

sawblades from China. Therefore, we are not including this merchandise within the scope of the antidumping duty order. However, as we explain below, we will instruct CBP to continue to suspend any entries of diamond sawblades produced in Thailand by Diamond Tools with either Chinese cores or Chinese segments and then subsequently exported from Thailand to the United States.

Continued Suspension of Liquidation

In accordance with 19 CFR 351.225(l)(3), based on this final determination in this anti-circumvention inquiry, Commerce will direct CBP to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of diamond sawblades produced (*i.e.*, assembled or completed) using Chinese cores and Chinese segments by Diamond Tools in Thailand that were entered, or withdrawn from warehouse, for consumption on or after December 1, 2017, the date of initiation of this anti-circumvention inquiry. The suspension of liquidation instructions will remain in effect until further notice. As we explained in the *Preliminary Determination*,⁷ Commerce will instruct CBP to require antidumping duty cash deposits equal to the rate established for the China-wide entity, *i.e.*, 82.05 percent,⁸ for entries of such merchandise produced by Diamond Tools.

As we explained above, diamond sawblades assembled or completed in Thailand using either Chinese cores and Thai segments or Thai cores and Chinese segments are not circumventing the antidumping duty order. Diamond sawblades assembled or completed in Thailand using both non-Chinese origin cores and non-Chinese origin segments are not subject to this anti-circumvention inquiry. Because Diamond Tools is not currently able to identify diamond sawblades produced with non-Chinese origin cores and/or non-Chinese origin segments,⁹ in the *Preliminary Determination*, Commerce decided not to implement a certification process at the preliminary stage and required cash deposits on all entries of diamond sawblades produced by Diamond Tools in Thailand.¹⁰ We invited parties to comment on this issue in their case briefs but no parties submitted comments on this issue.

Therefore, for the final determination, we will not implement a certification process for diamond sawblades already suspended, and will require cash deposits on all entries of diamond sawblades produced by Diamond Tools in Thailand, consistent with the *Preliminary Determination*. However, Diamond Tools may request reconsideration of our denial of the certification process in a future segment of the proceeding, *i.e.*, a changed circumstances review or administrative review.¹¹

Administrative Protective Order

This notice will serve as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction or APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination is issued and published in accordance with section 781(b) of the Act and 19 CFR 351.225(f).

Dated: July 10, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.
