Notice of Availability of the Finding of No Significant Impact/Record of Decision and Adoption of the United States Air Force Supplemental Environmental Analysis for the Establishment of the Playas Temporary Military Operating Area

AGENCY: Federal Aviation Administration, Department of Transportation.

SUMMARY: The Federal Aviation Administration (FAA) announces its decision to adopt the United States Air Force (USAF) Playas Military Operating Area and Red Flag Rescue Supplemental Environmental Analysis (SEA) for the establishment of a Temporary Military Operating Area (TMOA) in Playas, New Mexico. This notice announces that based on its independent review and evaluation of the SEA and supporting documentation, the FAA is adopting the SEA and issuing a Finding of No Significant Impact (FONSI)/Record of Decision (ROD) for the establishment of the Playas TMOA.

FOR FURTHER INFORMATION CONTACT:
Paula Miller, Airspace Policy and Regulations Group, Office of Airspace Services, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–7378.

SUPPLEMENTARY INFORMATION:

Background

The USAF has established Red Flag–Rescue as an USAF level combat search and rescue exercise that is conducted twice a year using the Playas Training and Research Center located in Grant and Hidalgo Counties in southwest New Mexico. The Red Flag–Rescue training exercise is designed to provide personnel recovery training for U.S. combat aircrews, para-rescue teams, survival specialists, intelligence personnel, air battle managers, and personnel from the Joint Personnel Recovery Center. A TMOA is required for military aircraft that support the exercise. In accordance with Section 102 of the National Environmental Policy Act of 1969 (“NEPA”), the Council on Environmental Quality’s (“CEQ”) regulations implementing NEPA (40 CFR Parts 1500–1508), and other applicable authorities, including the FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 8–2, and FAA Order JO 7400.2M, “Procedures for Handling Airspace Matters,” paragraph 32–2–3, the FAA has conducted an independent review and evaluation of the USAF’s SEA, dated February 2018, and its supporting documents. As a cooperating agency with responsibility for approving special use airspace (SUA) under 49 U.S.C. 40103(b)(3)(A), the FAA provided subject matter expertise and coordinated with the USAF during the environmental review process.

Implementation

After evaluating the aeronautical study and the SEA, the FAA has issued a FONSI/ROD to establish the Playas TMOA for a period not to exceed five days during an 18-day window from August 10–24, 2019. The Playas TMOA will be activated by publishing a Notice to Airman two cycles (56 days) prior to the exercise in the Notices to Airman Publication.

FAA circulated the proposed action from February 23, 2019 through April 1, 2019 in the areas required by JO 7400.2M, which resulted in zero public comments. The circulation referenced two events, a USAF exercise in May 2019 and another in August 2019. The May 2019 event was canceled, but the August 2019 event is the proposed action. The FONSI/ROD and SEA are available upon request by contacting Paula Miller at: Airspace Policy and Regulations Group, Office of Airspace Services, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–7378.

Issued in Des Moines, WA, on June 24, 2019.

[Docket No. FAA–2019–0396]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Application for Employment With the Federal Aviation Administration Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.
SUMMARY: This notice is a Correction to the notice published on May 14, 2019, due to invalid Form Number and omission of the website’s URL.

In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves an automated application process for employment with the Federal Aviation Administration by way of the Office of Personnel Management’s (OPM) USAJOBS website: www.usajobs.gov. The Applicants begin the application process by building an account on USAJOBS website and thereafter, they are passed into the FAA Automated Vacancy Information Access Tool for Online Referral (AVIATOR) to answer specific questions related to FAA job vacancy of interest. This pass through is a direct USAJOBS interface with AVIATOR and; hence, there is no standalone link to be used by the applicants.

The information collected is necessary to determine basic eligibility for employment and potential eligibility for Veteran’s Preference, Veteran’s Readjustment Act, and People with Disability appointments. In addition, there are specific occupation questions that assist the FAA Office of Human Resource Management (AHR) in determining candidates’ qualifications in order that the best-qualified candidates are hired for the many FAA occupations.

DATES: Written comments should be submitted by September 9, 2019.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (Enter docket number in the search field).

By mail: Toni Main-Valentin, FAA Mike Monroney Aeronautical Center, Office of Human Resource Management, P.O. Box 25082, Headquarters Bldg1, Oklahoma City, OK 73125.

By fax: 405–954–5766.

FOR FURTHER INFORMATION CONTACT: Toni Main-Valentin by email at: toni.main-valentin@faa.gov; phone: 405–954–0870.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

OMB Control Number: 2120–0597.

Title: Application for Employment with the Federal Aviation Administration.

Online website: www.usajobs.gov.

Type of Review: Renewal of an information collection.

Background: Under the provisions of Public Law 104–50, the Federal Aviation Administration (FAA) was given the authority and the responsibility for developing and implementing its own personnel system without regard to most of the provisions of Title 5, United States Code, exceptions being those concerning veteran’s preference and various benefits.

The OPM developed a suite of forms for use in automated employment processes: All under a single OMB approval. The FAA AHR has the same OMB approval for its automated application for employment. By automating processes for employment application and the evaluation of candidates, AHR has markedly improved the service it provides to the public as well as its ability to locate and hire the best-qualified applicants. Lastly, via this process, applicants are provided on-line results immediately upon submitting their application questionnaires.

The Agency is requesting certain information necessary to determine basic eligibility for employment and potential eligibility for Veteran’s Preference, Veteran’s Readjustment Act, and People with Disability appointments. In addition, occupation specific questions assist AHR in determining candidates’ qualifications in order that the best-qualified candidates are hired for the many FAA occupations. The system currently in use for this collection is the Automated Vacancy Information Access Tool for Online Referral (AVIATOR). This system cannot be directly accessed. Applicants are transferred to the AVIATOR system from OPM’s USAJOBS website during the application process.

Respondents: Over 180,000 U.S. citizens identified as applicants for employment with the Federal Aviation Administration.

Frequency: On occasion/as interested.

Estimated Average Burden per Respondent: 1 hour.

Estimated Total Annual Burden: 180,000 hours.

Approximately 180,000 respondents will complete an application form on an as needed basis. Based on this sample size, it will take the average applicant approximately 1 hour to read the instructions and complete the form. The estimated total burden is 180,000 hours annually.

Issued in Washington, DC, on May 16, 2019.

Alpha Woodson-Smith,

Information Technology Project Manager, Finance and Management (AFN), Information and Technology Services (AFT), Enterprise Program Management Service (AEM–320).
