BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-HQ-ES-2019-0021; FF09E42000 178 FXES11130900000]

Endangered and Threatened Species; Issuance of Enhancement of Survival and Incidental Take Permits for Safe Harbor Agreements, Candidate Conservation Agreements, and Habitat Conservation Plans, 2018; Issuance of Recovery Permits, July 1, 2017, Through December 31, 2018

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; correction.

SUMMARY: We, the U.S. Fish and Wildlife Service, in accordance with the Endangered Species Act (ESA), provided a list to the public of certain

permits issued under the ESA. With some exceptions, the ESA prohibits take of listed species unless a Federal permit is issued that authorizes or exempts the taking under the ESA. In a recent **Federal Register** notice announcing these permit issuances, we inadvertently made some errors, which we correct via this notice. We regret any inconvenience to the public.

DATES: The notice that published on June 6, 2019, at 84 FR 26424 is now corrected.

ADDRESSES: The notice that published on June 6, 2019, at 84 FR 26424 and this correction notice may be found on www.regulations.gov in Docket No. FWS-HQ-ES-2019-0021.

FOR FURTHER INFORMATION CONTACT: For general information about the ESA permit process, contact Karen Anderson, via phone at 703-358-2301, via email at karen_anderson@fws.gov, or via the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, in accordance with section 10(d) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*), as amended, periodically provide lists to the public of the permits issued under sections 10(a)(1)(A) and 10(a)(1)(B) of the ESA. On June 6, 2019 (84 FR 26424), we published a **Federal Register** notice that

provided a summary of our permit issuances for Candidate Conservation Agreements with Assurances, Safe Harbor Agreements, and Habitat Conservation Plans for calendar year 2018, and for Recovery Permits issued between July 1, 2017, and December 31, 2018. Unfortunately, due to some technical errors, our list was incomplete, and some permit information appeared in the wrong lists. In this notice, we correct those errors. Please see the original notice for additional background information regarding our permit issuance process.

Corrections

In notice document 84 FR 26424 appearing on pages 26424-26436 of the **Federal Register** in the issue of Thursday, June 6, 2019, we make the following corrections:

On page 26424, the names of the following three permittees are corrected for Habitat Conservation Plan (HCP) and Safe Harbor Agreement (SHA) permits. All other permits issued under an HCP or SHA listed throughout the original notice remain the same.

Hawaii, Idaho, Oregon (except for the Klamath Basin), Washington, American Samoa, Commonwealth of the Northern Mariana Islands, Guam, and the Pacific Trust Territories

Permit No.	Plan or agreement type	Permittee	Date issued
TE72314C-0 ..	HCP (WA)	Walters Grandchildren Washington, LLC	6/14/2018
TE01952D-0 ..	HCP (HI)	Na Pua Makani Power Partners, LLC	9/7/2018
TE57529C-0 ..	SHA (WA)	Graysmarsh, LLC	3/7/2018

Beginning on page 26425, the full list of Recovery Permits issued from July 1, 2017, to December 31, 2018, for the indicated States and Territories are republished as follows:

Hawaii, Idaho, Oregon (except for the Klamath Basin), Washington, American Samoa, Commonwealth of the Northern Mariana Islands, Guam, and the Pacific Trust Territories

Proposed Site Plans Under a Candidate Conservation Agreement With Assurances for the Fisher in Oregon; Enhancement of Survival Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received five enhancement of survival permit (permit) applications pursuant to the Endangered Species Act (ESA) that we are processing as a batch. If granted, the requested permits would authorize the incidental take of the fisher, should the species become federally listed in the future under the ESA. The permit applications are associated with a template candidate conservation agreement with assurances (CCAA) previously developed for the conservation of the fisher. The conservation measures in the CCAA are intended to provide for a net conservation benefit to the fisher. We also have prepared individual draft environment action statements (EASs) pursuant to the requirements of the National Environmental Policy Act of 1969 (NEPA) for the potential issuance of each of these permits. We are making the permit application packages and draft EASs available for public review and comment.

DATES: To ensure consideration, written comments must be received from interested parties no later than August 2, 2019.

ADDRESSES: To request further information or submit written comments, please use one of the following methods, and note that your information request or comments are in reference to the "Fisher CCAA" and indicate by name which permit application (see below) you are interested in or addressing.

• **Internet:** Documents may be viewed on the internet at <http://www.fws.gov/oregonfwo/>.

• **Email:** fisherCCAAcomments@fws.gov. Include "Fisher CCAA" in the subject line of the message or comments.

• **U.S. Mail:** State Supervisor, Oregon Fish and Wildlife Office, U.S. Fish and Wildlife Service; 2600 SE 98th Avenue, Suite 100; Portland, OR 97266.

• **Fax:** 503-231-6195, Attn: Fisher CCAA.

• **In-Person Drop-off, Viewing, or Pickup:** Comments and materials received will be available for public inspection, by appointment (necessary for viewing or picking up documents only), during normal business hours at the Oregon Fish and Wildlife Office (at the above address); call 503-231-6179 to make an appointment. Written comments can be dropped off during regular business hours at the above address on or before the closing date of the public comment period (see **DATES**).

FOR FURTHER INFORMATION CONTACT: Richard Szlemp (see **ADDRESSES**); telephone: 503-231-6179; facsimile: 503-231-6195. If you use a telecommunications device for the deaf, please call the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the Service, have received five permit applications from timber land owners in Oregon pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would authorize incidental take of the fisher (*Pekania pennanti*) during the applicants' routine forest-related management activities until June 20, 2048, or the remaining duration of the CCAA, should the fisher become federally listed in the future under the ESA. Each permit application includes a proposed individual site plan written under the template CCAA previously developed for the conservation of the fisher. We also have prepared individual draft environment action statements (EASs) pursuant to the requirements of the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) for the potential issuance of each of these permits.

Background

A CCAA is a voluntary agreement whereby landowners agree to manage their lands to remove or reduce threats to species that may become listed under the ESA (64 FR 32726; June 17, 1999). CCAAs are intended to facilitate the conservation of proposed and candidate species, and species likely to become candidates in the near future, by giving non-Federal property owners incentives

to implement conservation measures for declining species by providing certainty with regard to land, water, or resource use restrictions that might be imposed should the species later become listed as threatened or endangered under the ESA. In return for managing their lands to the benefit of the covered species, enrolled landowners receive assurances that additional regulatory requirements pertaining to the covered species will not be required if the covered species becomes listed as threatened or endangered under the ESA, so long as the CCAA remains in place and is being fully implemented.

A CCAA serves as the basis for the Service to issue permits to non-Federal participants pursuant to section 10(a)(1)(A) of the ESA. Application requirements and issuance criteria for permits under CCAAs are found in the Code of Regulations (CFR) at 50 CFR 17.22(d) and 17.32(d). The Service developed a template CCAA for the West Coast distinct population segment (DPS) of the fisher in Oregon and a draft EAS for future permit issuance under the finalized template to comply with NEPA. The template CCAA and the EAS were noticed for comment in the **Federal Register** (81 FR 15737; March 24, 2016). The template CCAA and EAS were finalized and signed by the Service on June 20, 2018.

The CCAA template established general guidelines and identified minimum conservation measures for potential participants in the CCAA. Interested participants can voluntarily enroll their property under the CCAA through development of individual site plans written in accordance with the CCAA and that are submitted as part of their permit applications. The permits would authorize incidental take with assurances to qualifying landowners who carry out conservation measures that would benefit the West Coast DPS of the fisher.

Proposed Actions

Pursuant to the ESA, we have received an application for a section 10(a)(1)(A) permit under the template CCAA from each of the following five timber landowners (applicants) for their identified lands in Oregon:

- Hancock Forest Management
- Lone Rock Timber Management Company
- Oregon Department of Forestry
- Roseburg Resources Company
- Weyerhaeuser Company

Each requested permit would authorize incidental take of the fisher, should it become federally listed, during the applicant's routine forest-related
