**Abstract:** The Federal Historic  
Preservation Tax Incentives Program  
encourages private-sector investment in  
the rehabilitation and re-use of historic  
buildings. Through this program,  
underutilized or vacant buildings

throughout the country of every period,  
size, style, and type have been  
rehabilitated and reused in a manner  
that maintains their historic character.  
To be eligible for tax incentives for  
historic buildings, a building must be  
listed individually on the National  
Register of Historic Places (NRHP); or  
located in a registered historic district  
and certified by the NPS as contributing  
to the historic significance of that  
district. A registered historic district is  
any district listed on the NRHP; or a  
state or local district if the district and  
the enabling statute have also been  
certified by the NPS. The NRHP is the  
official list of the Nation's historic  
places worthy of preservation.

Section 47 of the Internal Revenue  
Code requires that the Secretary of the  
Interior certify to the Secretary of the  
Treasury upon application by owners of  
historic properties for Federal tax  
benefits: (a) The historic significance of  
the property, and (b) that the  
rehabilitation work is consistent with its  
historic character. The NPS administers  
the program with the Internal Revenue  
Service in partnership with the State  
Historic Preservation Offices (SHPOs).  
The NPS uses the information collected  
in the Historic Preservation Certification  
Application (Forms 10-168, 10-168a,  
10-168b, and 10-168c) to evaluate the  
condition and historic significance of  
buildings undergoing rehabilitation, and  
to evaluate whether or not the  
rehabilitation work meets the Secretary  
of the Interior's Standards for  
Rehabilitation.

Regulations codified in 36 CFR part  
67 contain a requirement for completion  
of an application form. The NPS needs  
the information required on the  
application form to allow the authorized  
officer to determine if the project is  
qualified to obtain historic preservation  
certifications from the Secretary of the  
Interior. These certifications are  
necessary for an applicant to receive  
substantial federal tax incentives  
authorized by Section 47 of the Internal  
Revenue Code. These incentives include  
a 20% federal income tax credit for the  
rehabilitation of income-producing  
historic buildings and an income tax  
deduction for the charitable donation of  
easements on historic properties. The  
Internal Revenue Code also provides a  
10% federal income tax credit for the  
rehabilitation of nonhistoric,  
nonresidential buildings built before  
1936. An owner of a nonhistoric  
building in a historic district must also  
use the application to obtain a  
certification from the Secretary of the  
Interior that his or her building does not  
contribute to the significance of the  
historic district before claiming this
