Register.

By the Commission.

Stacy L. Ruble, Secretary.

BILLING CODE 7710–FW–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; West Virginia; Control of Emissions From Existing Municipal Solid Waste Landfills

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a Clean Air Act (CAA) section 111(d) plan submitted by the West Virginia Department of Environmental Protection (WVDENP). This plan was submitted to fulfill the requirements of the CAA and in response to the EPA’s promulgation of Emissions Guidelines and Compliance Times for municipal solid waste (MSW) landfills. The West Virginia plan establishes emission limits for existing MSW landfills, and provides for the implementation and enforcement of those limits.

DATES: Written comments must be received on or before July 31, 2019.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R03– OAR–2019–0187 at https://www.regulations.gov, or via email to gordon.mike@epa.gov. For comments submitted at Regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments on content located outside of the primary submission (i.e., on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the FOR FURTHER INFORMATION CONTACT section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit http://www2.epa.gov/dockets/commenting-epa-dockets.

FOR FURTHER INFORMATION CONTACT: Mike Gordon, Permits Branch (3AD10), Air and Radiation Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. The telephone number is (215) 814–2039. Mr. Gordon can also be reached via electronic mail at gordon.mike@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On August 29, 2016, the EPA finalized Standards of Performance for MSW landfills and Emission Guidelines and Compliance Times for MSW Landfills in 40 CFR part 60 subpart XXX and Cf. 81 FR 59332 and 81 FR 59313, respectively. These actions were taken under section 111 of the CAA.

Section 111(d) of the CAA requires the EPA to establish a procedure for a state to submit a plan to the EPA which establishes standards of performance for any air pollutant: (1) For which air quality criteria have not been issued or which is not included on a list published under CAA section 108 or emitted from a source category which is regulated under CAA section 112; and (2) to which a standard of performance under CAA section 111 would apply if such existing source were a new source. The EPA established these requirements for state plan submittal in 40 CFR part 60, subpart B. State submittals under CAA sections 111(d) must be consistent with the relevant emission guidelines, in this instance 40 CFR part 60, subpart Cf, and the requirements of 40 CFR part 60, subpart B and part 62, subpart A.

On September 13, 2018, the West Virginia Department of Environmental Protection (WVDENP) submitted to the EPA a formal section 111(d) for existing municipal solid waste landfills. The submitted section 111(d) was in response to the August 29, 2016 promulgation of Federal New Source Performance Standards (NSPS) and emission guidelines requirements for MSW landfills. 40 CFR part 60, subparts XXX and Cf, respectively (76 FR 15372).

II. Summary of SIP Revision and EPA Analysis

The EPA has reviewed the West Virginia section 111(d) plan submittal in the context of the requirements of 40 CFR part 60, subparts B and Cf, and part 62, subpart A. In this action, the EPA is proposing to determine that the submitted section 111(d) plan meets the above-cited requirements. Included within the section 111(d) plan are regulations under the West Virginia
III. Proposed Action
The EPA is proposing to approve the West Virginia section 111(d) plan for MSW landfills submitted pursuant to 40 CFR part 60, subpart Cf. Therefore, the EPA is proposing to amend 40 CFR part 62, subpart XX to reflect this action. This approval is based on the rationale previously discussed and in further detail in the TSD associated with this action. The scope of the proposed approval of the section 111(d) plan is limited to the provisions of 40 CFR parts 60 and 62 for existing MSW landfills, as referenced in the emission guidelines, subpart Cf.

The EPA Administrator continues to retain authority for approval of alternative methods to determine the nonmethane organic compound concentration or a site-specific methane generation rate constant (k), as stipulated in 40 CFR 60.30(c), as well as section 4.8.b., “Implementation of Emission Guidelines for Existing MSW Landfills,” of West Virginia’s 111(d) plan submittal.

IV. Incorporation by Reference
In this document, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference of the state plan. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference WVDEP rules regarding MSW landfills discussed in section II of this preamble. The EPA has made, and will continue to make, these materials generally available through the docket for this action, EPA–R03–OAR–2019–0187, at https://www.regulations.gov, and at the EPA Region III Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

V. Statutory and Executive Order Reviews
In reviewing state plan submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:
- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because this action is not significant under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed approval of West Virginia’s state plan submittal for existing MSW landfills does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the state plan is not approved to apply in Indian country located in the state, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 62
Environmental protection, Air pollution control, Landfills, Incorporation by reference, Intergovernmental relations, Methane, Ozone, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Authority: 42 U.S.C. 7401 et seq.
Dated: June 20, 2019.
Cosmo Servidio,
Regional Administrator, Region III.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY
40 CFR Part 62

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; Delaware; Control of Emissions From Existing Municipal Solid Waste Landfills

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a Clean Air Act (CAA) section 111(d) plan submitted by the Delaware Department of Natural Resources and Environmental Control (DNREC). This plan was submitted to fulfill the requirements of the CAA and in response to EPA’s promulgation of Emissions Guidelines and Compliance Times for municipal solid waste (MSW) landfills. The Delaware plan establishes emission limits for existing MSW landfills, and provides for the implementation and enforcement of those limits.

DATES: Written comments must be received on or before July 31, 2019.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R03–OAR–2019–0160 at https://www.regulations.gov, or via email to gordon.tiike@epa.gov. For comments submitted at Regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to
