

Chinese exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Disclosure and Public Comment

Commerce intends to disclose the calculations performed for these preliminary results to the parties within ten days of the date of publication of this notice in accordance with 19 CFR 351.224(b). Interested parties are invited to comment on the preliminary results and may submit case briefs and/or written comments, filed electronically using ACCESS, within 30 days of the date of publication of this notice, pursuant to 19 CFR 351.309(c)(1)(ii). Rebuttal briefs, limited to issues raised in the case briefs, will be due five days after the due date for case briefs, pursuant to 19 CFR 351.309(d). Parties who submit case or rebuttal briefs in this review are requested to submit with each argument a statement of the issue, a summary of the argument not to exceed five pages, and a table of statutes, regulations, and cases cited, in accordance with 19 CFR 351.309(c)(2).

Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically via ACCESS. An electronically filed document must be received successfully in its entirety by 5:00 p.m. Eastern Time (ET) within 30 days after the date of publication of this notice. Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) whether any participant is a foreign national; and (4) a list of issues parties intend to discuss. Issues raised in the hearing will be limited to those raised in the respective case and rebuttal briefs.¹¹ If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, at a date and time to be determined.¹² Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

Unless otherwise extended, Commerce intends to issue the final results of this administrative review, which will include the results of its

analysis of issues raised in any briefs, within 120 days of publication of these preliminary results, pursuant to section 751(a)(3)(A) of the Act.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification to Interested Parties

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: July 8, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix

List of Topics Discussed in the Preliminary Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Order
- IV. Discussion of the Methodology
- V. Recommendation

[FR Doc. 2019-14863 Filed 7-11-19; 8:45 am]

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Institute of Standards and Technology, Commerce.

Title: Analysis of Exoskeleton-Use for Enhancing Human Performance Data Collection.

OMB Control Number: 0693-0083.

Form Number(s): None.

Type of Request: Revision and extension of a current information collection.

Number of Respondents: 180.

Average Hours per Response: 10 minutes.

Burden Hours: 30 hours.

Needs and Uses: NIST's Engineering Laboratory will be developing methods to evaluate performance of exoskeletons in two key areas (1) The fit and motion of the exoskeleton device with respect to the users' body and (2) The impact that using an exoskeleton has on the performance of users executing tasks that are representative of activities in industrial settings. The results of these experiments will inform future test method development at NIST, other organizations, and under the purview of the new American Society for Testing Materials (ASTM) Committee F48 on Exoskeletons and Exosuits. This study had previously been approved through the PRA process, however, updates to the questionnaire are needed to include additional research questions. The changes to the questionnaire are needed to better align research questions with the tasks being performed by subjects. Some additional background information is also being asked to correlate data during analysis of subject performance with age, height, activity level, etc.

Affected Public: Individuals.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

¹¹ See 19 CFR 351.310(c).

¹² See 19 CFR 351.310(d).

Title: West Coast Fisheries Participation Survey.

OMB Control Number: 0648–0749.

Form Number(s): None.

Type of Request: Regular.

Number of Respondents: 1500.

Average Hours per Response: 0.33.

Burden Hours: 500.

Needs and Uses: The Northwest Fisheries Science Center (NWFSC) seeks to conduct fisheries participation analyses which involve repeated follow-up surveys of United States (U.S.) West Coast commercial fishing participants. A U.S. mail survey will be conducted, replicating the survey administered during 2017. The survey will be voluntary, and contacted individuals may decline to participate. Respondents will be asked to answer questions about their motivations for fishing and other factors that affect participation in the suite of West Coast commercial fisheries. This survey is essential because data on smaller scale fishing practices, values, participation decisions and beliefs about fishing livelihoods are sparse; yet, they are critical to the development of usable fishery ecosystem models that account for non-pecuniary benefits of fishing, as well as the ways in which fishing practices shape individual and community well-being. Moreover, replication of the survey after several years allows for critical time series information reflecting how fishery participation, in terms of both moving in and out of fishing and moving between available fisheries, may have changed over time.

Affected Public: Federal fisheries permit holders.

Frequency: Once per two-year period.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XR019

Endangered Species; File Nos. 22822, 22988, and 22991

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of applications for permits.

SUMMARY: Notice is hereby given that three applicants have applied in due form for a permit or permit modification to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), Kemp's ridley (*Lepidochelys kempii*), loggerhead (*Caretta caretta*), leatherback (*Dermochelys coriacea*), and olive ridley (*L. olivacea*) sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or email comments must be received on or before August 12, 2019.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting the applicable File No. from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

Written comments on the applications should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713–0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on the application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Erin Markin or Amy Hapeman, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permits are requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C.

1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

22822: Pamela Plotkin, Ph.D., Texas A&M University, 797 Lamar Street, 4115 TAMU, College Station, TX 77843, proposes to determine the spatiotemporal distribution of sea turtles in Matagorda Bay, Texas. Green, hawksbill, Kemp's ridley, and loggerhead sea turtles would be captured using tangle nets, biologically sampled (scute, skin), tagged (flipper), satellite and/or acoustic tagged (epoxy attachment), measured, weighed, and photographed/videoed. Up to 10 of each species may be captured annually. The permit would be valid for up to 3 years from the date of issuance.

File No. 22988: Lawrence Wood, Ph.D., LDWood BioConsulting, Inc., 425 Kennedy Street, Jupiter, FL 33468, proposes to determine and describe the abundance, movements, and behavior of hawksbill turtles found on the barrier reefs of southeast Florida. Up to 50 hawksbill sea turtles may be captured annually by hand or dip net, biologically sampled (skin, epibiota), tagged (passive integrated transponder [PIT], flipper), measured, and photographed/videoed. A subset of turtles may receive a satellite tag and/or video tag assemblies (epoxy attachment) and be biologically sampled (blood, scute) prior to release. Additionally, up to 50 sea turtles may be harassed annually during surveys. The permit would be valid for 10 years from the date of issuance.

File No. 22991: NMFS Pacific Islands Regional Office, 1845 Wasp Boulevard, Building 176, Honolulu, HI 96818 (Michael Tosatto, Responsible Party), proposes to provide information on sea turtles biology, life history, post-hooking mortality, diving behavior, and migratory routes to aid in the development of methods to reduce sea turtles interactions with fishing gear. The applicant proposes to conduct research on green, hawksbill, loggerhead, leatherback, and olive ridley sea turtles bycaught in three longline Pacific fisheries (Hawaii Deep-Set Longline Fishery, Hawaii Shallow-Set Longline Fishery, and American Samoa Longline Fishery). Turtles may be flipper tagged, skin biopsied, satellite tagged (pygal or epoxy attachment), measured, and photographed/videoed prior to release. The applicant may conduct research on the number of turtles authorized to be incidentally taken in each fishery. The permit would be valid for 5 years from the date of issuance.
