SUPPLEMENTARY INFORMATION: The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

Current Actions: The *Museums for Digital Learning* (MDL) is a project funded by the Institute of Museum and Library Services (IMLS) that seeks to identify and test new ways that digitized museum collections can be made available in the form of engaging digital educational resources via a pilot digital platform to educators around the country seeking to engage their students with all subjects. This two-year project is being led by the Indianapolis Museum of Art at Newfields in collaboration with two museum content partners—The Field Museum and History Colorado and a team of K-12 educators. Once the pilot suite of online products has been created by the project team, they will be tested in the classrooms of the ten educational partners. Testing and validation of the content contribution approach and standard templates to the pilot platform will be conducted with a cohort of up to ten additional museums of various sizes and disciplines.

This project aligns with IMLS's strategic goal and priorities of building the digital capacity of the sector. MDL will catalyze and empower museums to come together and create a national model with a shared vision to thoughtfully assess some of the critical gaps in the current platforms and digital access/use models, and then leverage the power of a shared digital platform to provide easy-to-access, interdisciplinary, and dynamic content

from museums in digital format for educators and students.

The project will benefit the national education sector by providing a model for museums to collaborate as a sector with educators and engaging them not just as users of museum content and services, but as co-creators and co-facilitators of student learning; a suite of curriculum enhancing and student-centric digital collections-based educational resources; and an opportunity to pilot-test and improve the resources from the formative evaluation to better meet the needs of the nation's learners.

The product and process evaluation of the MDL project will be completed by a third party evaluator with experience in evaluating digital education platforms produced by the cultural heritage community. The process evaluation aspect will assess the overall planning and implementation of the collaborative model of MDL between the partner museums and the educators, as well as the effectiveness of the training and ease of content contribution of the ten additional museums. Much of the front-end and user experience design of the MDL platform will be formed through the collaboration and co-creation process between the cooperator, lead museum content partners, and the team of educators. The product evaluation will assess the ease of access and educational value of the collections-based digital education products for educators and students.

This action is to create the overall evaluation plan, survey and data collection instruments and instructions for the various evaluation techniques to be used at different points in the development and implementation of the MDL pilot initiative for the next two years.

TTY users may call the Federal Relay Service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4400, extension 6563.

SUPPLEMENTARY INFORMATION: Section 4062(e) of the Employee Retirement Income Security Act of 1974 (ERISA) imposes reporting obligations in the event of a "substantial cessation of operations." A substantial cessation of operations occurs when a permanent cessation at a facility causes a separation from employment of more than 15 percent of all "eligible employees." "Eligible employees" are employees eligible to participate in any of the facility's employer's employee pension benefit plans. Following a substantial cessation of operations, the facility's employer is treated, with respect to its single employer pension plans covered by title IV of ERISA that are covering participants at the facility, as if the employer were a withdrawing

substantial employer under a multiple-employer plan. Under section 4063(a) of ERISA, the Pension Benefit Guaranty Corporation (PBGC) must receive notice of the substantial cessation of operations and a request to determine the employer's resulting liability.

To fulfill such resulting liability, the employer may elect, under section 4062(e)(4)(A), to make additional contributions annually for seven years to plans covering participants at the facility where the substantial cessation of operations took place. Under sections 4062(e)(4)(E)(i)(I), (II), (III), (IV), and (V) respectively, an employer that is making the election for annual additional contributions must give notice to PBGC of: (1) Its decision to make the election, (2) its payment of an annual additional contribution, (3) its failure to pay an annual additional contribution, (4) its receipt of a funding waiver from the Internal Revenue Service ("IRS"), and (5) the ending of its obligation to make annual additional contributions.

PBGC is proposing a new form series that would be used to fulfill these reporting obligations. An employer or a plan administrator would file Form 4062(e)-01 to notify PBGC of the occurrence of a substantial cessation of operations and request a determination of the employer's liability. An employer would file Form 4062(e)-02 to notify PBGC that it made the election to pay annual additional contributions to a plan. An employer would file Form 4062(e)-03 to notify PBGC that it paid an annual additional contribution, received a funding waiver from the IRS, or is no longer obligated to pay annual additional contributions. Finally, an employer would file Form 4062(e)-04 to notify PBGC that it failed to pay an annual additional contribution to the plan.

PBGC needs the requested information in the forms and notification (1) to determine an employer's liability to a plan following a substantial cessation of operations and (2) to ensure that an employer that made the election of annual additional contributions is fulfilling its payment obligations.

On May 15, 2019, PBGC published in the **Federal Register** (at 84 FR 21840) a notice informing the public of its intent to request an approval of the new form series. PBGC did not receive any comments about this collection of information.

PBGC is requesting that OMB approve the collection of information for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

unless it displays a currently valid OMB control number.

PBGC estimates that 70 forms (10 Forms 4062(e)-01, 10 Forms 4062(e)-02, 49 Forms 4062(e)-03, and one Form 4062(e)-04) would be submitted each year. PBGC estimates that these forms would be completed by a combination of plan office staff and outside professionals (attorneys and actuaries). PBGC estimates a total annual hour burden of 315 hours (based on plan office time). The estimated dollar equivalent of this hour burden, based on an assumed hourly rate of \$75 for administrative, clerical, and supervisory time is \$23,625. PBGC estimates a total annual cost burden of \$92,750 (based on 265 professional hours assuming an average hourly rate of \$350).

Issued in Washington, DC.

Hilary Duke,

Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
