Certain Corrosion-Resistant Steel Products From Taiwan: Affirmative Preliminary Determination of Anti-Circumvention Inquiry on the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that imports of certain corrosion-resistant steel products (CORE), produced in the Socialist Republic of Vietnam (Vietnam) using hot-rolled steel (HRS) and/or cold-rolled steel (CRS) flat products manufactured in Taiwan, are circumventing the antidumping duty (AD) order on CORE from Taiwan.

SUPPLEMENTARY INFORMATION:

Background

Certain domestic interested parties, ArcelorMittal USA LLC, California Steel Industries, Nucor Corporation, Steel Dynamics, Inc., and United States Steel Corporation (collectively, the petitioners), filed an allegation 1 that imports of CORE from Vietnam made from HRS and/or CRS sourced from Taiwan and exported to the United States as CORE from Vietnam are circumventing the Taiwan CORE Order. 2 In their allegation, the petitioners requested that Commerce initiate an anti-circumvention inquiry pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.225(h), to determine whether the importation of the Taiwanese-origin HRS and/or CRS substrate for manufacturing into CORE in Vietnam and subsequent sale of that CORE to the United States constitutes circumvention of the Taiwan CORE Order.

On August 2, 2018, Commerce published the notice of initiation of anti-circumvention inquiry on imports of CORE from Vietnam. 3 For a complete description of the events that followed the initiation of this inquiry, see the Preliminary Decision Memorandum. 4 A list of topics included in the Preliminary Decision Memorandum is included as Appendix I to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at http://enforcement.trade.gov/frn/. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Commerce exercised its discretion to toll all deadlines affected by the partial government shutdown from December 22, 2018 through the resumption of operations on January 29, 2019. 5 If the new deadline falls on a non-business day, in accordance with Commerce’s practice, the deadline will become the next business day.

Scope of the Order

The products covered by this order are certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. For a complete description of the scope of the order, see the Preliminary Decision Memorandum.

Scope of the Anti-Circumvention Inquiry

This anti-circumvention inquiry covers CORE produced in Vietnam from HRS and/or CRS substrate input manufactured in Taiwan and subsequently exported from Vietnam to the United States (merchandise under consideration). This preliminary ruling applies to all shipments of merchandise under consideration on or after the date of initiation of this inquiry. Importers and exporters of CORE produced in Vietnam using: (1) HRS manufactured in Vietnam or third countries, (2) CRS manufactured in Vietnam using HRS produced in Vietnam or third countries, or (3) CRS manufactured in third countries, must certify that the HRS and/or CRS processed into CORE in Vietnam did not originate in Taiwan, as provided for in the certifications attached to the Federal Register notice. Otherwise, their merchandise may be subject to antidumping duties if Commerce makes an affirmative final determination in this inquiry.

Methodology

Commerce is conducting this anti-circumvention inquiry in accordance with section 781(b) of the Act. Because Vietnam is a non-market economy country, within the meaning of section 771(18) of the Act, Commerce has calculated the value of certain processing and merchandise using factors of production and market-economy values, as discussed in section 773(c) of the Act. For a full description of the methodology underlying Commerce’s preliminary determination, see the Preliminary Decision Memorandum.

Preliminary Finding

As detailed in the Preliminary Decision Memorandum, we preliminarily determine that CORE produced in Vietnam from HRS and/or CRS sourced from Taiwan is circumventing the Taiwan CORE Order. We therefore preliminarily determine that it is appropriate to include this merchandise within the Taiwan CORE Order and to instruct U.S. Customs and Border Protection (CBP) to suspend any

All deadlines in this segment have been extended by 40 days.

entries of CORE from Vietnam produced from HRS and/or CRS from Taiwan.

**Suspension of Liquidation**

As stated above, Commerce has made a preliminary affirmative finding of circumvention of the Taiwan CORE Order by exports to the United States of CORE produced by any Vietnamese company from Taiwanese-origin HRS and/or CRS inputs. In accordance with 19 CFR 351.225(j)(2), Commerce will direct CBP to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of CORE produced in Vietnam, as appropriate, that were entered, or withdrawn from warehouse, for consumption on or after August 2, 2018, the date of initiation of the anti-circumvention inquiry. The suspension of liquidation instructions will remain in effect until further notice.

CORE produced in Vietnam from HRS and/or CRS that is not of Taiwanese-origin is not subject to this inquiry. Therefore, cash deposits are not required for such merchandise. However, CORE produced in Vietnam from HRS and/or CRS from China is subject to the AD/CVD orders on CORE from China,7 and CORE produced in Vietnam from HRS and/or CRS from Korea has preliminarily been found to be circumventing the AD/CVD orders on CORE from Korea.8 Imports of such merchandise are also subject to certification requirements and cash deposits may be required. If an importer imports CORE from Vietnam and claims that the CORE was not produced from HRS and/or CRS substrate manufactured in Taiwan, in order not to be subject to cash deposit requirements, the importer and exporter are required to meet the certification and documentation requirements described in Appendix II. Exporters of CORE produced from non-Taiwanese-origin HRS and/or CRS substrate must prepare and maintain an Exporter Certification and documentation supporting the Certification (see Appendix IV). In addition, importers of such CORE must prepare and maintain an Importer Certification (see Appendix III) as well as documentation supporting the Importer Certification. Besides the Importer Certification, the importer must also maintain a copy of the Exporter Certification (see Appendix IV) and relevant supporting documentation from the exporter of CORE who did not use the Taiwanese-origin HRS and/or CRS substrate.

In the situation where no certification is provided for an entry, and AD/CVD orders from three countries (China, Korea, or Taiwan) potentially apply to that entry, Commerce intends to instruct CBP to suspend the entry and collect cash deposits at the CORE China Circumvention Final rates (i.e., the AD rate established for the China-wide entity (199.43 percent) and the CVD rate established for the China-all others rate (39.05 percent)).9 This is to prevent evasion, given that the CORE China Circumvention Final rates are higher than the AD and CVD rates established for CORE from Korea and Taiwan. In the situation where a certification is provided for the AD/CVD orders on CORE from China (stating that the merchandise was not produced from HRS and/or CRS from China), but no other certification is provided, then Commerce intends to instruct CBP to suspend the entry and collect cash deposits at the AD and CVD all-others rates (i.e., 8.31 percent and 1.19 percent, respectively) applicable to the AD/CVD orders on CORE from Korea.10 This is to prevent evasion, given that the AD and CVD rates established for CORE from Korea are higher than the AD rate established for CORE from Taiwan.

**Verification**

As provided in 19 CFR 351.307, Commerce intends to verify information relied upon in making its final determination.

**Public Comment**

Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the last final verification report is issued in this anti-circumvention inquiry, unless the Secretary alters the time limit. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.11 Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this anti-circumvention inquiry are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party’s name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

**International Trade Commission Notification**

Commerce, consistent with section 781(e) of the Act, has notified the International Trade Commission (ITC) of this preliminary determination to include the merchandise subject to this anti-circumvention inquiry within the Taiwan CORE Order. Pursuant to section 781(e) of the Act, the ITC may request consultations concerning Commerce’s proposed inclusion of the merchandise under consideration. If, after consultations, the ITC believes that a significant injury issue is presented by the proposed inclusion, it will have 60 days from the date of notification by Commerce to provide written advice.

**Notification to Interested Parties**

This determination is issued and published in accordance with section 781(b) of the Act and 19 CFR 351.225(f).
Dated: June 28, 2019.

Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.

Certification Requirements

If an importer imports certain corrosion-resistant steel products (CORE) from the Socialist Republic of Vietnam (Vietnam) and claims that the CORÉ was not produced from hot-rolled steel and/or cold-rolled steel substrate (substrate) manufactured in Taiwan, the importer is required to complete and maintain the importer certification attached hereto as Appendix III and all supporting documentation. Where the importer uses a broker to facilitate the entry process, it should obtain the entry number from the broker. Agents of the importer, such as brokers, however, are not permitted to make this certification on behalf of the importer.

The exporter is required to complete and maintain the exporter certification, as attached as Appendix IV, and is further required to provide the importer a copy of that certification and all supporting documentation.

For shipments and/or entries on or after August 2, 2018 through July 18, 2019 for which certifications are required, importers and exporters each should complete the required certification within 30 days of the Federal Register notice publication of the preliminary determination of circumvention.1 For such entries/shipments, importers and exporters each have the option to complete a blanket certification covering multiple entries/shipments, individual certifications for each entry/shipment, or a combination thereof.

For shipments and/or entries on or after July 19, 2019, for which certifications are required, importers should complete the required certification at or prior to the time of shipment, and exporters should complete the required certification and provide it to the importer at or prior to the date of shipment.

The importer and Vietnamese exporter are also required to maintain sufficient documentation supporting their certifications. The importer will not be required to submit the certifications or supporting documentation to U.S. Customs and Border Protection (CBP) as part of the entry process at this time. However, the importer and the exporter will be required to present the core normal course of business, and supporting documentation, to Commerce and/or CBP, as applicable, upon request by the respective agency. Additionally, the claims made in the certifications and any supporting documentation are subject to verification by Commerce and/or CBP. The importer and exporter are required to maintain the certifications and supporting documentation for the later of (1) a period of five years from the date of entry or (2) a period of three years after the conclusion of any litigation in United States courts regarding such entries.

In the situation where no certification is provided for an entry, and AD/CVD orders from three countries (China, Korea, or Taiwan) potentially apply to that entry, Commerce intends to instruct CBP to suspend the entry and collect cash deposits at the CORE China Circumvention Final rates (i.e., the AD rate established for the China-wide entity (199.43 percent) and the CVD rate established for China-all others rate (39.05 percent)).2 In the situation where a certification is provided for the AD/CVD orders on CORE from China (stating that the merchandise was not produced from HRS and/or CRS from China), but no other certification is provided, then Commerce intends to instruct CBP to suspense the entry and collect cash deposits at the AD and CVD all-others rates (i.e., 8.31 percent and 1.19 percent, respectively) applicable to the AD/CVD orders on CORE from Korea.
