SUPPLEMENTARY INFORMATION: PHMSA has received a special permit request from Gulfstream Natural Resources, LLC, to deviate from the federal pipeline safety regulations in 49 CFR 192.619(a) and 192.195(a) on the Gulfstream Natural Gas System (Gulfstream Pipeline). The proposed special permit, if granted, would allow an increase in the maximum allowable operating pressure (MAOP) from 2,180 pounds per square inch gauge (psig) to 2,296 psig from Gulfstream Pipeline Mile Post 3.9 to Mile Post 59 and the use of pressure gradient for pressure control to maintain a MAOP of 2,180 psig downstream of Mile Post 59. The Gulfstream Pipeline segment, where the proposed special permit would be applicable, is from Mile Post 3.9 in Mobile County, Alabama to the Gulfstream Pipeline west subsea tie-in valves located at Mile Post 59 in the Gulf of Mexico, Outer Continental Shelf.

Gulfstream Pipeline is proposing a gas transmission flow volume increase of 78,000 dekatherms per day. A Gulfstream Pipeline MAOP increase from 2,180 psig to 2,296 psig will be required from Mile Post 0.0 to Mile Post 59. The Gulfstream 36-inch diameter piping, valves, and components from Mile Post 0.0 to Mile Post 3.9 will be replaced and pressure tested, where required, to meet part 192 regulations for a 2,296 psig MAOP.

The Gulfstream Pipeline is a 36-inch diameter pipeline that spans approximately 427 miles from southern Alabama, across the bottom of the Gulf of Mexico, to the Tampa Bay, Florida region. The Gulfstream Pipeline begins at Compressor Station 410, an existing natural gas compressor station located in Mobile County near Coden, Alabama, travels offshore into the Gulf of Mexico, and ends at Compressor Station 420, located in Manatee County near Bartow, Florida.
A draft environmental assessment (DEA) accompanied the special permit request. The DEA is available at https://www.Regulations.gov, in Docket Number PHMSA–2018–0105. We invite interested persons to participate by reviewing the special permit request and DEA at https://www.Regulations.gov, and by submitting written comments, data, or other views. Please include any comments on potential safety and environmental impacts that may result if the special permit is granted.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comment closing date. Comments received after the closing date will be evaluated if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment we receive in making our decision to grant or deny the request.

Issued in Washington, DC on July 8, 2019, under authority delegated in 49 CFR 1.97.
Alan K. Mayberry, Associate Administrator for Pipeline Safety.
