

18, 1983, promulgated on June 29, 1984, and amended on October 17, 2000. These regulations apply to facilities with rotogravure printing lines used to print or coat flexible vinyl or urethane products for which construction, modification or reconstruction commenced after January 18, 1983. This information is being collected to assure compliance with 40 CFR part 60, subpart FFF.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities: Flexible vinyl and urethane coating and printing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart FFF).

Estimated number of respondents: 41 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 1,310 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$525,000 (per year), which includes \$376,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the change in burden in this ICR compared to the previous renewal. This is due to two considerations: (1) There has been an increase in the estimated number of respondents from the prior ICR, based on a review of sources reported in the Agency's Integrated Compliance Information System (ICIS); and (2) the increase in the number of respondents also results in an increase in the operation and maintenance costs. Growth in the industry is anticipated to remain consistent at one respondent over the three-year period of this ICR, therefore there are no changes to the capital or startup costs.

Director, Regulatory Support Division.
