

the “Administrative Reviews in the School Nutrition Programs” Final Rule (RIN 0584–AE30) (published in the **Federal Register** on July 29, 2016), which have not been accounted for in the burden. This change accounts for the time needed for State agencies to conduct an administrative review and maintain the associated documentation. This renewal also includes the addition of 56 hours of reporting burden to account for the quarterly performance-based reimbursement report, which was mistakenly removed during the previous renewal.

FNS collects program data from the State agencies on Forms FNS–10 Report of School Operations, FNS–13 Annual Report of State Revenue Matching, FNS–640 Administrative Review Data Report Form, FNS–777 Financial Status Report, and FNS–828 School Food Authority Paid Lunch Price Report. These forms are approved under OMB Control # 0584–0594 Food Program Reporting System (FPRS), which expires September 30, 2019. The reporting

burden associated with these reports is covered under #0584–0594 and is not associated with this information collection. However, the recordkeeping burden is still maintained in this collection.

This information collection is required to administer and operate this program in accordance with the NSLA. This is a revision of the currently approved information collection.

Abstract: The Forest Service and Bureau of Land Management are required to report to Congress annually on the role of local communities in the development of agreement or contract plans through stewardship contracting, per Section 323 of Public Law 108-7 (16 U.S.C. 2104 Note). To meet the requirement, the Forest Service conducts surveys to gather the necessary information for use by both the Forest Service and Bureau of Land Management. The survey provides information regarding the:

(a) Nature of the local community involved in developing agreement or contract plans,

(b) Nature of roles played by the entities involved in developing agreement or contract plans,

(c) Benefits to the community and agency by being involved in planning and development of contract plans, and

(d) Usefulness of stewardship contracting in helping meet the needs of local communities.

The Pinchot Institute for Conservation and its sub-contractors collect the

information through an annual telephone survey. The survey asks Federal employees, employees of for-profit and not-for-profit institutions, employees of State and local agencies, and individual citizens who have been involved in stewardship contracting projects about their role in the development of agreement or contract plans.

The information collected through the survey is analyzed by the Pinchot Institute for Conservation and its sub-contractors and used to help develop the Forest Service and reports to Congress as required by Section 323 of Public Law 108-7.

Without the information from this annual collection of data, the Forest Service will not be able to provide the required annual reports to Congress on the role of communities in development of agreement or contract plans under stewardship contracting.

Type of Respondents: Employees of for-profit and non-profit businesses and institutions, as well as individuals.
