

susceptible subpopulations, alternatives, and regulatory options for chemicals being evaluated or regulated, EPA would be able to more efficiently and effectively carry out its mandate under TSCA to protect human health and the environment from unreasonable risks.

EPA would not collect information of a sensitive or private nature. However, respondents may claim information provided in an interview or focus group as CBI under TSCA section 14. Please refer to TSCA section 14(b) to understand what information is not protected from disclosure. For example, TSCA section 14(a) does not prohibit the disclosure of information from health and safety studies that are submitted under TSCA. Information on the requirements for asserting CBI claims under TSCA can be found at <https://www.epa.gov/tsc-cbi/making-cbi-claims-tsc-submissions>. EPA would disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures of TSCA section 14, which provides advance notice and an opportunity to object prior to public disclosure.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2 hours per response. Burden is defined in 5 CFR 1320.3(b). The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected entities: Potential respondents include chemical manufacturers, chemical users, processors, distributors, manufacturers (including importers), recyclers, chemical waste handlers, consumers, employees, state regulators, non-governmental organizations, and industry experts about the chemical being evaluated or considered for risk management under TSCA. As such, there are no typical respondent NAICS codes and the respondents will vary depending on the conditions of use of each chemical under consideration.

Estimated total number of potential respondents: 600.

Frequency of response: On occasion, as necessary to support risk evaluation and management of existing chemicals.

Estimated total average number of responses for each respondent: One.

Estimated total annual burden hours: 400 hours.

Estimated total annual costs: \$31,008. This includes an estimated burden cost of \$31,008 and an estimated cost of \$0

for capital investment or maintenance and operational costs.

V. What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the individual ICRs as appropriate. The final ICR packages will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.10. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of these ICRs to OMB and the opportunity for the public to submit additional comments for OMB consideration. If you have any questions about any of these ICRs or the approval process in general, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: July 18, 2019.

Alexandra Dapolito Dunn,
Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

Centers for Disease Control and Prevention

Final Effect of Designation of a Class of Employees for Addition to the Special Exposure Cohort

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention, Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: HHS gives notice concerning the final effect of the HHS decision to designate a class of employees from the Idaho National Laboratory in Scoville, Idaho, as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000.

FOR FURTHER INFORMATION CONTACT: The Division of Compensation Analysis and Support, NIOSH, 1090 Tusculum Avenue, MS C-46, Cincinnati, OH 45226-1938, Telephone 513-533-6800. Information requests can also be submitted by email to DCAS@CDC.GOV.

SUPPLEMENTARY INFORMATION: On June 21, 2019, as provided for under 42 U.S.C. 7384l(14)(C), the Secretary of HHS designated the following class of employees as an addition to the SEC:

All employees of the Department of Energy, its predecessor agencies, and their contractors and subcontractors who worked at the Idaho National Laboratory (INL) in Scoville, Idaho, and who were monitored for external radiation at the Idaho Chemical Processing Plant (ICPP) (e.g., at least one film badge or TLD dosimeter from ICPP) between January 1, 1963, and February 28, 1970, for a number of work days aggregating at least 250 work days, occurring either solely under this employment, or in combination with work days within the parameters established for one or more other classes of employees in the Special Exposure Cohort.

This designation became effective on July 21, 2019. Therefore, beginning on July 21, 2019, members of this class of employees, defined as reported in this notice, became members of the SEC.

Authority: 42 U.S.C. 7384q(b). 42 U.S.C. 7384l(14)(C).

John J. Howard,

Director, National Institute for Occupational Safety and Health.
