Raw Flexible Magnets From the People’s Republic of China and Taiwan: Continuation of Antidumping Duty Orders and Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) orders on raw flexible magnets from the People’s Republic of China (China) and Taiwan, and revocation of the countervertuing duty (CVD) order on raw flexible magnets from China would likely lead to a continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of the AD orders and the CVD order.

FOR FURTHER INFORMATION CONTACT: Joshua Poole, AD/CVD Operations, Office I (AD), and Kristen Johnson, AD/CVD Operations, Office III (CVD), Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1293 and (202) 482–4793, respectively.

SUPPLEMENTARY INFORMATION:

Background

On September 17, 2008, Commerce published in the Federal Register the AD orders on raw flexible magnets from China and Taiwan and the CVD order on raw flexible magnets from China.¹ On January 2, 2019, the ITC instituted its review of the Orders, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On February 5, 2019, Commerce published the initiation of the second sunset reviews of the Orders, pursuant to section 751(c) of the Act.³ On February 8, 2019, Commerce received timely notices of intent to participate in these sunset reviews from Magnum Magnetics Corporation (Magnum) within the deadline specified in 19 CFR 351.218(d)(1)[i].⁴ Magnum, a domestic producer of the subject merchandise, claimed interested party status under section 771(9)(C) of the Act.⁵ On March 7, 2019, Commerce received complete and adequate substantive responses from Magnum within the 30-day deadline specified in 19 CFR 351.218(d)(3)[i].⁶ Commerce received no substantive response from respondent interested parties. Pursuant to section 751(c)(3)(B) of the Act, Commerce conducted expedited (120-day) sunset reviews of the Orders.⁷ On June 5, 2019, the ITC published its notice to conduct an expedited five-year review of the Orders.⁸ As a result of its reviews, Commerce determined, pursuant to sections 751(c)(1) and 752(b) and (c) of the Act, that revocation of the Orders on raw flexible magnets from China and Taiwan would likely lead to continuation or recurrence of dumping and countervailable subsidies. Commerce, therefore, notified the ITC of the magnitude of the margins of dumping and net countervailable subsidy rates likely to prevail should these Orders be revoked, in accordance with sections 752(b)(3) and (c)(3) of the Act.⁹ On July 17, 2019, the ITC published its determination that revocation of the Orders would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time, pursuant to sections 751(c) and 752(a) of the Act.¹⁰

Scope of the Orders

The products covered by the orders are certain flexible magnets regardless of shape,¹¹ color, or packaging.¹² Subject flexible magnets are bonded magnets composed (not necessarily exclusively) of (i) any one or combination of various flexible binders (such as polymers or copolymers, or rubber) and (ii) a magnetic element, which may consist of a ferrite permanent magnet material (commonly, strontium or barium ferrite, or a combination of the two), a metal alloy (such as NdFeB or Alnico), any combination of the foregoing with each other or any other material, or any other material capable of being permanently magnetized. Subject flexible magnets may be in either magnetized or unmagnetized (including demagnetized) condition, and may or may not be fully or partially laminated or fully or partially bonded with paper, plastic, or other material, of any composition and/or color. Subject flexible magnets may be uncoated or may be coated with an adhesive or any other coating or combination of coatings. Specifically excluded from the scope of the orders are printed flexible magnets, defined as flexible magnets

¹¹ The term “shape” includes, but is not limited to profiles, which are flexible magnets with a non-rectangular cross-section.

¹² Packaging includes retail or specialty packaging such as digital printer cartridges.
reviews of these Orders not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Administrative Protective Order (APO)
This notice also serves as the only reminder to parties subject to APO of their responsibility concerning the return, destruction, or conversion to judicial protective order of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO which may be subject to sanctions.

Notification to Interested Parties
These five-year sunset reviews and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: July 17, 2019.
Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On May 2, 2019, the Department of Commerce (Commerce) published a notice of initiation of an administrative review of the antidumping duty order on small diameter graphite electrodes from the People’s Republic of China (China). Based on the timely withdrawal of the requests for review of certain companies, we are now rescinding this administrative review for the period February 1, 2018, through January 31, 2019, with respect to 198 companies.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Background
On February 26, 2009, Commerce published in the Federal Register the antidumping duty order on small diameter graphite electrodes from China. On February 8, 2019, Commerce initiated a review. On February 28, 2019, Tokai Carbon GE LLC (the petitioner) requested an administrative review of the order for 199 producers and/or exporters of the subject merchandise.

On May 2, 2019, Commerce published a notice of initiation of an administrative review of the order for small diameter graphite electrodes from China with respect to 199 companies. On July 11, 2019, the petitioner withdrew its request for an administrative review of 198 out of the 199 companies listed in its review request. See the Initiation Notice for the full list of companies for which Commerce initiated a review.

Partial Recession of Review
Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication of the notice of initiation of the requested review. In this case, the petitioner timely withdrew its review request, in part, by the 90-day deadline, and no other party requested an administrative review of the antidumping duty order for the companies for which the petitioner withdrew its review request. Therefore, we are rescinding the administrative review of the antidumping duty order.

2 See 2009 Antidumping and Countervailing Duty Order: Finding, or Suspended Investigation; Opportunity to Request Administrative Review, 84 FR 2816 (February 8, 2019).
3 Formerly, SGL Carbon LLC and Superior Graphite Co.
