BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: West Coast Region U.S. Pacific Highly Migratory Species Logbook Family of Forms.

OMB Control Number: 0648-0223.

Form Number(s): NOAA Form 88-197.

Type of Request: Regular submission (extension of a currently approved collection).

Number of Respondents: 1,700.

Average Hours per Response: 1 hour.

Burden Hours: 3,400.

Needs and Uses: Under the Fishery Management Plan for United States (U.S.) West Coast Fisheries for Highly Migratory Species (HMS) U.S. fishermen, participating in the Pacific hook-and-line (also known as the albacore troll and poll-and-line), coastal purse seine (vessels less than 400 st carrying capacity), large-mesh drift gillnet, and swordfish harpoon fisheries, are required to obtain a Highly Migratory Species (HMS) permit. Permit holders are also required to complete and submit logbooks documenting their daily fishing activities, including catch and effort for each fishing trip. Logbook forms must be completed within 24 hours of the completion of each fishing day and submitted to the Southwest Fisheries Science Center (SWFSC) within 30 days of the end of each trip. Federal regulations allow the use of state logbooks to fulfill this requirement,

for example, California has fulfilled this requirement to date for HMS fisheries. These data and associated analyses help the SWFSC provide critical HMS fisheries information to researchers, fisheries managers, and the needed management advice to the U.S. in its negotiations with foreign fishing nations that fish for HMS.

At the November 2018 Pacific Fisheries Management Council meeting, the California Department of Fish and Wildlife submitted an informational report outlining proposed regulations to repeal the state logbook requirements for swordfish harpoon and large-mesh drift gillnet. In December 2018, the California Fish and Wildlife Commission adopted an amendment to the California Code of Regulations (CCR) to eliminate the use of California logbooks for these gear types. These regulations are expected to become effective on April 1, 2019.

As a result, NMFS has developed Federal logbooks to replace the California logbooks. In addition, the SWFSC developed a purse seine logbook for vessels under 400 st (362.8 mt) carrying capacity. This will replace their use of the Inter-American Tropical Tuna Commission (IATTC) Seiner Record and Bridge Log designed for purse seine vessels over 400 st (362.8 mt) carrying capacity.

The SWFSC and representatives from each of the fisheries have reviewed the Federal logbooks. Representatives were chosen based on their experience with State logbooks and specific gear-types. The information collected from the public will remain consistent and information currently collected from California Fish and Wildlife logbooks. There will be no additional burden to the public.

Affected Public: Business or other for-profit.

Frequency: Submission is required for each HMS fishing trip.

Respondent's Obligation: Keep an accurate and complete record of catch, effort, and other data on report forms. The original logbook form for each day of the fishing trip must be submitted to the Southwest Fisheries Science Center within 30 days of each landing of HMS.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this

notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Management Plan for National Estuarine Research Reserve Program

AGENCY: Office for Coastal Management (OCM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public comment period for the Wells National Estuarine Research Reserve management plan revision.

SUMMARY: Notice is hereby given that the Stewardship Division, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce is announcing a thirty (30) day public comment period for the revised management plan for Wells National Estuarine Research Reserve management plan revision.

ADDRESSES: You may submit comments on the draft management plan by any of the following methods:

Written Comments: Please submit written comments to Paul Dest, Reserve Manager, Wells Reserve, 342 Laudholm Farms Road, Wells, Maine 04090, or email comments to dest@wellsnerr.org. Comments that the Office for Coastal Management receives are considered part of the public record and may be publicly accessible. Any personal identifying information (e.g., name, address) submitted voluntarily by the sender may also be publicly accessible. NOAA will accept anonymous comments.

FOR FURTHER INFORMATION CONTACT:

Adrienne Harrison at (603) 862-4272 or Erica Seiden at (240) 533-0781 of NOAA's National Ocean Service, Stewardship Division, Office for Coastal Management, 1305 East-West Highway, N/ORM5, 10th floor, Silver Spring, MD 20910.

SUPPLEMENTARY INFORMATION: Pursuant to 15 CFR 921.33(c), a state must update their management plan. The Wells Reserve revised plan will replace the plan previously approved in 2013.

The revised management plan outlines a strategic plan; administrative structure; research and monitoring, education, stewardship, wetland science and training programs of the reserve; resource protection and manipulation plans, restoration management plan; public access and visitor use plan; considerations for future land acquisition; and facility development to support reserve operations.

The Wells Reserve takes an integrated approach to management, linking research, education, coastal training, and resource management functions. The reserve has outlined how it will manage administration and its core programs, providing detailed actions that will enable it to accomplish specific goals and objectives. Since the last management plan, the reserve has implemented its core and system-wide programs; secured science, education, and conservation grants to serve southern Maine communities; made significant repairs and improvements to buildings including installed solar arrays to generate electricity and renovated the water tower; designed and installed climate change exhibit components in Visitor Center; added a fully accessible trail at Wells Harbor; restored riverine and fisheries habitats in southern Maine watersheds; and helped partners acquire priority conservation lands.

There will be no boundary change with the approval of the revised management plan. The management plan will serve as the guiding document for the 2,250-acre Wells Reserve.

NOAA's Office Coastal Management will be conducting an environmental analysis in accordance with the National Environmental Policy Act on the proposed approval of the Reserve's revised management plan. The public is invited to provide comment or information about any potential environmental impacts of the proposed action, and these comments will be used to inform the decision making.

View the Wells Reserve management plan revision on their website, at <https://www.wellsreserve.org/writable/files/DraftPlan19.pdf>, and provide comments to Paul Dest, *dest@wellsnerr.org*.

Nkolika Ndubisi,
Management and Program Analyst, National Ocean Service, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-08-P

DEPARTMENT OF COMMERCE

United States Patent and Trademark Office

Submission for OMB Review; Comment Request; "Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures"

The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: United States Patent and Trademark Office, Commerce.

Title: Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures.

OMB Control Number: 0651-0024.

Form Number(s):

- PTO/SB/93.

Type of Request: Regular.

Number of Respondents: 28,850.

Estimated Time per Response: The USPTO estimates that it will take approximately 6 minutes (0.10 hours) to 6 hours to complete a single item in this collection. This includes the time to gather the necessary information, create the documents, and submit the completed request to the USPTO.

Burden Hours: 163,955 hours.

Cost Burden: \$1,573,140.00.

Needs and Uses: Patent applications that contain nucleotide and/or amino acid sequence disclosures that fall within the definitions of 37 CFR 1.821(a) must include, as a separate part of the application disclosure, a copy of the sequence listing in accordance with the requirements in 37 CFR 1.821–1.825. Applicants may submit sequence listings for both U.S. and international patent applications. The USPTO uses the sequence listings during the examination process to determine the patentability of the associated patent application. The USPTO also uses the sequence listings to support publication of patent applications and issued patents. Sequence listings are searchable after publication.

Frequency: On occasion.

Respondent's Obligation: Required to Obtain or Retain Benefits.

OMB Desk Officer: Nicholas A. Fraser, email: *Nicholas_A._Fraser@omb.eop.gov*.

Once submitted, the request will be publicly available in electronic format through reginfo.gov. Follow the instructions on the website to view Department of Commerce collections currently under review by OMB.

Further information can be obtained by:

- *Email:* InformationCollection@uspto.gov. Include "0651-0024 information request" in the subject line of the message.

• *Mail:* Marcie Lovett, Chief, Records and Information Governance Branch, Office of the Chief Administrative Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.

Written comments and recommendations for the proposed information collection should be sent on or before August 22, 2019 to Nicholas A. Fraser, OMB Desk Officer, via email to *Nicholas_A._Fraser@omb.eop.gov*, or by fax to 202-395-5167, marked to the attention of Nicholas A. Fraser.

Marcie Lovett,

Chief, Records and Information Governance Branch, Office of the Chief Administrative Officer, United States Patent and Trademark Office.

BILLING CODE 3510-16-P

COMMODITY FUTURES TRADING COMMISSION

Agency Information Collection Activities: Notice of Intent To Renew Collection 3038-0017, Market Surveys

AGENCY: Commodity Futures Trading Commission

ACTION: Notice.

SUMMARY: The Commodity Futures Trading Commission ("CFTC" or "Commission") is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act ("PRA"), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information and to allow 60 days for public comment. This notice solicits comments on market investigations.

DATES: Comments must be submitted on or before September 23, 2019.

ADDRESSES: You may submit comments, identified by "Market Surveys," Collection Number 3038-0017, by any of the following methods:

- The Agency's website, at <http://comments.cftc.gov/>. Follow the instructions for submitting comments through the website.

• *Mail:* Christopher Kirkpatrick, Secretary of the Commission, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW, Washington, DC 20581.
