Expiration Date of Approval: 10/31/2019.

Type of Request: Renewal of a Previously Approved Collection.

Abstract: The Forest Service and Bureau of Land Management are required to report to Congress annually on the role of local communities in the development of agreement or contract plans through stewardship contracting, per Section 323 of Public Law 108-7 (16 U.S.C. 2104 Note). To meet the requirement, the Forest Service conducts surveys to gather the necessary information for use by both the Forest Service and Bureau of Land Management. The survey provides information regarding the:

(a) Nature of the local community involved in developing agreement or contract plans,

(b) Nature of roles played by the entities involved in developing agreement or contract plans,

(c) Benefits to the community and agency by being involved in planning and development of contract plans, and

(d) Usefulness of stewardship contracting in helping meet the needs of local communities.

The Pinchot Institute for Conservation and its sub-contractors collect the

information through an annual telephone survey. The survey asks Federal employees, employees of for-profit and not-for-profit institutions, employees of State and local agencies, and individual citizens who have been involved in stewardship contracting projects about their role in the development of agreement or contract plans.

The information collected through the survey is analyzed by the Pinchot Institute for Conservation and its sub-contractors and used to help develop the Forest Service and reports to Congress as required by Section 323 of Public Law 108-7.

Without the information from this annual collection of data, the Forest Service will not be able to provide the required annual reports to Congress on the role of communities in development of agreement or contract plans under stewardship contracting.

Type of Respondents: Employees of for-profit and non-profit businesses and institutions, as well as individuals.

Estimated Annual Number of Respondents: 90.

Estimate of Burden per Response: 0.75 hours.
