Congress mandates an evaluation of the DFC program to determine its effectiveness in meeting objectives (see 21 U.S.C. 1521 *et al.*). Under the CARA Local Drug Crisis program statute, CARA Local Drug Crisis data collection is authorized and required by Public Law 114–198 Sec. 103, “a grant under this section shall be subject to the same evaluation requirements and procedures as the evaluation requirements and procedures imposed on the recipients of a grant under the Drug-Free Communities Act of 1997, and may also include an evaluation of the effectiveness at reducing abuse of opioids or methamphetamines”. ONDCP awarded a contract for a DFC grant oversight system at the end of 2014, following a competitive request for proposals process. The DFC Management and Evaluation (DFC *Me*) system was launched in 2016 and continues to be used (www.dfcm.eondcp.eop.gov). The development and implementation of the new DFC *Me* system provided an improved platform for DFC recipients to meet data reporting requirements of the grant, introduced a DFC Learning Center where resources and success stories can be shared, and strengthened ONDCP’s continued oversight of the DFC program. The data collected through this system is more user friendly and validates data during entry, therefore reducing the burden on grant award recipients.

ONDCP will continue to utilize the case study protocols previously approved by OMB to document coalition practices, successes and challenges. Approximately nine DFC grant award recipients are selected each year to highlight in the case studies. The information from the case studies will be used to illustrate not only what works to reduce drug use in a community setting, but also how and why it works.

The CARA Local Drug Crisis program evaluation will make use of the monitoring and tracking questionnaire to serve as a semi-annual report for grant award recipients and will provide information to ONDCP and the Administration’s effort to address the opioid crisis.

Respondents: DFC current grant award recipients and CARA Local Drug Crisis grant award recipients (includes both current and former DFC grant award recipients).

Estimated Number of Respondents: 737 (724 DFC and 13 CARA only).

Estimated Number of Responses: 2,181.

Frequency of Response: Semi-annually, annually and biennially. Progress reports semi-annually by DFC and CARA Local Drug Crisis Program Directors via DFC *Me*, core measures biennially by DFC and CARA Local Drug Crisis Program Directors via DFC *Me* and CCT annually for DFC Program Directors via DFC *Me*. Case study interviews of Program Directors and selected coalition members will be accomplished one time per site at nine sites.

Average Hours per Response: Varies. ONDCP expects that the time required for DFC grant award recipients to complete each semi-annual progress report will be approximately six hours, and each CCT report will take approximately one hour to complete. Face to face interviews and focus groups with DFC grant award recipients selected for site visits will take 1.5–2 hours each to complete. CARA Local Drug Crisis grant award recipients will also complete semi-annual progress reports at an estimated six hours. The estimate of time for DFC and CARA Local Drug Crisis grant award recipients includes biennial core measure data submission.

Total Estimated Burden: 9,388 (Comprehensive of all respondents over one year, including: DFC Program Directors and grant award recipients to complete progress reports, CCT surveys, and interviews; and CARA Local Drug Crisis grant award recipients.)
