

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov/> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection*: "NRC Forms 541 and 541A, Uniform Low-Level Radioactive Waste and Manifest (Container and Waste Description) and Continuation Page."

2. *OMB approval number*: 3150-0166.

3. *Type of submission*: Extension.

4. *The form number, if applicable*: NRC Form 541 and 541A.

5. *How often the collection is required or requested*: Forms are used by shippers Agreement States depending on specific license conditions. No reporting is made to the NRC.

6. *Who will be required or asked to respond*: All NRC or Agreement State low-level waste facilities licensed pursuant to part 61 of title 10 of the Code of Federal Regulations (10 CFR) or equivalent Agreement State regulations. All generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility must complete the appropriate forms.

7. *The estimated number of annual responses*: 5,600.

8. *The estimated number of annual respondents*: 220.

Note that the NRC does not collect or retain data on manifest forms and the forms are not sent to or received by the NRC. The estimates provided in items seven and eight above are from the previous form renewal Notice. The NRC did not receive any public comment on the previous renewal suggesting that

these estimates should be revised. NRC is requesting comment on the accuracy of these estimates in Section III of this notice.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 18,480.

10. *Abstract*: NRC Forms 541 and 541A provide a set of standardized forms to meet U.S. Department of Transportation (DOT), NRC, and State requirements. The forms were developed by NRC at the request of low level waste industry groups. The forms provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of low-level radioactive waste intended for disposal at a land disposal facility. The NRC Form 541 contains information needed by disposal site facilities to safely dispose of low-level waste and information to meet NRC and State requirements regulating these activities.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 27th day of June, 2019.

For the Nuclear Regulatory Commission.

Kristen E. Benney,

Acting NRC Clearance Officer, Office of the Chief Information Officer.

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3010, and 39 CFR part 3020, subpart B. For request(s) that the Postal Service states concern

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

National Research Strategy for the President's Roadmap To Empower Veterans and End the National Tragedy of Suicide (PREVENTS)

AGENCY: Office of Science and Technology Policy (OSTP), Executive Office of the President.

ACTION: Request for information.

SUMMARY: To advance the President's vision of a National Roadmap to Empower Veterans and End Suicide, OSTP and VA will lead development of a National Research Strategy to improve the coordination, monitoring, benchmarking, and execution of public- and private-sector research related to the factors that contribute to veteran suicide. Through this RFI, we seek input on ways to increase knowledge about factors influencing suicidal behaviors and ways to prevent suicide; inform the development of a robust and forward looking research agenda; coordinate relevant research efforts across the Nation; and measure progress on these efforts. The public input provided in response to this RFI will inform the Veteran Wellness, Empowerment, and Suicide Prevention Task Force, who will develop and implement the National Research Strategy.

DATES: *Response Deadline*: August 5, 2019.

ADDRESSES: Responses may be submitted online at [https://](https://www.research.va.gov/PREVENTS/)

www.research.va.gov/PREVENTS/ or via email to RFIresearchresponse@va.gov.

FOR FURTHER INFORMATION CONTACT:

Tracie Lattimore at 202–456–4444. Emails may be addressed to RFIresearchresponse@va.gov. Questions, comments or RFI submissions via email should include “RFI Response: National Research Strategy for the President's Roadmap to Empower Veterans and End the National Tragedy of Suicide (PREVENTS)” in the subject line of the message. Please designate the question(s) you are answering by providing the letter and number of the specific question(s) below prior to providing your answer(s).

SUPPLEMENTARY INFORMATION: On March 5, 2019, President Trump signed Executive Order (E.O.) 13861 mandating the development of the President's Roadmap to Empower Veterans and End the National Tragedy of Suicide (PREVENTS). The Roadmap will include a National Research Strategy to advance efforts to improve quality of life and reduce the rate of suicide among veterans by better coordinating research within and beyond the Federal government, and enhancing the integration of research across the social, behavioral, and biological determinants of wellness and brain health.

We aim to understand the full spectrum of factors influencing veteran suicide. Efforts are needed that would allow early detection of trauma in the brains of living people and improve our understanding and ability to prevent conditions or factors that contribute to suicide. We aim to incorporate public health approaches that target prevention strategies and address intervention for individuals, communities, and the broader population.

Reducing the rate of suicide in the veteran population will require an innovative, concerted approach to public health, with wide stakeholder input. The Federal government alone cannot address these challenges; therefore, we seek to involve the Nation's full research and development (R&D) ecosystem, and collaborate with state, local, territorial, and tribal governments, as well as community members, industry, non-profit organizations, and academic institutions to ensure that veterans have access to effective suicide prevention services. Our collective efforts begin with the common understanding that suicide is preventable, and that prevention requires ongoing support prior to and beyond intervention at the point of crisis. To end veteran suicide, we must develop a holistic understanding of the underlying factors that determine the

overall health and well-being of our Nation's veterans.

The National Research Strategy shall include milestones and metrics designed to:

- i. Improve our ability to identify individual veterans and groups of veterans at greater risk of suicide;
- ii. Develop and improve individual interventions that increase overall veteran quality of life and decrease the veteran suicide rate;
- iii. Develop strategies to better ensure the latest research discoveries are translated into practical applications and implemented quickly;
- iv. Establish relevant data-sharing protocols across Federal agencies that align with community collaborators;
- v. Draw upon technology to capture and use health data from non-clinical settings to advance behavioral and mental health research to the extent practicable;
- vi. Improve coordination among research efforts, prevent unnecessarily duplicative efforts, identify barriers to or gaps in research, and facilitate opportunities for improved consolidation, integration, and alignment; and
- vii. Develop public-private collaboration models to foster innovative and effective research that accelerates these efforts.

Further Instructions: All public comments are welcome and should be submitted by August 5, 2019 in order to ensure they are considered in the National Research Strategy. Responses may be submitted online at <https://www.research.va.gov/PREVENTS/>.

Response to this RFI is voluntary, and respondents need not reply to all questions. Each individual or institution is requested to submit only one response, and to indicate whether it is an individual or organizational response. Comments containing references, studies, research, and other empirical data that are not widely published should include copies or electronic links of the referenced materials. Comments containing profanity, vulgarity, threats, or other inappropriate language or content will not be considered.

All submissions, including attachments and other supporting materials, will become part of the public record and are subject to public disclosure. Responses to this RFI, without change, may be posted on a Federal website. Therefore, no business proprietary information, copyrighted information, or personally identifiable information should be submitted in response to this RFI.
