

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safinc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Data Webinar are as follows:

Panelists will review and discuss outstanding issues from the Data Workshop for data sets being considered for the assessment and may discuss initial modeling efforts.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 3, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XH084

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council will hold a two day in-person meeting of its Standing, Reef Fish, Mackerel and Socioeconomic Scientific and Statistical Committees (SSC).

DATES: The meeting will begin at 8:30 a.m. on Tuesday, July 30, 2019 and adjourn by 5 p.m., EDT on Wednesday, July 31, 2019.

ADDRESSES: The meeting will be held at the Gulf Council's office; see address below.

Council address: Gulf of Mexico Fishery Management Council, 4107 W Spruce Street, Suite 200, Tampa, FL 33607; telephone: (813) 348-1630.

FOR FURTHER INFORMATION CONTACT: Ryan Rindone, Fishery Biologist, Gulf of Mexico Fishery Management Council; ryan.rindone@gulfcouncil.org, telephone: (813) 348-1630.

SUPPLEMENTARY INFORMATION:

Tuesday, July 30, 2019; 8:30 a.m.–5 p.m.

The meeting will begin with Introductions, Adoption of Agenda, Scope of Work, Approval of Scientific and Statistical Committees (SSC) Minutes from the May 9, 2019 Standing, Reef Fish, Mackerel, and Socioeconomic SSC Webinar; and, Selection of SSC

representative to attend the August 12–15, 2019 Council meeting in New Orleans, Louisiana.

The committees will receive presentations on the following: Best Scientific Information Available—NOAA Policy Directive for Stock Status Determinations and Catch Specifications, National Standard 2 (background information); National Standard 1 Guidance on Estimation of Fishing Mortality and Biomass Proxies; Coping with Information Gaps in Stock Productivity for Rebuilding and Achieving Maximum Sustainable Yield for Grouper-Snapper Fisheries; Establishing Stock Status Determination Criteria for Fisheries with High Discards and Uncertain Recruitment; and, a Perspective on Steepness, Reference Points, and Stock Assessment. The committees will then review the revised actions for Status Determination Criteria Amendment.

Wednesday, July 31, 2019; 8:30 a.m.–5 p.m.

The committees will hold a discussion on Alternative Acceptable Biological Catch (ABC) Control Rule; review Marine Recreational Information Program (MRIP) and State Survey Data Collection and Calibration Efforts; discuss SEDAR 62: *Gray Triggerfish* Progress and Council Research and Monitoring Priorities for 2020–24. The committees will review the scope of work for *Gray Snapper* and West Florida *Hogfish* Assessments; review the Gulf SEDAR Assessment Schedule; receive a presentation on Explosive Removal of Structures: Fisheries Impact Assessment; discuss Almaco Jack Life History and Landings; and, any other business items.

—Meeting Adjourns

The meeting will be broadcast via webinar. You may register for listen-in access by visiting www.gulfcouncil.org and clicking on the SSC meeting on the calendar.

The Agenda is subject to change, and the latest version along with other meeting materials will be posted on www.gulfcouncil.org as they become available.

Although other non-emergency issues not on the agenda may come before the Scientific and Statistical Committee for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. Actions of the Scientific and Statistical Committee will be restricted to those issues specifically identified in the agenda and any issues arising after

publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Gulf Council Office (see **ADDRESSES**), at least 5 working days prior to the meeting.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 3, 2019.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2006-0057]

Notice of Availability: Plan To Evaluate CO Mitigation Requirements for Portable Generators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of availability.

SUMMARY: The Consumer Product Safety Commission (CPSC) is announcing the availability of, and seeking comment on, a document related to CPSC's efforts to address carbon monoxide poisoning hazards from portable generators, NIST Technical Note 2048, "*Simulation and Analysis Plan to Evaluate the Impact of CO Mitigation Requirements for Portable Generators.*"

DATES: Submit comments by September 9, 2019.

ADDRESSES: You may submit comments, identified by Docket No. CPSC-2006-0057, by any of the following methods:

Electronic Submissions: Submit electronic comments in the following way: Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments. To ensure timely processing of comments, please submit all electronic (email) comments through www.regulations.gov rather than to CPSC. CPSC encourages you to submit electronic comments by using the Federal eRulemaking Portal, as described above.

Written Submissions: Submit written comments in the following way: Mail/Hand delivery/Courier (for paper, disk or CD-ROM submissions), preferably in five copies, to: Division of the Secretariat, Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-7923.

Instructions: All submissions received must include the agency name and docket number for this notice. All comments received may be posted without change to <http://www.regulations.gov>, including any personal identifiers, contact information, or other personal information provided. Do not submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. If furnished at all, such information should be submitted by mail/hand delivery/courier.

Docket: For access to the docket to read background documents or comments received, go to: <http://www.regulations.gov>, insert docket number CPSC-2006-0057 into the "Search" box, and follow the prompts.

FOR FURTHER INFORMATION CONTACT:

Janet Buyer, Project Manager, Directorate for Engineering Sciences, Consumer Product Safety Commission, 5 Research Place, Rockville, MD 20850; telephone: 301-987-2293; email: jbuyer@cpsc.gov.

SUPPLEMENTARY INFORMATION: The CPSC is engaged in an ongoing effort to address carbon monoxide (CO) poisonings of consumers from portable generators.¹ The National Institute of Standards and Technology (NIST) and CPSC staff have developed a plan that will enable CPSC staff to estimate the effectiveness of CO mitigation requirements that were adopted in two voluntary standards in 2018: *ANSI/PGMA G300-2018, Safety and Performance of Portable Generators* (PGMA G300) and *ANSI/UL 2201-2018, Carbon Monoxide (CO) Emission Rate of Portable Generators* (UL 2201). PGMA G300 has requirements for a system that will shut off the generator when specific CO concentrations are present near the generator, as well as notification requirements to alert the user of the presence of CO after the generator has shut off. UL 2201 has requirements for a system that will shut off the generator

when specific CO concentrations are present near the generator and a requirement for a reduced CO emission rate.

The plan to evaluate the CO mitigation requirements in PGMA G300 and UL 2201 is presented in NIST Technical Note 2048, "*Simulation and Analysis Plan to Evaluate the Impact of CO Mitigation Requirements for Portable Generators*" (NIST TN 2048). NIST TN 2048 documents the plan for conducting a computer simulation study and for analyzing the output. The methodology in NIST TN 2048 is similar to the methodology CPSC staff used to evaluate the benefits of the proposed portable generator rule the Commission issued in 2016. The simulation study will use the same 40 buildings, weather conditions, and generator characteristics that were used to evaluate the benefits in the Commission's 2016 portable generator proposed rule to study the rate at which the CO emitted from the generator accumulates in, transports through, and leaves the homes and detached garages for generators with and without CO safety shutoff systems. The plan includes more than 900 scenarios in all the buildings that will require more than a million simulations, the output of which will be analyzed to estimate the effectiveness of the voluntary standards.

The Commission seeks public comment on this NIST Technical Note. NIST TN 2048 is available on NIST's website at: <http://dx.doi.org/10.6028/NIST.TN.2048>, and from the Commission's Division of the Secretariat, at the location listed in the **ADDRESSES** section of this notice.

NIST TN 2048 references another NIST report, NIST Technical Note 2049, "*Carbon Monoxide Concentrations and Carboxyhemoglobin Profiles from Portable Generators with a CO Safety Shutoff in a Test House*" (NIST TN 2049). NIST TN 2049 documents the results from a series of tests and model validation work that NIST performed to develop methods that CPSC staff will use in the Simulation Plan. NIST TN 2049 is available on NIST's website at: <http://dx.doi.org/10.6028/NIST.TN.2049>, and can also be obtained from the Commission's Division of the Secretariat.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

[FR Doc. 2019-14510 Filed 7-8-19; 8:45 am]

BILLING CODE 6355-01-P

¹ On November 21, 2016, the Commission published a notice of proposed rulemaking (NPRM) to address the CO hazard associated with portable generators. (*Safety Standard for Portable Generators*, 81 FR 83,556).
