Petition for Exemption

Petitioner: The Boeing Company.
Section(s) of 14 CFR Affected: §§ 61.75(d)(2) and 61.117.

Description of Relief Sought: The Boeing Company (Boeing) requests a renewal to Exemption No. 10871D, which provides relief from the requirements of 14 CFR 61.75(d)(2) and 61.117 for pilots obtaining an FAA Private Pilot certificate based on a foreign license. In addition, Boeing requests revisions to Exemption 10871D to align the exemption with Boeing’s operations. Specifically, Boeing is requesting Exemption No. 10871D be modified to (1) Expand the definition of what non-crewmember supernumeraries may be carried on flights, (2) Remove the requirement for a Market Surveys—Experimental Special Airworthiness Certificate, (3) Expand the definition of what types of foreign pilots are eligible to use the exemption, and enable exempted customer pilots to obtain training credit with their Foreign Civil Aviation Authority for elements of customer sales demonstration flights that meet their training requirements.

Agency Information Collection Activities; New Information Collection: Crime Prevention for Truckers

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Federal Motor Carrier Safety Administration (FMCSA) announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. This request, titled “Crime Prevention for Truckers,” will allow for a study to understand the prevalence, seriousness, and nature of the problem of harassment and assaults against minority and female truckers.

DATES: We must receive your comments on or before September 23, 2019.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA–2018–0278 using any of the following methods:

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at http://www.dot.gov/privacy.

than others. Second, there is a critical perception among these subpopulations of truckers that they are more vulnerable to assault-related crimes, especially against Female Long-haul Truckers, as reported in a 2006 article titled “Workplace Violence against Female Long-haul Truckers,” USA Today, 2017. 42 percent of female long-haul truckers reported experiencing one or more types of workplace violence. FMCSA must understand the prevalence, seriousness, and nature of the problem of harassment and assault against truckers. Currently, FMCSA does not provide materials or training to truckers, including minority and female truckers, on how to protect themselves from being stalked, harassed, assaulted, or robbed. Before effective solutions for preventing or reducing these crimes against female and minority truckers can be developed and implemented, FMCSA must understand the prevalence, seriousness, and nature of the problem of harassment and assaults against truckers. Currently, there is insufficient data. The frequency and number of harassment- and assault-related crimes occurring, the portion that are unreported, and reasons for underreporting are unknown.

The purpose of this research study is to gather information to answer these questions, to understand how serious the problem is, and to report it to FMCSA so the Agency can decide on further options for evaluation and action. FMCSA needs to explore and validate the problem of harassment- and assault-related crimes, especially against female and minority male truckers for two reasons. First, there seems to be a perception among these subpopulations of truckers that they are more vulnerable than others. Second, there is a critical shortage of truckers, and helping these subpopulations of truckers protect themselves from crimes could draw more truckers from these subpopulations, while stemming turnover, to alleviate the shortage. FMCSA has contracted with Battelle to create and execute a survey of truck drivers to gather this information. This exploratory survey will be limited in scale and scope. Quantitative and qualitative analysis of the data will help the Agency to understand the nature and extent of the problem and begin to formulate an approach to reducing it. The results will not be used for rulemaking.

The survey of professional truck drivers will be limited to female and minority male drivers. The survey will ask whether the drivers have experienced race- or gender-related harassment or crimes on the job. If the driver has had such an experience, the survey will ask follow-up questions on where and when the incidents occurred, any information the respondent knows about the perpetrator, and whether the respondent reported the incident. The survey will be anonymous. None of the questions ask for information that could personally identify the respondent or any perpetrators involved. Some respondents will take the survey online, and others will take it in the form of an in-person interview. Identical questions will be asked of all drivers, but answers from males and females will be analyzed separately.

A maximum of 440 males and 440 females will be included in the information collection. The information will be collected through a combination of an online survey and in-person interviews. Approximately 160 in-person interviews will be completed, 80 females and 80 minority males. The balance will take the survey electronically. Some individuals may be eligible to participate in the survey but will not have had any recent experience of harassment or assault. These individuals will be included in the final results for calculation of prevalence. The total number of respondents targeted for those who experienced some sort of harassment or assault will be 400 in each group. If 400 targeted individuals are reached before the overall cap of 440 respondents, data collection will be stopped for that group. Individuals who are screened but fail to qualify as females and minority males, or with other criteria such as not being active drivers, will not be included in the interview counts, though a tabulation of the number of such contacts and reason for their disqualification will be reported to better understand resource needs and burden in future data collection efforts of this type. A $25 incentive will be given to eligible respondents to the in-person interview or the online survey. For respondents to be eligible and to receive the incentive, they must report that they are a female or a minority male who has driven a truck professionally in the past 2 years and complete the survey—at least through the initial questions of what events, if any, they have experienced.

Battelle statisticians experienced in surveys and in analyzing data for FMCSA will execute the data analysis plan. Findings will be presented in a report that will be made available on the Agency’s website so that interested stakeholders and the general public will be aware of the findings. Battelle is required to deliver a public-use dataset at the conclusion of the project. By understanding the nature and prevalence of crimes against truckers, FMCSA will be able to formulate and promote programs to address the problem. The report may be useful to law enforcement personnel, motor carriers, truck drivers, operators of private truck stops, and others interested in addressing the situation.

If study findings indicate a significant problem that merits action, FMCSA may consider developing training or outreach materials to help truckers protect themselves from crime or harassment. Such training or outreach materials could help foster motor carriers’ employee retention efforts and help make the truck driving profession more attractive to a greater range of people.

Title: Crime Prevention for Truckers.

**Type of Request: Renewal of a Previously Approved Information Collection**

**Background:** The Effective U.S. Control (EUSC) Parent Company collection consists of an inventory of foreign registered vessels owned by U.S. citizens. Specifically, the collection consists of responses from vessel owners verifying or correcting vessel ownership data and characteristics found in commercial publications. The information obtained could be vital in a national or international emergency, and is essential to the logistical support planning operations conducted by MARAD officials. The information is used in contingency planning and provides data related to potential sealift capacity to support movement of fuel and military equipment to crisis zones.

**Respondents:** U.S. citizens who own foreign-registered vessels.

**Affected Public:** Business or other for profit.

**Total Estimated Number of Responses:** 60.

**Frequency of Collection:** Annually.

**Estimated time per Respondent:** 0.5 minutes.

**Total Estimated Number of Annual Burden Hours:** 30.

**Public Comments Invited:** Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

**SUMMARY:** In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Request (ICR) abstracted below is being forwarded to the Office of Management and Budget (OMB) for review and comments. A Federal Register Notice with a 60-day comment period soliciting comments on the following information collection was published on March 21, 2019. **DATES:** Comments must be submitted on or before August 22, 2019. **ADDRESSES:** Send comments regarding the burden estimate, including suggestions for reducing the burden, to the Office of Management and Budget, Attention: Desk Officer for the Office of the Secretary of Transportation, 725 17th Street NW, Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Russell Krause, Division of Sealift Operations and Emergency Response, Maritime Administration, Department of Transportation, 1200 New Jersey Avenue SE, W26–494, Washington, DC 20590, 202–366–1031.
