Title: Federal Seed Act Program..

OMB Control Number: 0581-0026.

Summary of Collection: The Federal Seed Act (FSA) (7 U.S.C. 1551-1611) regulates agricultural and vegetable seeds in interstate commerce. Agricultural and vegetable seeds shipped in interstate commerce are required to be labeled with certain quality information such as the name of the seed, the purity, the germination, and the noxious-weed seeds of the state into which the seed is being shipped. State seed regulatory agencies refer to the Agricultural Marketing Service (AMS) complaints involving seed found to be mislabeled and to have moved in interstate commerce. AMS investigates the alleged violations and if the violation is substantiated, takes regulatory action ranging from letters of warning to monetary penalties. AMS will collect information from records of each lot of seed and make them available for inspection by agents of the Secretary.

Need and Use of the Information: The information collected consists of records pertaining to interstate shipments of seed which have been alleged to be in violation of the FSA. The shipper's records pertaining to a complaint are examined by FSA program specialists and are used to determine if a violation of the FSA occurred. The records are also used to determine if the precautions taken by the shipper assure that the seed was accurately labeled and determine the corrective steps that can be taken by the shipper to prevent future violations. The FSA program would be ineffective without the ability to examine pertinent records as necessary to resolve complaints of violations.

Title: 7 CFR part 210, National School Lunch Program.

Forms: FNS-10, FNS-13, FNS-640, FNS-777, and FNS-828.

OMB Control Number: 0584-0006.

Expiration Date: September 30, 2019.

Type of Request: Revision of a currently approved collection.

Abstract: The Richard B. Russell National School Lunch Act (NSLA), as amended, authorizes the National School Lunch Program (NSLP) to safeguard the health and well-being of the nation's children and provide free or reduced price school lunches to qualified students through subsidies to schools. The United States Department of Agriculture (USDA)/Food and Nutrition Service (FNS) provides States with general and special cash assistance and donations of foods to assist schools in serving nutritious lunches to children each school day. Participating schools must serve lunches that are nutritionally adequate and maintain menu and food production records to demonstrate compliance with the meal requirements.

Section 10 of the Child Nutrition Act of 1966 (42 U.S.C. 1779) requires the Secretary of Agriculture to prescribe such regulations as deemed necessary to carry out this Act and the NSLA (42 U.S.C. 1751 *et seq.*). Pursuant to that provision, the Secretary has issued 7 CFR part 210, which sets forth policies and procedures for the administration and operation of the NSLP. The Program is administered at the State and school food authority (SFA) levels and operations include the submission of applications and agreements, submission of the number of meals served and payment of claims, submission of data from required monitoring reviews conducted by the State agency, and maintenance of records. State and local operators of the NSLP are required to meet Federal reporting and accountability requirements and are also required to maintain records that include school food service accounts of revenues and expenditures.

The reporting, recordkeeping, and public notification burden associated with this revision decreased from 10,030,000 to 9,808,439 hours. This change is due to the removal of public notification burden that occurred only once and decreases in the number of schools and SFAs participating in the Program. Other changes include the addition of 304,640 hours of recordkeeping burden originating from

the “Administrative Reviews in the School Nutrition Programs” Final Rule (RIN 0584–AE30) (published in the **Federal Register** on July 29, 2016), which have not been accounted for in the burden. This change accounts for the time needed for State agencies to conduct an administrative review and maintain the associated documentation. This renewal also includes the addition of 56 hours of reporting burden to account for the quarterly performance-based reimbursement report, which was mistakenly removed during the previous renewal.

FNS collects program data from the State agencies on Forms FNS–10 Report of School Operations, FNS–13 Annual Report of State Revenue Matching, FNS–640 Administrative Review Data Report Form, FNS–777 Financial Status Report, and FNS–828 School Food Authority Paid Lunch Price Report. These forms are approved under OMB Control # 0584–0594 Food Program Reporting System (FPRS), which expires September 30, 2019. The reporting

burden associated with these reports is covered under #0584–0594 and is not associated with this information collection. However, the recordkeeping burden is still maintained in this collection.

This information collection is required to administer and operate this program in accordance with the NSLA. This is a revision of the currently approved information collection.
