

management activities on their managed properties until June 20, 2048, or the current time remaining under the template CCAA.

Each permit application includes a proposed site plan that describes the lands to be covered by the permit and the required conservation measures of the template CCAA as they will be specifically enacted by the individual applicant. Primary conservation measures common to all five site plans include:

- Allowing access to covered lands to conduct fisher surveys;
- Protecting denning fisher and their young by limiting disturbance and impacts to denning structures;
- Limiting trapping/nuisance control for other animals that could pose a risk to fisher (note: Trapping of fisher is prohibited by State law);
- Allowing the potential future translocation of the fisher onto enrolled lands; and
- Promoting the development of habitat structures that would support the fisher.

Public Comments

We are making the five permit application packages, including the individual site plans and the five draft EASs, available for public review and comment (see **ADDRESSES**). The final template CCAA and EAS that were finalized and signed by the Service on June 20, 2018, are also available for reference. You may submit your comments and materials by one of the methods listed in the **ADDRESSES** section. We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on our proposed Federal action, including adequacy of the site plan in relation to the template CCAA, pursuant to the requirements for permits at 50 CFR parts 13 and 17.

Public Availability of Comments

All comments and materials we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from

The temporary closure of public lands will be conducted in two phases in order to reduce impacts on the general public outside of the Permitted Event. Phase 2 includes all of the Phase 1 area. The Phase 2 temporary closure is the same size as the temporary closure area for the Permitted Event in previous years.

The legal description of the affected public lands in the temporary public closure area of both stages is:

Mount Diablo Meridian, Nevada

Phase 1, encompassing the smaller area of 9,715 acres, will be effective for 31 days before the main event from 12:01 a.m. Sunday, July 25, 2019, until 6:00 a.m. Monday, August 19, 2019. The two-phase temporary closure area is in Pershing County, Nevada, and is necessary for the period of time from July 25, 2019, to midnight September 30, 2019, because of the Permitted Event. The Permitted Event's activities begin with the golden spike, fencing the site perimeter, Black Rock City setup (July 25 to August 19), followed by the actual event (August 20 to September 6), Black Rock City tear down and cleanup, and final site cleanup (September 7 to September 30).

The public temporary closure area comprises about 13 percent of the Black Rock Desert playa. Public access to the other 87 percent of the playa outside the temporary closure area will remain open to dispersed casual use.

The event area is fully contained within the Phase 2 temporary closure area. The event area is defined as the

portion of the temporary closure area that: (1) Is entirely contained within the event perimeter fence, including 50 feet from the outside of the event perimeter fence; (2) Lies within 25 feet from the outside edge of the event access road; and (3) Includes the entirety of the aircraft parking area outside the event perimeter fence. The temporary closure and restrictions are necessary to provide a safe environment for the staffs, volunteers, paid participants and members of the public visiting the Black Rock Desert, and to protect public land resources by addressing law enforcement and public safety concerns associated with the event. The temporary closure and temporary restrictions are also necessary to enable BLM law enforcement personnel to provide for public safety and to protect the public lands, as well as to support and assist State and local agencies with enforcement of existing laws. The Permitted Event takes place within Pershing County, Nevada, a rural county with a small population and a small Sheriff's Department. Key BLM staff members—including the authorizing officer for the 2019 event, the event incident commander, and the law enforcement operations chief—met with the Pershing County Sheriff and his planning team to coordinate and plan the 2019 event. The Sheriff's input and comments are incorporated in this temporary closure order.

The Permitted Event attracts up to 70,000 paid participants to a remote, rural area, located more than 90 miles from urban infrastructure and support, including such services as public safety, emergency medical delivery, transportation, and communication. During the Permitted Event, Black Rock City, the temporary city associated with the event, becomes one of the largest population areas in Nevada.

A temporary closure and restrictions order, under the authority of 43 CFR 8364.1, is appropriate for a single event. The temporary closure and restrictions are specifically tailored to the time frame that is necessary to provide a safe environment for the public and for participants at the Permitted Event and to protect public land resources while avoiding imposing restrictions that may not be necessary in the area during the remainder of the year.

The BLM will post copies of the temporary closure, temporary restrictions, and an associated map in kiosks at access points to the Black Rock Desert playa, and at the Gerlach Post Office, Bruno's Restaurant, Empire Store, Black Rock City Offices, Friends of Black Rock-High Rock Offices, the BLM—Nevada Black Rock Station near

Gerlach, the Winnemucca District Office, and the BLM—California Applegate Field Office. The BLM will also make the materials available on the BLM external web page at: <http://www.blm.gov>.

In addition to the Nevada Collateral Forfeiture and Bail Schedule as authorized by the United States District Court, District of Nevada and under the authority of Section 303(a) of FLPMA, 43 CFR 8360.0–7 and 43 CFR 8364.1, the BLM will enforce a temporary public closure and the following temporary restrictions will apply within and adjacent to the Permitted Event on the Black Rock Desert playa from July 25, 2019, through September 30, 2019:

Temporary Restrictions

(a) Environmental Resource Management and Protection

(1) No person may deface, disturb, remove or destroy any natural object.

(2) Fires/Campfires: The ignition of fires on the surface of the Black Rock Desert playa without a burn blanket or burn pan is prohibited. Campfires may only be burned in containers that are sturdily elevated 6 inches above the playa surface and in a manner that does not pose a risk of fire debris falling onto the playa surface. Plastic and nonflammable materials may not be burned in campfires. The ignition of fires other than a campfire is prohibited. This restriction does not apply to events sanctioned and regulated as art burns by the event organizer.

(3) Fireworks: The use, sale or possession of personal fireworks is prohibited except for uses of fireworks approved by the permit holder and used as part of a Burning Man sanctioned art burn event.

(4) Grey and Black Water Discharge: The discharge and dumping of grey water onto the playa/ground surface is prohibited. Grey water is defined as water that has been used for cooking, washing, dishwashing, or bathing and/or contains soap, detergent, or food scraps/residue, regardless of whether such products are biodegradable or have been filtered or disinfected. Black water is defined as waste water containing feces, urine and/or flush water.

(5) Human Waste: The depositing of human waste (liquid and/or solid) on the playa/ground surface is prohibited.

(6) Trash: The discharge of any and all trash/litter onto the ground/playa surface is prohibited. All event participants must pack out and properly dispose of all trash at an appropriate disposal facility.

(7) Hazardous Materials: The dumping or discharge of vehicle oil,

petroleum products or other hazardous household, commercial or industrial refuse or waste onto the playa surface is prohibited. This applies to all recreational vehicles, trailers, motorhomes, port-a-potties, generators, and other camp infrastructure.

(8) Fuel Storage: The storage of greater than 110 gallons of fuel in a single camp is prohibited. Each camp storing fuel must establish a designated fuel storage area at least ten (10) feet apart from combustible materials and twenty-five (25) feet from vehicles, camp trailers/RV's, and generators, unless manufactured and designed to store fuel, and any sources of ignition (such as burning cigarettes, open flame, electrical connections or trailer/RV appliances); and one hundred (100) feet from other designated fuel storage areas. Fuel containers, regardless of size or type, shall not exceed 80% capacity per container. Storage areas for all fuel, regardless of amount, and not exceeding 110 gallons, must include a secondary containment system that can hold a liquid volume equal to or greater than 110% of the largest container being stored. Secondary containment measures must comply with the following:

(a) The secondary containment system must be free of cracks or gaps and constructed of materials impermeable to the fuel(s) being stored; and

(b) The secondary containment system must be designed to allow the removal of any liquids captured resulting from leaks, spills or precipitation.

(9) Water Discharge: The unauthorized dumping or discharge of fresh water onto the playa surface, onto city streets and/or other public areas or onto camp electric systems in a manner that creates a hazard or nuisance is prohibited. This provision does not prohibit the use of water trucks contracted by the event organizer to provide dust abatement measures.

(b) Commercial Activities

In accordance with 43 CFR 2932, vending and the 2019 Special Recreation Permit Stipulation for the Permitted Event, ALL vendors and air carrier services must provide proof of authorization to operate at the Permitted Event issued by the permitting agency and/or the permit holder upon request. Failure to provide such authorization could result in eviction from the event.

(c) Aircraft Landing

The public closure area is closed to aircraft landing, taking off, and taxiing. Aircraft is defined in Title 18, U.S.C., section 31(a)(1) and includes lighter-

than-air craft and ultra-light craft. The following exceptions apply:

(1) All aircraft operations, including ultra-light and helicopter landings and takeoffs, will occur at the designated 88NV Black Rock City Airport landing strips and areas defined by airport management. All takeoffs and landings will occur only during the hours of operation (6:00 through 18:30) of the airport as described in the Burning Man Operating Plan. All pilots that use the Black Rock City Airport must agree to and abide by the published airport rules and regulations;

(2) Only fixed wing and helicopters providing emergency medical services may land at the designated Emergency Medical Services areas/pads or at other locations when required for medical incidents. The BLM authorized officer, or an authorized State/Local Law Enforcement Officer or his/her delegated representative may approve other helicopter landings and takeoffs when deemed necessary for the benefit of the law enforcement operation; and

(3) Landings or takeoffs of lighter-than-air craft previously approved by the BLM authorized officer.

(d) Alcohol/Prohibited Substance

(1) Possession of an open container of an alcoholic beverage by the driver or operator of any motorized vehicle, whether or not the vehicle is in motion, is prohibited;

(2) Possession of alcohol by minors:

(i) The following are prohibited:

(A) Consumption or possession of any alcoholic beverage by a person under 21 years of age on public lands; and

(B) Selling, offering to sell or otherwise furnishing or supplying any alcoholic beverage to a person under 21 years of age on public lands.

(3) Operation of a motor vehicle while under the influence of alcohol, narcotics or dangerous drugs:

(i) Title 43 CFR 8341.1(f)(3) prohibits the operation of an off-road motor vehicle on public land while under the influence of alcohol, narcotics or dangerous drugs.

(ii) In addition to the prohibition found at 43 CFR 8341.1(f)(3), it is prohibited for any person to operate or be in actual physical control of a motor vehicle while:

(A) The operator is under the combined influence of alcohol, a drug, or drugs to a degree that renders the operator incapable of safe operation of that vehicle; or

(B) The alcohol concentration in the operator's blood or breath is 0.08 grams or more of alcohol per 100 milliliters of blood or 0.08 grams or more of alcohol per 210 liters of breath; and

(C) It is unlawful for any person to drive or be in actual physical control of a vehicle on a highway or on premises to which the public has access with an amount of a prohibited substance in his or her urine or blood that is equal to or greater than the following nanograms per milliliter (ng/ml):

(1) Amphetamine: Urine, 500 ng/ml; blood, 100 ng/ml;

(2) Cocaine: Urine, 150 ng/ml; blood, 50 ng/ml;

(3) Cocaine metabolite: Urine, 150 ng/ml; blood, 50 ng/ml;

(iii) Tests:

(A) At the request or direction of any law enforcement officer authorized by the Department of the Interior to enforce this closure and restriction order, who has probable cause to believe that an operator of a motor vehicle has violated a provision of paragraph (i) or (ii) of this section, the operator shall submit to one or more tests of the blood, breath, saliva or urine for the purpose of determining blood alcohol and drug content.

(B) Refusal by an operator to submit to a test is prohibited and proof of refusal may be admissible in any related judicial proceeding.

(C) Any test or tests for the presence of alcohol and drugs shall be determined by and administered at the direction of an authorized law enforcement officer.

(D) Any test shall be conducted by using accepted scientific methods and equipment of proven accuracy and reliability operated by personnel certified in its use.

(iv) Presumptive levels:

(A) The results of chemical or other quantitative tests are intended to supplement the elements of probable cause used as the basis for the arrest of an operator charged with a violation of paragraph (i) of this section. If the alcohol concentration in the operator's blood or breath at the time of testing is less than alcohol concentrations specified in paragraph (ii)(B) of this section, this fact does not give rise to

any presumption that the operator is or is not under the influence of alcohol.

(B) The provisions of paragraph (iv)(A) of this section are not intended to limit the introduction of any other competent evidence bearing upon the question of whether the operator, at the time of the alleged violation, was under the influence of alcohol, a drug or multiple drugs or any combination thereof.

(4) Definitions:
