The Exchange believes that the proposal represents a reasonable attempt to provide member organizations with an orderly transition to upgraded technology without needing to incur any additional costs. If a member organization is unable to complete this transition within the nine-month period, the pricing is designed to offset the Exchange's continuing costs of supporting the Phase I ports.

Summary of the Application

1. Applicants request an order that would allow Funds to operate as index exchange traded funds ("ETFs").¹ Fund shares will be purchased and redeemed at their NAV in Creation Units only. All orders to purchase Creation Units and all redemption requests will be placed by or through an "Authorized Participant," which will have signed a participant agreement with the Distributor. Shares will be listed and traded individually on a national securities exchange, where share prices

¹ Applicants request that the order apply to the new series of the Trust identified and described in Appendix A to that application and any additional series of the Trust, and any other open-end management investment company or series thereof (each, included in the term "Fund"), each of which will operate as an ETF and will track a specified index comprised of domestic and/or foreign equity securities and/or domestic and/or foreign fixed income securities (each, an "Underlying Index"). Each Fund will (a) be advised by the Initial Adviser or an entity controlling, controlled by, or under common control with the Initial Adviser (each such entity and any successor thereto, an "Adviser") and (b) comply with the terms and conditions of the application. For purposes of the requested order, the term "successor" is limited to an entity or entities that result from a reorganization into another jurisdiction or a change in the type of business organization.

will be based on the current bid/offer market. Any order granting the requested relief would be subject to the terms and conditions stated in the application.

2. Each Fund will hold investment positions selected to correspond generally to the performance of an Underlying Index. In the case of Self-Indexing Funds, an affiliated person, as defined in section 2(a)(3) of the Act ("Affiliated Person"), or an affiliated person of an Affiliated Person ("Second-Tier Affiliate"), of the Trust or a Fund, of the Adviser, of any sub-adviser to or promoter of a Fund, or of the Distributor will compile, create, sponsor or maintain the Underlying Index.²

3. Shares will be purchased and redeemed in Creation Units and generally on an in-kind basis. Except where the purchase or redemption will include cash under the limited circumstances specified in the application, purchasers will be required to purchase Creation Units by depositing specified instruments ("Deposit Instruments"), and shareholders redeeming their shares will receive specified instruments ("Redemption Instruments"). The Deposit Instruments and the Redemption Instruments will each correspond pro rata to the positions in the Fund's portfolio (including cash positions) except as specified in the application.

4. Because shares will not be individually redeemable, applicants request an exemption from section 5(a)(1) and section 2(a)(32) of the Act that would permit the Funds to register as open-end management investment companies and issue shares that are redeemable in Creation Units only.

5. Applicants also request an exemption from section 22(d) of the Act and rule 22c–1 under the Act as secondary market trading in shares will take place at negotiated prices, not at a current offering price described in a Fund's prospectus, and not at a price based on NAV. Applicants state that (a) secondary market trading in shares does not involve a Fund as a party and will not result in dilution of an investment in shares, and (b) to the extent different prices exist during a given trading day, or from day to day, such variances occur as a result of third-party market forces, such as supply and demand. Therefore,

² Each Self-Indexing Fund will post on its website the identities and quantities of the investment positions that will form the basis for the Fund's calculation of its NAV at the end of the day. Applicants believe that requiring Self-Indexing Funds to maintain full portfolio transparency will help address, together with other protections, conflicts of interest with respect to such Funds.

applicants assert that secondary market transactions in shares will not lead to discrimination or preferential treatment among purchasers. Finally, applicants represent that share market prices will be disciplined by arbitrage opportunities, which should prevent shares from trading at a material discount or premium from NAV.

6. With respect to Funds that effect creations and redemptions of Creation Units in kind and that are based on certain Underlying Indexes that include foreign securities, applicants request relief from the requirement imposed by section 22(e) in order to allow such Funds to pay redemption proceeds within fifteen calendar days following the tender of Creation Units for redemption. Applicants assert that the requested relief would not be inconsistent with the spirit and intent of section 22(e) to prevent unreasonable, undisclosed or unforeseen delays in the actual payment of redemption proceeds.

7. Applicants request an exemption to permit Funds of Funds to acquire Fund shares beyond the limits of section 12(d)(1)(A) of the Act; and the Funds, and any principal underwriter for the Funds, and/or any broker or dealer registered under the Exchange Act, to sell shares to Funds of Funds beyond the limits of section 12(d)(1)(B) of the Act. The application's terms and conditions are designed to, among other things, help prevent any potential (i) undue influence over a Fund through control or voting power, or in connection with certain services, transactions, and underwritings, (ii) excessive layering of fees, and (iii) overly complex fund structures, which are the concerns underlying the limits in sections 12(d)(1)(A) and (B) of the Act.

8. Applicants request an exemption from sections 17(a)(1) and 17(a)(2) of the Act to permit persons that are Affiliated Persons, or Second-Tier Affiliates, of the Funds, solely by virtue of certain ownership interests, to effectuate purchases and redemptions in-kind. The deposit procedures for in-kind purchases of Creation Units and the redemption procedures for in-kind redemptions of Creation Units will be the same for all purchases and redemptions, and Deposit Instruments and Redemption Instruments will be valued in the same manner as those investment positions currently held by the Funds. Applicants also seek relief from the prohibitions on affiliated transactions in section 17(a) to permit a Fund to sell its shares to and redeem its shares from a Fund of Funds, and to engage in the accompanying in-kind

transactions with the Fund of Funds.³ The purchase of Creation Units by a Fund of Funds directly from a Fund will be accomplished in accordance with the policies of the Fund of Funds and will be based on the NAVs of the Funds.

9. Section 6(c) of the Act permits the Commission to exempt any persons or transactions from any provision of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Section 12(d)(1)(J) of the Act provides that the Commission may exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision of section 12(d)(1) if the exemption is consistent with the public interest and the protection of investors. Section 17(b) of the Act authorizes the Commission to grant an order permitting a transaction otherwise prohibited by section 17(a) if it finds that (a) the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned; (b) the proposed transaction is consistent with the policies of each registered investment company involved; and (c) the proposed transaction is consistent with the general purposes of the Act.

For the Commission, by the Division of Investment Management, under delegated authority.

Deputy Secretary.

Self-Regulatory Organizations; New York Stock Exchange LLC; Order Granting Approval of a Proposed Rule Change To Amend NYSE Rule 123D

July 11, 2019.

I. Introduction

On May 24, 2019, New York Stock Exchange LLC (“NYSE” or the

³ The requested relief would apply to direct sales of shares in Creation Units by a Fund to a Fund of Funds and redemptions of those shares. Applicants are not seeking relief from section 17(a) for, and the requested relief will not apply to, transactions where a Fund could be deemed an Affiliated Person, or a Second-Tier Affiliate, of a Fund of Funds because an Adviser or an entity controlling, controlled by or under common control with an Adviser provides investment advisory services to that Fund of Funds.

“Exchange”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² a proposed rule change to amend Rule 123D to permit the Exchange to declare a regulatory halt in a security that traded in the over-the-counter market prior to the initial pricing on the Exchange. The proposed rule change was published for comment in the **Federal Register** on June 6, 2019.³ The Commission has received no comment letters on the proposal. This order approves the proposed rule change.

II. Description of the Proposal

The Exchange has proposed to amend Rule 123D(d) to permit the Exchange to declare a regulatory halt in a security that traded in the over-the-counter market prior to the initial pricing on the Exchange.

Currently, Rule 123D(d) permits the Exchange to declare a regulatory halt in a security that is the subject of an initial pricing on the Exchange of a security and that has not been listed on a national securities exchange or traded in the over-the-counter market pursuant to FINRA Form 211 (the “OTC market”) immediately prior to the initial pricing. Accordingly, the Exchange has authority to declare a regulatory halt for any initial listing that is not a transfer from either another national securities exchange or the OTC market. Regulatory halts under the rule terminate when the assigned Designated Market Maker (“DMM”) opens the security.

The Exchange has proposed to delete the clause “or traded in the over-the-counter market pursuant to FINRA Form 211” in NYSE Rule 123D(d). The proposed amendment would thus enable the Exchange to declare a regulatory halt for a security that is having its initial listing on the Exchange and that was traded in the OTC market immediately prior to its initial pricing on the Exchange.

The Exchange notes that, although an OTC market security that will be listed on a primary listing exchange will be removed from the OTC trading list on the day before its initial pricing on the exchange, on the day of its initial listing, that security can trade on an unlisted trading privileges (“UTP”) basis before the first transaction on the primary listing exchange. The Exchange

states that permitting the Exchange to declare a regulatory halt in such securities before trading on the Exchange begins would avoid potential price disparities or anomalies that may occur during any UTP trading before the first transaction on the primary listing exchange. The Exchange states that quoting and trading in the pre-market of an OTC transfer can be erratic and that investors may be harmed if their securities trade during this period. The Exchange asserts that the proposed limited authority to declare a regulatory halt in the hours prior to the OTC transfer’s initial pricing on the Exchange would mitigate any potential price disparities and contribute to a fair and orderly market once the security opens on the Exchange and would be consistent with the protection of investors and the public interest.

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁴ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁵ which requires, among other things, that the rules of a national securities exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest, and that those rules not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission believes that extending the authority of the Exchange to declare a regulatory trading halt prior to the initial pricing on the Exchange of securities that were previously traded in the OTC market is consistent with the Act because it is reasonably designed to address any potential price disparities or anomalies that may occur during UTP trading before the first transaction on the Exchange. The Commission notes that this regulatory halt would be terminated when the DMM opens the security, and would be for the limited purpose of precluding other markets from trading the security until the
