

adolescents and young adults most ready for behavior change including cessation from sexual activity. Based on an external and internal review of the proposal, OPA determined that it has merit.

The University of Northern Colorado and the proposed Principle Investigator have experience expanding scientific knowledge on harm-reduction/cessation strategies adolescents and young adults use to maintain their reproductive health. They will further broaden knowledge in harm-reduction/cessation strategies by further testing an innovative digital health technology in underserved adolescent/clinics in counties experiencing high levels of unintended pregnancy and STI rates.

This award is being made non-competitively because there is no current, pending, or planned funding opportunity announcement under which this proposal could compete.
