

showing shall consist of either a moment method analysis or field strength measurements. The showing shall be provided to (i) the tower proponent if the showing relates to a tower that has not yet been constructed or modified and otherwise to the current tower owner, and (ii) to the Commission, within two years after the date of completion of the tower construction or modification. If necessary, the Commission shall direct the tower proponent to install and maintain any detuning apparatus necessary to restore proper operation of the AM antenna.

47 CFR 1.30002(h) states that an AM station may submit a showing that its operation has been affected by tower construction or modification commenced or completed prior to or on the effective date of the rules adopted in this Part pursuant to MM Docket No. 93–177. Such a showing shall consist of either a moment method analysis or of field strength measurements. The showing shall be provided to the current owner and the Commission within one year of the effective date of the rules adopted in this Part. If necessary, the Commission shall direct the tower owner, if the tower owner holds a Commission authorization, to install and maintain any detuning apparatus necessary to restore proper operation of the AM antenna.

47 CFR 1.30002(i) states that a Commission applicant may not propose, and a Commission licensee or permittee may not locate, an antenna on any tower or support structure, whether constructed before or after the effective date of these rules, that is causing a disturbance to the radiation pattern of the AM station, as defined in paragraphs § 1.30002(a) and (b), unless the applicant, licensee, or tower owner completes the new study and notification process and takes appropriate ameliorative action to correct any disturbance, such as detuning the tower, either prior to construction or at any other time prior to the proposal or antenna location.

47 CFR 1.30003(a) states that when antennas are installed on a nondirectional AM tower the AM station shall determine operating power by the indirect method (see § 73.51). Upon the completion of the installation, antenna impedance measurements on the AM antenna shall be made. If the resistance of the AM antenna changes, an application on FCC Form 302–AM (including a tower sketch of the installation) shall be filed with the Commission for the AM station to return to direct power measurement. The Form 302–AM shall be filed before or

simultaneously with any license application associated with the installation.

47 CFR 1.30003(b) requires that, before antennas are installed on a tower in a directional AM array, the proponent shall notify the AM station so that, if necessary, the AM station may determine operating power by the indirect method (see § 73.51) and request special temporary authority pursuant to § 73.1635 to operate with parameters at variance. For AM stations licensed via field strength measurements (see § 73.151(a)), a partial proof of performance (as defined by § 73.154) shall be conducted both before and after construction to establish that the AM array will not be and has not been adversely affected. For AM stations licensed via a moment method proof (see § 73.151(c)), the proof procedures set forth in § 73.151(c) shall be repeated. The results of either the partial proof of performance or the moment method proof shall be filed with the Commission on Form 302–AM before or simultaneously with any license application associated with the installation.

47 CFR 1.30004(a) requires proponents of proposed tower construction or modification to an existing tower near an AM station that are subject to the notification requirement in §§ 1.30002–1.30003 to provide notice of the proposed tower construction or modification to the AM station at least 30 days prior to commencement of the planned tower construction or modification. Notification to an AM station and any responses may be oral or written. If such notification and/or response is oral, the party providing such notification or response must supply written documentation of the communication and written documentation of the date of communication upon request of the other party to the communication or the Commission. Notification must include the relevant technical details of the proposed tower construction or modification, and, at a minimum, also include the following: Proponent's name and address; coordinates of the tower to be constructed or modified; physical description of the planned structure; and results of the analysis showing the predicted effect on the AM pattern, if performed.

47 CFR 1.30004(b) requires that a response to a notification indicating a potential disturbance of the AM radiation pattern must specify the technical details and must be provided to the proponent within 30 days.

47 CFR 1.30004(d) states that if an expedited notification period (less than

30 days) is requested by the proponent, the notification shall be identified as “expedited,” and the requested response date shall be clearly indicated.

47 CFR 1.30004(e) states that in the event of an emergency situation, if the proponent erects a temporary new tower or makes a temporary significant modification to an existing tower without prior notice, the proponent must provide written notice to potentially affected AM stations within five days of the construction or modification of the tower and cooperate with such AM stations to remedy any pattern distortions that arise as a consequence of such construction.

47 CFR 73.875(c) requires an LPFM applicant to submit an exhibit demonstrating compliance with § 1.30003 or § 1.30002, as applicable, with any modification of license application filed solely pursuant to paragraphs (c)(1) and (c)(2) of this section, where the installation is on or near an AM tower, as defined in § 1.30002.

47 CFR 73.1675(c)(1) states that where an FM, TV, or Class A TV licensee or permittee proposes to mount an auxiliary facility on an AM tower, it must also demonstrate compliance with § 1.30003 in the license application.

47 CFR 73.1690(c) requires FM, TV, or Class A TV station applicants to submit an exhibit demonstrating compliance with § 1.30003 or § 1.30002, as applicable, with a modification of license application, except for applications solely filed pursuant to paragraphs (c)(6) or (c)(9) of this section, where the installation is located on or near an AM tower, as defined in § 1.30002.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer, Office of the Secretary.

BILLING CODE 6712–01–P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the

banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 16, 2019.

A. Federal Reserve Bank of Kansas City (Dennis Denney, Assistant Vice President) 1 Memorial Drive, Kansas City, Missouri 64198-0001:

1. *Fidelity Financial Bancorporation, Wichita, Kansas*; to become a bank holding company upon the conversion of its subsidiary Fidelity Bank, Wichita, Kansas, to a commercial bank.

Board of Governors of the Federal Reserve System, July 18, 2019.

Yao-Chin Chao,

Assistant Secretary of the Board.

BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Statement of Organization, Functions, and Delegations of Authority

Part C (Centers for Disease Control and Prevention) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772-76, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 84 FR 34177-34184, dated July 17, 2019) is amended to reflect the reorganization of the National Center on Birth Defects and Developmental Disabilities, Deputy Director for Non-Infectious Diseases, Centers for Disease Control and Prevention. This reorganization will

align budget lines and similar programmatic areas under the same divisions and branches.

I. Under Part C, Section C-B, Organization and Functions, the following organizational unit is deleted in its entirety:

- Developmental Disabilities Branch (CUBBD).

II. Under Part C, Section C-B, Organization and Functions, make the following changes:

- Update the functional state for the Office of the Director (CUB1).
- Update the functional statements for the Resource Management Office (CUB12).
- Retitle the Division of Congenital and Developmental Disorders (CUBB) to the Division of Birth Defects and Infant Disorders (CUBB) and update its functional statement.
- Update the functional statement for the Office of the Director (CUBB1).
- Retitle the Birth Defects Branch (CUBBB) to the Birth Defects Monitoring and Research Branch (CUBBB) and update its functional statement.
- Retitle the Prevention Research and Translation Branch (CUBBC) to the Infant Outcomes Monitoring, Research and Prevention Branch (CUBBC) and update its functional statement.
- Update the functional statement for the Division of Human Development and Disability (CUBC).
- Update the functional statement for the Child Development and Disability Branch (CUBCB).
- Retitle the Disability and Health Branch (CUBCC) to the Disability and Health Promotion Branch.

III. Under Part C, Section C-B, Organization and Functions, insert the following:

- Office of the Director (CUB1). (1) Directs, manages, and coordinates the activities of the NCBDDDD; (2) develops goals and objectives; provides leadership, policy formulation, scientific oversight, and guidance in program planning and development; (3) coordinates NCBDDDD program activities with other CDC components, federal agencies, state and local health agencies, business and industry, voluntary organizations, and community-based organizations; (4) coordinates technical assistance to states, other nations and international organizations; (5) coordinates with medical, scientific, and other professional organizations interested in birth defects prevention, pediatric genetics, developmental disabilities prevention, and disabilities and health, and prevention of complications of hereditary blood disorders; (6) advises the CDC Director on policy matters concerning NCBDDDD

activities; (7) oversees and coordinates the translation of scientific findings for health care providers, public health professionals, and the public on these conditions; (8) ensures NCBDDDD produces the highest quality, most relevant and useful science possible; (9) oversees scientific clearance of NCBDDDD documents and digital materials and coordinates cross-clearance of materials; (10) provides information and guidance to the staff regarding scientific issues and provides scientific leadership for the center; (11) provides ongoing communication leadership and support to NCBDDDD's Office of the Director and divisions in furthering the Centers' mission; leads strategic planning for communications and branding of NCBDDDD programs and projects; (12) leads and oversees news media strategy and evaluation; (13) facilitates clearance and cross-clearance of NCBDDDD print and digital materials, ensuring adherence to CDC and Department of Health and Human Services (DHHS) information and publication policies; (14) reviews, prepares and coordinates policy and briefing documents; (15) conducts monitoring and analysis of policy issues potentially affecting NCBDDDD and its constituents; and (16) provides information for the development of the NCBDDDD's annual budget submission.

- Resource Management Office (CUB12). (1) Plans, coordinates, and provides administrative and management advice and guidance for NCBDDDD; (2) provides and coordinates center-wide administrative, management, and support services in the areas of fiscal management, personnel, travel, procurement, facility management, and other administrative services; (3) prepares annual budget plans and budget justifications; (4) develops annual budget plans and budget justifications; (5) monitors NCBDDDD spend plans to ensure ceiling levels are at or below specified levels; (6) coordinates NCBDDDD requirements relating to contracts, grants, cooperative agreements, and reimbursable agreements; (7) develops and implements administrative policies, procedures, and operations, as appropriate, for NCBDDDD, and prepares special reports and studies, as required, in the administrative management areas; and (8) maintains liaison with related staff offices and other officials of CDC on behalf of NCBDDDD.

- Division of Birth Defects and Infant Disorders (CUBB). The Division of Birth Defects and Infant Disorders works to identify causes of birth defects and infant disorders through surveillance and public health research, and
