on small diameter graphite electrodes from China for the period February 1, 2018, through January 31, 2019, with respect to the 198 companies for which all review requests were withdrawn. The review will continue with respect to the remaining company, Fushun Jinly Petrochemical Carbon Co., Ltd. (aka Fushun Jinli Petrochemical Carbon Co., Ltd.).

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For the companies for which this review is rescinded, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions directly to CBP 15 days after publication of this notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We intend to issue and publish this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: July 17, 2019.

James Maeder,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Welded Line Pipe From the Republic of Korea: Amended Final Results of Antidumping Duty Administrative Review; 2016–2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is amending the final results of the administrative review of the antidumping duty order on welded line pipe (WLP) from the Republic of Korea (Korea) to correct two ministerial errors. Correction of these errors results in revised margins for SeAH Steel Corporation (SeAH) and the companies not selected for individual examination. The amended final dumping margins are listed below in the section entitled, “Amended Final Results of the Review.”

FOR FURTHER INFORMATION CONTACT: David Goldberger or Joshua Tucker, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4136 or (202) 482–2044, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 14, 2019, Commerce published the Final Results of the 2016–2017 administrative review of WLP from Korea in the Federal Register.1 Subsequently, on June 17, 2019, SeAH and NEXTEEL Co., Ltd. (NEXTEEL), the two companies selected for individual examination in this administrative review, submitted comments alleging ministerial errors in Commerce’s Final Results.2

Legal Framework

A ministerial error, as defined in section 751(h) of the Tariff Act of 1930, as amended (the Act), includes “errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the administering authority considers ministerial.”3 With respect to final results of administrative reviews, 19 CFR 351.224(e) provides that Commerce “will analyze any comments received and, if appropriate, correct any ministerial error by amending . . . the final results of review. . . .”

Ministerial Errors

Commerce made two inadvertent errors within the meaning of section 735(e) of the Act and 19 CFR 351.224(f) with respect to the application of the particular market situation (PMS) adjustment rate to SeAH’s hot-rolled coil (HRC) costs, and the application of general and administrative (G&A) and financial expenses to SeAH’s further manufactured sales. Specifically, we determine that we erred: (1) In applying the PMS adjustment rate without adjusting it to account for the percentage of HRC consumed relative to the total raw materials; and (2) in double counting the G&A and financial expenses for further manufactured sales. Accordingly, we determine, in accordance with section 751(h) of the Act and 19 CFR 351.224(f), that we made unintentional ministerial errors in the Final Results. Pursuant to 19 CFR 351.224(e), Commerce is amending the Final Results to reflect the correction of these errors. In addition, we determine that NEXTEEL’s alleged ministerial errors reflect our intended methodology and, thus, are not ministerial errors. Moreover, because the review-specific average rate applicable to companies in this administrative review not selected for individual examination was based, in part, on SeAH’s weighted-average dumping margin, we are revising the review-specific average rate. For a detailed discussion of the ministerial error allegations, as well as Commerce’s analysis, see Ministerial Error Memorandum.4

Amended Final Results of the Review

As a result of correcting the ministerial errors described above, we determine that the weighted-average dumping margins for the firms listed below exist for the period December 1, 2016 through November 30, 2017:

1 See Welded Line Pipe from the Republic of Korea: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2016–2017, 84 FR 27762 (June 14, 2019) (Final Results), and accompanying Issues and Decision Memorandum.
shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the amended final results of this review. Pursuant to 19 CFR 351.212(b)(1), NEXTEEL reported the entered value of its U.S. sales such that we calculated importer-specific ad valorem duty assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. SeAH did not report actual entered value for all of its U.S. sales such that we calculated entered value and determined the importer-specific ad valorem assessment rates as described above for NEXTEEL. Where either the respondent’s weighted-average dumping margin is zero or de minimis within the meaning of 19 CFR 351.106(c)(1), or an importer-specific assessment rate is zero or de minimis, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For the companies which were not selected for individual review, we will assign an assessment rate based on the average of the cash deposit rates calculated for NEXTEEL and SeAH. The amended final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the amended final results of this review and for future deposits of estimated duties, where applicable.\(^7\)

We intend to issue liquidation instructions to CBP 15 days after publication of these amended final results of this administrative review.

**Cash Deposit Requirements**

The following cash deposit requirements will be effective retroactively for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after June 14, 2019, the date of publication date of the Final Results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be established in the amended final results, except if the rate is less than 0.50 percent and, therefore, de minimis within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously reviewed or investigated companies, including those for which Commerce may have determined had no shipments during the period of review, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this or an earlier review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previously completed segment of this proceeding, then the cash deposit rate will be the all-others rate of 4.38 percent established in the LTFV investigation.\(^8\) These deposit requirements, when imposed, shall remain in effect until further notice.

**Notification to Importers**

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

**Administrative Protective Order**

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

**Notification to Interested Parties**

These amended final results and notice are issued and published in accordance with sections 751(h) and 777(i) of the Act and 19 CFR 351.224(a).

---

\(^5\)This rate is based on the weighted-average of the margins calculated for those companies selected for individual review using the publicly-ranged U.S. quantities. See Ministerial Error Memorandum, and Memorandum, “Calculations for SeAH Steel Corporation for the Amended Final Results” (which includes the calculation of the review-specific rate), dated concurrently with this notice.

\(^6\)This rate was calculated as discussed in the footnote above.

\(^7\)See section 751(a)(2)(C) of the Act.

\(^8\)See Welded Line Pipe from the Republic of Korea and the Republic of Turkey: Antidumping Duty Orders, 80 FR 75056, 75057 (December 1, 2015).
DEPARTMENT OF COMMERCE
National Oceanic and Atmospheric Administration
RIN 0648–XH107
Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 62 Assessment Webinar III for Gulf of Mexico gray triggerfish.

SUMMARY: The SEDAR 62 stock assessment process for Gulf of Mexico gray triggerfish will consist of an In-person Workshop, and a series of data and assessment webinars. See SUPPLEMENTARY INFORMATION.

DATES: The SEDAR 62 Assessment Webinar III will be held September 4, 2019, from 10 a.m. to 12 p.m., Eastern Time.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see FOR FURTHER INFORMATION CONTACT) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571–4366; email: julie.neer@saefmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO’s; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Assessment Webinar are as follows:

1. Using datasets and initial assessment analysis recommended from the in-person workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see ADDRESSES) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 et seq.

DEPARTMENT OF COMMERCE
National Oceanic and Atmospheric Administration
