Abstract

The U.S. Geological Survey (USGS) Water Resources Research Act (WRRRA) program issues an annual announcement to solicit applications for the noncompetitive State Water Resources Research Program annual grants authorized by section 104(c) and for the national competitive grant program authorized by section 104(g) of the Water Resources Research Act of 1984 (Pub. L. 98–242), as amended [42 U.S.C. 10303(c)].

Annual grants (104c) may contain research and information transfer projects as well as an administration project describing the institutes overall administration and objectives. The research projects are generally selected in a competitive statewide solicitation, peer review, and selection process designed and conducted by each institute. National competitive grants (104g) will focus on water problems and issues of a regional or interstate nature beyond those of concern only to a single State and which relate to specific program priorities identified jointly by the Secretary (of the Interior) and the institutes.

The State Water Resources Research Institutes were established under Section 104(a) of the Act [42 U.S.C. 10303(a)]. There are 54 Water Resources Research Institutes, one in each state, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and Guam. The Institutes are organized as the National Institutes for Water Resources (NIWR). NIWR cooperates with the USGS in establishing total programmatic direction, reporting on the activities of the institutes, coordinating and facilitating regional research and information and technology transfer.
