I. Background

The background for this action is discussed in detail in the March 22, 2018 (83 FR 12514) Proposal.¹ After the close of the comment period, the Oklahoma Department of Environmental Quality (ODEQ) submitted additional information by letter dated July 31, 2018 (hereinafter “ODEQ’s July 31, 2018 Letter”),² concerning the SIP rule

² ODEQ letter dated July 31, 2018 to EPA concerning March 22, 2018 (83 FR 12514) Proposal, document ID No. EPA-R06-OAR-2017-0145-0026 at Regulations.gov.

revisions addressed in the March 22, 2018 Proposal. The information submitted by ODEQ was intended to clarify the rule revisions and their applicability as well as to further demonstrate how the revisions improve the Oklahoma SIP. On October 5, 2018, we published a Supplemental Notice of Proposed Rulemaking (SNPR)³ at 83 FR 50312. The October 5, 2018 SNPR reopened the comment period based on the information submitted by Oklahoma and our analysis of it. We also withdrew the proposed action concerning Commercial and Industrial Solid Waste Incineration Units because the State did not submit it for approval as a SIP revision. The Proposal, the SNPR, the Technical Support Document (TSD),⁴ and Supplement 3 to the TSD⁵ provide a detailed description and rationale for EPA’s proposal to approve into the Oklahoma SIP certain revisions to Oklahoma Administrative Code (OAC) Title 252 Department of Environmental Quality (ODEQ), Chapter 100 Air Pollution Control (OAC:252:100) that Oklahoma submitted to the EPA on February 14, 2017. Specifically, the Proposal and the SNPR concern revisions to OAC:252:100 Subchapters 13 Open Burning, 17 Incinerators, 25 Visible Emissions and Particulates, 31 Control of Emission of Sulfur Compounds, Appendix E Primary Ambient Air Quality Standards, and Appendix F Secondary Ambient Air Quality Standards. The criteria used to evaluate these SIP revisions are found primarily in section 110 of the Act.

II. Public Comments

We received 19 comments on the March 22, 2018 (83 FR 12514) Proposal during the comment period that closed on April 23, 2018, and all comments are available in docket for this action. Eighteen of the 19 comments were submitted anonymously and did not provide information relevant or specific to the provisions proposed for approval into the Oklahoma SIP. Upon review, the EPA determined that the 18 anonymous comments merit no further response or discussion.⁶ The remaining comment, submitted by the Sierra Club and the Center for Biological Diversity (commenters), included relevant comments on the March 22, 2018 (83 FR
