I. Funding Opportunity Description

Purpose of Program: The major purposes of the CSP are to expand opportunities for all students, particularly traditionally underserved students, to attend charter schools ¹ and meet challenging State academic standards; provide financial assistance for the planning, program design, and initial implementation of public charter schools; increase the number of high-quality charter schools available to students across the United States; evaluate the impact of charter schools on student achievement, families, and communities; share best practices between charter schools and other public schools; encourage States to provide facilities support to charter schools; and support efforts to strengthen the charter school authorizing process.

¹Italicized terms are defined in the Definitions section of this notice.

2 All references to the ESEA in this notice are to the ESEA, as amended by the ESSA, unless otherwise noted.
pertaining to each type of grant is provided in subsequent sections of this notice.

We have published elsewhere in this issue of the Federal Register a notice of final priorities, requirements, definitions, and selection criteria (NFP) for use in this and future Developer Grant competitions. The NFP aligns with the ESEA and clarifies key statutory provisions.

Eligible applicants are those that are qualified based on the requirements set forth in this notice. For more information on eligibility, please see section III.1. of this notice.

All charter schools receiving CSP funds must meet the definition of a charter school in section 4310(2) of the ESEA, including the requirements that a charter school comply with nondiscrimination and privacy laws, including the Age Discrimination Act of 1975, title VI of the Civil Rights Act of 1964, title IX of the Education Amendments of 1972, section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, section 444 of the General Education Provisions Act (GEPA), part B of the Individuals with Disabilities Education Act (IDEA) (i.e., rights afforded to children with disabilities and their parents), and applicable State laws.

This notice includes a competitive preference priority for developers seeking to open a new charter school or replicate or expand a high-quality charter school within a qualified opportunity zone, as well as an invitational priority for applicants receiving financial assistance from a qualified opportunity fund for the purpose of acquiring or constructing school facilities or other property. Created under the Tax Cuts and Jobs Act (Pub. L. 115–97), opportunity zones are intended to promote economic development and job creation in distressed communities through preferential tax treatment for investors. Specifically, if an individual invests capital gains in an opportunity fund—i.e., a vehicle established for the purpose of investing in property in an opportunity zone—the taxes the individual owes on those gains can be deferred and reduced. Through these priority zones, the Administration seeks to harness the power of opportunity zones to help increase the educational choices available to students in these communities.

Priorities: This notice includes one absolute priority, four competitive preference priorities, and one invitational priority. The Absolute Priority and Competitive Preference Priorities 1–3 are from the NFP for this program published elsewhere in this issue of the Federal Register.

Competitive Preference Priority 4 is from 34 CFR 75.225.

Absolute Priority: For FY 2019 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an Absolute Priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet the priority.

Each subpart of this Absolute Priority constitutes its own funding category. Applicants must clearly indicate under which subpart of the Absolute Priority they are applying. The Secretary intends to award grants under both subparts of the Absolute Priority, provided that applications of sufficiently high quality are submitted.

The priority is:

Rural Community.

Under this priority, applicants must propose to open a new charter school or to replicate or expand a high-quality charter school in one of the following:

(a) A rural community.

(b) A community that is not a rural community.

Competitive Preference Priorities: For FY 2019 and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are competitive preference priorities.

The maximum number of competitive preference priority points an application for CFDA number 84.282B can receive under these priorities is 30.

For CFDA number 84.282E, under 34 CFR 75.105(c)(2)(i), we will award an additional 10 points to an application that meets Competitive Preference Priority 1; up to an additional 10 points to an application, depending on how well the application meets Competitive Preference Priority 2; and an additional 10 points to an application that meets Competitive Preference Priority 3. The maximum number of competitive preference priority points an application for CFDA number 84.282E can receive under these priorities is 30.

(iv) Enrollment criteria (as applicable); and

Estimated Average Size of Awards: $300,000 per year.

Estimated Number of Awards: 25–35.

Note: The Department is not bound by any estimates in this notice. The estimated range and average size of awards are based on a single 12-month budget period. We may use available funds to support multiple 12-month budget periods for one or more grantees.

Project Period: Up to 60 months.

III. Eligibility Information

1. Eligible Applicants: Eligible applicants are developers that have—

(a) Applied to an authorized public chartering authority to operate a charter school; and

(b) Provided adequate and timely notice to that authority. (Section 4310(6) of the ESEA).

Additionally, the charter school must be located in a State with a State statute specifically authorizing the establishment of charter schools (section 4310(2) of the ESEA) and in which a State entity currently does not have a CSP State Entity grant (CFDA number 84.282A) under section 4303 of the ESEA.4 (Section 4305(a)(2) of the ESEA). Eligibility in a State with a CSP SEA grant (CFDA 84.282A) under the

4 States in which a State entity currently has an approved CSP State Entity grant application under section 4303 of the ESEA are Arizona, Arkansas, Colorado, Delaware, Idaho, Indiana, Maryland, Michigan, Minnesota, Mississippi, New Mexico, New York, North Carolina, Oklahoma, Rhode Island, Texas, and Wisconsin. We will not consider applications from applicants in these States under either CFDA 84.282A or 84.282E.
ESEA, as amended by NCLB, is limited to grants for replication and expansion \(^5\) (CFDA 84.282E) and only if the Department has not approved an amendment to the SEA’s approved grant application authorizing the SEA to make subgrants for replication and expansion. \(^6\)

As a general matter, the Secretary considers charter schools that have been in operation for more than five years to be past the initial implementation phase and, therefore, ineligible to receive CSP funds under CFDA number 84.282B to support the opening of a new charter school or under CFDA number 84.282E for the replication of a high-quality charter school; however, such schools may receive CSP funds under CFDA number 84.282E for the expansion of a high-quality charter school.

Note: If an applicant has applied to an authorized public chartering agency to operate a new school and has not yet been approved, it should include information in its application addressing the plan and timeline to receive notification from the authorizer on the final decision. Additionally, an applicant should delineate any costs in its proposed budget that are projected to be incurred prior to the date the applicant’s charter school application is approved by the authorized public chartering agency.

2. Cost Sharing or Matching: This program does not require cost sharing or matching.

3. Subgrantees: A grantee under this competition may not award subgrants to entities to directly carry out project activities described in its application.

4. Reasonable and Necessary Costs:

The Secretary may elect to impose maximum limits on the amount of grant funds that may be awarded for a new charter school, or replicated, or expanded, high-quality charter school.

For this competition, the maximum limit of grant funds that may be awarded for a new, replicated, or expanded charter school is $1,500,000.

In accordance with 2 CFR 200.404, applicants must ensure that all costs included in the proposed budget are reasonable and necessary in light of the goals and objectives of the proposed project. Any costs determined by the Secretary to be unreasonable or unnecessary will be removed from the final approved budget.

A charter school that previously has received CSP funds for replication or expansion or for planning or initial implementation of a charter school under CFDA number 84.282A or 84.282M (under the ESEA) may not use funds under this grant for the same purpose. However, such charter school may be eligible to receive funds under this competition to expand the charter school beyond the existing grade levels or student count. Likewise, a charter school that receives funds under this competition is ineligible to receive funds for the same purpose under section 4303(b)(1) or 4305(b) of the ESEA, including opening and preparing for the operation of a new charter school, opening and preparing for the operation of a replicated high-quality charter school, or expanding a high-quality charter school (i.e., CFDA number 84.282A or 84.282M).

IV. Application and Submission

1. Application Submission Instructions: For information on how to submit an application please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768) and available at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf, which contain requirements and information on how to submit an application.

2. Submission of Proprietary Information: Given the types of projects that may be proposed in applications for this competition, an application may include business information that the applicant considers proprietary. In 34 CFR 5.11 we define “business information” and describe the process we use in determining whether any of that information is proprietary and, thus, protected from disclosure under Exemption 4 of the Freedom of Information Act (5 U.S.C. 552, as amended).

Because we plan to make successful applications available to the public, you may wish to request confidentiality of business information.

Consistent with Executive Order 12600, please designate in your application any information that you feel is exempt from disclosure under Exemption 4 of the Freedom of Information Act. In the appropriate Appendix section of your application, under “Other Attachments Form,” please list the page number or numbers on which we can find this information. For additional information please see 34 CFR 5.11(c).

Information about Intergovernmental Review of Federal Programs under Executive Order 12372 is in the application package for this program. Please note that, under 34 CFR 79.8(a), we have shortened the standard 60-day intergovernmental review period in order to make awards by the end of FY 2019.

4. Funding Restrictions: Grantees must use the grant funds to open and prepare for the operation of a new charter school; to open and prepare for the operation of a replicated high-quality charter school; or to expand a high-quality charter school, as applicable. \(^5\) States in which the SEA currently has an approved CSP SEA grant application under the ESEA, as amended by NCLB (i.e., a grant award made in fiscal year 2016 or earlier), include California, District of Columbia, Florida, Georgia, Illinois, Louisiana, Massachusetts, Nevada, Ohio, Oregon, South Carolina, Tennessee, and Washington. We will not consider applications from applicants in these States for the opening of new charter schools submitted under CFDA number 84.282B.

\(^6\) States in which the SEA currently has an approved CSP SEA grant application under the ESEA, as amended by NCLB (i.e., a grant award made in fiscal year 2016 or earlier) and have approved amendment requests that authorize the SEA to make subgrants for replication and expansion, include California, District of Columbia, Nevada, Ohio, and Oregon. We will not consider applications from applicants in these States under CFDA 84.282E either.
such costs cannot be met from other sources.

A grant awarded by the Secretary under this competition may be for a period of not more than five years, of which the grantee may use not more than 18 months for planning and program design. (Section 4303(d)(1)(B) of the ESEA). Applicants may propose to support only one charter school per grant application.

We reference additional regulations outlining funding restrictions in the Applicable Regulations section in this notice.

5. Recommended Page Limit: The application narrative (Part III of the application) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. We recommend that you (1) limit the narrative to no more than 50 pages, and (2) use the following standards:

- A “page” is 8.5” x 11”, on one side only, with 1” margins at the top, bottom, and both sides.
- Double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.
- Use a font that is either 12 point or larger or no smaller than 10 pitch (characters per inch).
- Use one of the following fonts: Times New Roman, Courier, Courier New, or Arial.

The recommended page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography, or the letters of support. However, the recommended page limit does apply to all of the application narrative.

V. Application Review Information

1. Selection Criteria. The selection criteria for applicants submitting applications under CFDA numbers 84.282B and 84.282E are listed in paragraphs (a) and (b) of this section, respectively. These selection criteria are from the NFP and 34 CFR 75.210. The maximum possible score for addressing all of the criteria in each section is 100 points. The maximum possible score for addressing each criterion is indicated in parentheses following the criterion.

In evaluating an application for a Developer Grant, the Secretary considers the following criteria:

(a) Selection Criteria for Grants for the Opening of New Charter Schools (CFDA number 84.282B).

1. Significance of contribution in assisting educationally disadvantaged students (up to 15 points).

The Secretary considers the significance of contribution in assisting educationally disadvantaged students for the proposed project. In determining the significance of the contribution the proposed project will make in expanding educational opportunity for educationally disadvantaged students and enabling those students to meet challenging State academic standards, the Secretary considers the quality of the plan to ensure that the charter school the applicant proposes to open, replicate, or expand will recruit, enroll, and effectively serve educationally disadvantaged students, which include children with disabilities and English learners. (NFP)

2. Quality of the project design (up to 30 points).

(6) Quality of the continuation plan (up to 10 points).

The Secretary considers the quality of the continuation plan for the proposed project. In determining the quality of the continuation plan, the Secretary considers the extent to which the eligible applicant is prepared to continue to operate the charter school that would receive grant funds in a manner consistent with the eligible applicant’s application once the grant funds under this program are no longer available. (NFP)

2. Review and Selection Process: We remind potential applicants that in reviewing applications under any discretionary grant competition, the Secretary may consider, under 34 CFR 75.210(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant’s use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary requires various assurances, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. Risk Assessment and Specific Conditions: Consistent with 2 CFR 200.205, before awarding grants under this competition the Department conducts a review of the risks posed by applicants. Under 2 CFR 3474.10, the Secretary may impose specific conditions and, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

4. Integrity and Performance System: If you are selected under this competition to receive an award that over the course of the project period may exceed the simplified acquisition threshold (currently $250,000), under 2 CFR 200.205(a)(2) we must make a judgment about your integrity, business ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (referred to as the Federal Awardee Performance and Integrity Information System (FAPIIS)), accessible through the System for Award Management. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIIS.

Please note that, if the total value of your currently active grants, cooperative agreements, and procurement contracts from the Federal Government exceeds $10,000,000, the reporting requirements in 2 CFR part 200, Appendix XII, require you to report certain integrity information to FAPIIS semiannually. Please review the requirements in 2 CFR part 200, Appendix XII, if this grant plus all other Federal funds you receive exceed $10,000,000.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and
send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Open Licensing Requirements: Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. Reporting: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

5. Performance Measures: (a) The Secretary has two performance indicators to measure progress toward achieving the purposes of the program, which are discussed elsewhere in this notice. The performance indicators are:

1. The number of charter schools in operation around the Nation and
2. The percentage of fourth- and eighth-grade charter school students who are achieving at or above the proficient level on State assessments in mathematics and reading/language arts.

Additionally, the Secretary has established the following measure to examine the efficiency of the CSP: The Federal cost per student in implementing the CSP (defined as a school in operation for three or more consecutive years).

(b) Project-Specific Performance Measures. Applicants must propose project-specific performance measures and performance targets consistent with the objectives of the proposed project. Applications must provide the following information as directed under 34 CFR 75.110(b) and (c):

1. Performance measures. How each proposed performance measure would accurately measure the performance of the project and how the proposed performance measure would be consistent with the performance measures established for the program funding the competition.

2. Baseline data. (i) Why each proposed baseline is valid; or (ii) if the applicant has determined that there are no established baseline data for a particular performance measure, an explanation of why there is no established baseline and of how and when, during the project period, the applicant would establish a valid baseline for the performance measure.

3. Performance targets. Why each proposed performance target is ambitious yet achievable compared to the baseline for the performance measure and when, during the project period, the applicant would meet the performance target(s).

4. Data collection and reporting. (i) The data collection and reporting methods the applicant would use and why those methods are likely to yield reliable, valid data; and (ii) the applicant’s capacity to collect and report reliable, valid, and meaningful performance data, as evidenced by high-quality data collection, analysis, and reporting in other projects or research.

All grantees must submit an annual performance report with information that is responsive to these performance measures.

6. Continuation Awards: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things, whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee’s approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

7. Project Director’s Meeting: Applicants approved for funding under this competition must attend a two-day meeting for project directors at a location to be determined in the continental United States during each year of the project. Applicants may include the cost of attending this meeting as an administrative cost in their proposed budgets.

Abstract: Section 483 of the Higher Education Act of 1965, as amended (HEA), mandates that the Secretary of Education “. . . shall produce, distribute, and process free of charge common financial reporting forms as described in this subsection to be used for application and reapplication to determine the need and eligibility of a student for financial assistance . . .”.

The determination of need and eligibility are for the following Title IV, HEA, federal student financial assistance programs: the Federal Pell Grant Program; the Campus-Based programs (Federal Supplemental Educational Opportunity Grant (FSEOG) and Federal Work-Study (FWS)); the William D. Ford Federal Direct Loan (Direct Loan) Program; the Teacher Education Assistance for College and Higher Education (TEACH) Grant; the Children of Fallen Heroes Scholarship; and the Iraq and Afghanistan Service Grant.

Federal Student Aid (FSA), an office of the U.S. Department of Education, subsequently developed an application process to collect and process the data necessary to determine a student’s eligibility to receive Title IV, HEA program assistance. The application process involves an applicant’s submission of the Free Application for Federal Student Aid (FAFSA®). After submission and processing of the FAFSA form, an applicant receives a Student Aid Report (SAR), which is a summary of the processed data they submitted on the FAFSA form. The applicant reviews the SAR, and, if necessary, will make corrections or updates to their submitted FAFSA data. Institutions of higher education listed by the applicant on the FAFSA form also receive a summary of processed data submitted on the FAFSA form which is called the Institutional Student Information Record (ISIR).

ED and FSA seek OMB approval of all application components as a single “collection of information”. The aggregate burden will be accounted for under OMB Control Number 1845–0001. The specific application components, descriptions, and submission methods for each are listed in Table 1.
