recreation; aesthetics and visual resources; and hazardous, toxic and radioactive waste. USACE will also consider issues identified and comments made throughout scoping, public involvement, and interagency coordination.

3. Public Involvement: Public involvement, an essential part of the NEPA process, is integral to assessing the environmental consequences of the proposed action and improving the quality of the environmental decision making. The public includes affected and interested Federal, state, and local agencies; Indian tribes; concerned citizens; stakeholders; and other interested parties. Public participation in the NEPA process will be strongly encouraged, both formally and informally, to enhance the probability of a more technically accurate, economically feasible, and socially acceptable EIS. Public involvement will include, but is not limited to: information dissemination; identification of problems, needs and opportunities; idea generation; public education; problem solving; providing feedback on proposals; evaluation of alternatives; conflict resolution; public and scoping notices and meetings; public, stakeholder and advisory group consultation and meetings; and making the EIS and supporting information readily available in conveniently located places, such as libraries and on the world wide web at https://www.mvm.usace.army.mil/Missions/Projects/North-DeSoto-County-Feasibility-Study/.

5. Coordination: The USACE will serve as the lead Federal agency in the preparation of the EIS. Other federal and/or state agencies may participate as cooperating and/or commenting agencies throughout the EIS process.

In accordance with Executive Order 13807, referred to as One Federal Decision (OFD), the USACE and other agencies with environmental review, authorization, or consultation responsibilities for major infrastructure projects should develop a single EIS for such projects, sign a single Record of Decision (ROD) and issue all necessary authorizations within 90 days thereafter, subject to limited exceptions. An essential element of the OFD framework is the development of a schedule, referred to as the “Permitting Timetable,” including key milestones critical to completion of the environmental review and issuance of a ROD. Cooperating agencies required by law to develop schedules for environmental review or authorization processes should transmit a summary of such schedules to the lead agency for integration into the Permitting Timetable.

To ensure timely completion of the environmental review and issuance of necessary authorizations, OMB and CEQ recommend the Permitting Timetable for major infrastructure projects provide for environmental review according to the following schedule:

(1) Formal scoping and preparation of a Draft EIS (DEIS) within 14 months, beginning on the date of publication of the NOI to publish an EIS and ending on the date of the Notice of Availability of the DEIS;

(2) Completion of the formal public comment period and development of the Final EIS (FEIS) within eight months of the date of the Notice of Availability of the DEIS; and

(3) Publication of the final ROD within two months of the publication of the Notice of Availability of the FEIS.

While the actual schedule for any given project may vary based upon the circumstances of the project and applicable law, agencies should endeavor to meet the two-year goal established in E.O. 13807.

The USACE is coordinating with the U.S. Fish and Wildlife Service (USFWS) in documenting existing conditions and assessing effects of project alternatives through the Fish and Wildlife Coordination Act and pursuant to Section 7 of the Endangered Species Act. Coordination includes the U.S. Environmental Protection Agency and the Mississippi Department of Environmental Quality pursuant to Section 401 of the Clean Water Act, and the Mississippi Department of Wildlife Fisheries and Parks. The USACE is coordinating with the State Historic Preservation Officer under Section 106 of the National Historic Preservation Act concerning properties listed, or potentially eligible for listing.

6. Availability: The DIFR–EIS is expected to be available for public comment and review in January 2020. At that time, a 45-day public review period will be provided for individuals and agencies to review and comment. USACE will notify all interested agencies, organizations, and individuals of the availability of the draft document at that time. All interested parties are encouraged to respond to this notice and provide a current address if they wish to be notified of the DIFR–EIS circulation.

Dated: August 2, 2019. Approved by:

Zachary L. Miller,
Colonel, Corps of Engineers District Commander.

BILLING CODE 3720–58–P

DEPARTMENT OF EDUCATION

Applications for New Awards; Personnel Development To Improve Services and Results for Children With Disabilities—Leadership Development Programs: Increasing the Capacity of Leaders To Improve Systems Serving Children With Disabilities

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice.

SUMMARY: The mission of the Office of Special Education and Rehabilitative Services (OSERS) is to improve early childhood, educational, and employment outcomes and raise expectations for all people with disabilities, their families, their communities, and the Nation. As such, the Department of Education (Department) is issuing a notice inviting applications for new awards for fiscal year (FY) 2019 for Personnel Development to Improve Services and Results for Children with Disabilities—Leadership Development Programs:
Increasing the Capacity of Leaders to Improve Systems Serving Children with Disabilities, Catalog of Federal Domestic Assistance (CFDA) number 84.325L. These grants will fund States to implement leadership development programs that recruit, increase the capacity of, and retain State, regional, and local leaders to promote high expectations and improve early childhood and educational outcomes for children with disabilities and their families by improving the systems that serve them. This notice relates to the approved information collection under OMB control number 1820-0028.

DATES:
Applications Available: August 9, 2019.
Pre-Application Webinar Information: No later than August 14, 2019, OSERS will post pre-recorded informational webinars designed to provide technical assistance to interested applicants. The webinars may be found at www2.ed.gov/fund/grant/apply/osep/new-osep-grants.html.
Pre-Application Q & A Blog: No later than August 14, 2019, OSERS will open a blog where interested applicants may post questions about the application requirements for this competition and where OSERS will post answers to the questions received. OSERS will not respond to questions unrelated to the application requirements for this competition. The blog may be found at www2.ed.gov/fund/grant/apply/osep/new-osep-grants.html and will remain open until August 28, 2019. After the blog closes, applicants should direct questions to the person listed under FOR FURTHER INFORMATION CONTACT.

ADRESSES: For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), and available at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1–800–877–8339.

SUPPLEMENTARY INFORMATION:
Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for personnel preparation in special education, early intervention, related services, and regular education to work with children, including infants and toddlers, and youth with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research, to be successful in serving those children.

Priorities: This competition includes one absolute priority and one competitive preference priority. In accordance with 34 CFR 75.105(b)(2)(v), the absolute priority and competitive preference priority are from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA); 20 U.S.C. 1462 and 1481).

Absolute Priority: For FY 2019 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is: Leadership Development Programs: Increasing the Capacity of Leaders to Improve Systems Serving Children with Disabilities.

Background: State, regional, and local administrators in early intervention and special education serve a critical role in ensuring that infants, toddlers, children, and youth with disabilities (children with disabilities) are provided services and supports to which they are entitled under the Individuals with Disabilities Education Act (IDEA) and in helping improve results for children with disabilities. Given the demands for leading within complex early intervention and special education systems and addressing current issues across systems, administrators must have the skills to collaborate with other agencies and programs. This would help ensure that children with disabilities are held to high standards and that their individualized needs are met across natural environments and educational settings. In addition, the expansion of educational options has also added to special education administrators’ responsibilities to ensure that parents of children with disabilities are empowered to choose from a robust range of educational options and supports to identify those that best meet their children’s needs.

With the increasing demands placed on State, regional, and local administrators, it is essential that they have the knowledge, skills, and competencies to oversee the administration of early intervention and special education systems. Turnover of administrators and leaders across all levels of the system is high and increasing. In 2018, 70 percent of State Directors of Special Education had less than five years of experience, up from only 15 percent in 2010 (NCSI, 2018a). Similarly, 73 percent of Part C Coordinators had less than 5 years of experience in 2018, up from 39 percent in 2005 (NCSI, 2018b). Approximately 10 to 15 percent of local special education administrator positions turn over each year (Goldring & Taie, 2018).

1 For the purpose of this priority, “educational options” means the opportunity for a child or student (or a family member on their behalf) to create a high-quality personalized path for learning that is consistent with applicable Federal, State, and local laws; is in an educational setting that best meets the child’s or student’s needs; and, where possible, incorporates evidence-based activities, strategies, or interventions. Opportunities made available to a student through a grant program are those that supplement what is provided by a child’s or student’s geographically assigned school or the institution in which he or she is currently enrolled and may include one or more of the following options: (1) Public educational programs or courses, including those offered by traditional public schools, public charter schools, public magnet schools, public online education providers, or other public education providers; (2) Private or home-based educational programs or courses, including those offered by private schools, private online providers, private tutoring providers, community or faith-based organizations, or other private education providers; (3) Part-time coursework or career preparation, offered by a public or private provider in person or through the internet or another form of distance learning, that serves as a supplement to full-time enrollment at an educational institution, as a stand-alone program leading to a credential, or as a supplement to education received in a homeschool setting; and (4) Other educational services, including credit-recovery, accelerated learning, or tutoring.
Further, half of the States do not require a special education administration credential for local special education administrators or specifically address the preparation of administrators in the personnel preparation programs offered by institutions of higher education (IHEs) in their States (Boscardin, Weir, & Kusek, 2010). Even when an administration credential is required, preparation programs are at times difficult to find, hard for working professionals to access or complete, and varied in content coverage (Bellamy & Iwazsk, 2017). Like credentialing programs, professional development programs that help administrators develop the knowledge, skills, and competencies needed for leadership positions often are not available, thus requiring State, regional, and local administrators to learn on the job.

In order to help meet the complex and varied needs of children with disabilities and their families, this priority will fund Grants to State educational agencies (SEAs) or lead agencies for Part C to implement high-quality, sustainable leadership development programs to recruit, increase the capacity of, and retain State, regional, and local leaders who have the knowledge, skills, and competencies to improve systems serving children with disabilities and their families. This priority is consistent with Supplemental Priority 2—Promoting Innovation and Efficiency, Streamlining Education with an Increased Focus on Improving Student Outcomes, and Providing Increased Value to Students and Taxpayers; Supplemental Priority 5—Meeting the Unique Needs of Students and Children With Disabilities and/or Those with Unique Gifts and Talents; and Supplemental Priority 8—Promoting Effective Instruction in Classrooms and Schools.

The projects must be operated in a manner consistent with nondiscrimination requirements contained in the U.S. Constitution and the Federal civil rights laws.

Priority: The purpose of this priority is to fund grants to achieve, at a minimum, the following expected outcomes:

(a) Development, improvement, or expansion of a high-quality, sustainable leadership development program to recruit, increase the capacity of, and retain a network of leaders at the State, regional, or local level to improve systems serving children with disabilities and their families;
(b) Development, improvement, or expansion of infrastructure and implementation supports, including but not limited to partnerships with relevant child-serving agencies and diverse stakeholders (e.g., IHEs, parent centers, State- and local-level administrators, technical assistance providers) to deliver and sustain leadership development programs; and
(c) Increased number of early intervention and special education leaders at the State, regional, or local level with the knowledge, skills, and competencies to improve systems serving children with disabilities and their families.

To be considered for funding under this absolute priority, all applicants must meet the requirements contained in the priority. All projects funded under this absolute priority also must meet the programmatic and administrative requirements specified in the priority.

To meet the requirements of this priority, an applicant must—
(a) Demonstrate, in the narrative section of the application under “Significance,” how the proposed project will:
   (1) Address the need for early intervention or special education leaders at the State, regional, or local level with the knowledge, skills, and competencies to improve systems serving children with disabilities and their families. To meet this requirement, the applicant must—
      (i) Present applicable data demonstrating the need to increase the number of early intervention or special education leaders with the knowledge, skills, and competencies to improve systems serving children with disabilities and their families;
      (ii) Identify the knowledge, skills, and competencies that early intervention or special education leaders need to improve systems serving children with disabilities and their families; and
   (iii) Identify current educational issues and policy initiatives at the Federal, State, regional, and local levels that early intervention or special education leaders need to understand, including how innovation and the State’s efforts to expand educational options can be supported, and parents can be empowered to choose an education that best meets their children’s needs; and
   (2) Address the need for infrastructure and implementation supports, including partnerships with relevant child-serving agencies and diverse stakeholders, to effectively develop, deliver, and sustain a leadership development program to recruit, increase the capacity of, and retain a network of leaders at the State, regional, or local level with the knowledge, skills, and competencies to improve systems serving children with disabilities and their families. To meet this requirement, the applicant must—
      (i) Present data, if applicable, on the quality of existing leadership development programs or personnel preparation degree programs that prepare leaders to work in administrative or leadership positions in systems where children receive early intervention or special education services, including the effectiveness of the program(s) at (a) increasing the knowledge, skills, and competencies of program completers; and (b) retaining program completers to work in administrative or leadership positions in systems where children receive early intervention or special education services; and
      (ii) Present information on the current capacity of the State, regional, or local systems to recruit, increase the capacity of, and retain leaders, including programs IHEs offer to credential or otherwise prepare early intervention and special education administrators, and the likely magnitude or importance of developing a network of leaders with the capacity to improve systems serving children with disabilities.
   (b) Demonstrate, in the narrative section of the application under “Quality of project services,” how the proposed project will—
      (1) Ensure equal access and treatment for members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability; and
      (2) Achieve its goals, objectives, and intended outcomes. To meet this requirement, the applicant must provide—
      (i) Measurable intended project outcomes; and
      (ii) In Appendix A, the logic model 4 by which the proposed project will

\footnote{For the purpose of this priority, “implementation supports” means effective methods for changing practices, organizational structure, and systems at all levels.}

\footnote{For the purpose of this priority, “parent centers” refers to Parent Training and Information Centers and Community Parent Resource Centers funded by OSEP, which can be found at www.parentcenterhub.org/the-parent-center-network/.

\footnote{4 "Logic model" (34 CFR 77.1) (also referred to as a theory of action) means a framework that identifies key project components of the proposed project (i.e., the active “ingredients” that are hypothesized to be critical to achieving the relevant outcomes) and describes the theoretical and
achieve its intended outcomes that
depicts, at a minimum, the goals, activities, outputs, and intended outcomes of the proposed project;
(3) Use a conceptual framework (and
provide a copy in Appendix A) to
develop project plans and activities,
describing any underlying concepts,
assumptions, expectations, beliefs, or
theories, as well as the presumed
relationships or linkages among these
variables, and any empirical support for
this framework;

Note: The following websites provide more
information on logic models and conceptual
frameworks: www.osepideasthatwork.org/
logicModel and www.osepideasthatwork.org/
resources-grantees/program-areas/ta-tad-
project-logic-model-and-conceptual-
framework.

(4) Develop, improve, or expand a
leadership development program or
programs to recruit, increase the
capacity of, and retain a network of
leaders at the State, regional, or local
level with the knowledge, skills, and
competencies to improve systems
serving children with disabilities and
their families. To establish the quality of
the proposed leadership development
program, the applicant must include—
(i) Its proposed plan for partnering
with diverse stakeholders to develop,
improve, or expand a leadership
development program to recruit,
increase the capacity of, and retain a
network of leaders at the State, regional,
or local level to improve systems
serving children with disabilities and
their families. The stakeholders must
include, at a minimum, representatives
specifically identified from IHEs.
Stakeholders must be involved as
decision makers in how the leadership
development program is developed,
improved, or expanded, and serve as
partners in delivering and evaluating
the program;
(ii) The intended participants of the
leadership development program;
(iii) Its proposed approach for
developing or improving the content
and delivery of the leadership
development program. To meet this
requirement the applicant must
describe—
(A) The knowledge, skills, and
competencies that participants will gain
by completing the leadership
development program. At a minimum,
the applicant must ensure that
participants demonstrate knowledge,
skills, and competencies in the
following areas:
(1) Federal laws, State laws, and State
policies, procedures, and initiatives that
impact children with disabilities and
their families;
(2) Educational options for children
with disabilities and how to support
State’s efforts to empower parents to
choose from a robust range of
educational options and supports to
identify those that best meet their
children’s needs;
(3) Evidence-based \(^5\) practices to
improve academic, learning, and
developmental outcomes for children
with disabilities, including
differentiating interventions and
instruction across multi-tiered systems
of support;
(4) Partnering with parents, families,
and diverse stakeholders to improve
systems;
(5) Systems change, implementation
science, and professional development
methods to promote the implementation
of evidence-based practices and use of
data-based decision making; and
(6) Leadership practices (e.g.,
organizational visioning, collaborative
decision making, communication and
conflict management, relationship
building);
(B) The current research and
evidence-based practices that will guide
the development of the content and
delivery of the leadership development
program, including but not limited to
evidence-based professional
development practices for adult learners
and resources developed by projects
funded by the Departments of Education
and Health and Human Services;
(C) How the proposed leadership
development program is of sufficient
quality, intensity, and duration to
prepare a network of leaders with the
identified knowledge, skills, and
competencies needed to improve
systems serving children with
disabilities and their families. To meet
this requirement, the applicant must
describe—
(1) The components of the leadership
development program, which must
include, but are not limited to, face-to-
face activities, applied projects, peer
interactions and collaboration
opportunities, mentoring support, and
ongoing coaching, and how these
components are sequenced;
(2) How participants in the leadership
development program will be provided
with mentoring, ongoing coaching and
performance feedback during the

\(^5\) For the purposes of this priority, “evidence-
based” means the proposed project component is
supported, at a minimum, by evidence that
demonstrates a rationale (as defined in 34 CFR
77.1), where a key project component included in
the project’s logic model is informed by research or
evaluation findings that suggest the project
component is likely to improve relevant outcomes.

program, and ongoing coaching,
networking opportunities, and support
following completion of the program,
including opportunities to interact with
peers who completed the program; and
(3) How the proposed leadership
development program is aligned to State
standards for administrators or meets
appropriate national professional
organization standards for
administrators or leaders;

(5) Implement and sustain the
leadership development program to
recruit, increase the capacity of, and
retain a network of leaders at the State,
regional, or local level with the
knowledge, skills, and competencies to
improve systems serving children with
disabilities and their families. To meet
this requirement, the applicant must
describe its proposed approach to—
(i) Ensuring the infrastructure and
implementation supports necessary to
effectively build, deliver, and sustain
the proposed leadership development
program and to retain individuals who
complete the leadership development
program as a network of leaders at the
State, regional, or local level able to
improve systems serving children with
disabilities and their families. The
application must include the proposed
approach to partnering with relevant
child-serving agencies and diverse
stakeholders to deliver and sustain the
leadership development program, to
retain a network of leaders, and to
develop agreements with relevant child-
serving agencies and diverse
stakeholders that outline
responsibilities, sharing of resources,
and decision-making and
communication processes. The
application must include, at a
minimum, representatives specifically
identified from IHEs as part of its
ongoing project leadership or
stakeholder group that will build,
manage, deliver, evaluate, and sustain
the infrastructure and implementation
of the proposed program;
(ii) Its proposed approach to recruit
participants for the leadership
development program; ensure equal
access and treatment for eligible
participants who are members of groups
that have traditionally been
underrepresented based on race, color,
national origin, gender, age, or
disability; and retain the participants
once in the program. To meet this
requirement, the applicant must
describe—
(A) Recruitment strategies that will be
used to attract participants and specific
recruitment strategies that will be used
to reach potential participants from
traditionally underrepresented groups,
including individuals with disabilities; and

(B) Criteria that will be used to select candidates for participation in the leadership development programs offered, the number of cohorts that will complete the leadership development program, and the number of participants that the applicant proposes will complete program requirements within each cohort during the project period; and

(iii) Strategies for supporting and retaining participants to complete the leadership development program and use the knowledge, skills, and competencies learned following their completion of the program to identify, implement, and evaluate evidence-based practices to improve systems serving children with disabilities; and

(iv) Strategies to fund, manage, and sustain the leadership development program, and retain a network of leaders at the State, regional, or local level once Federal support ends; and

(2) The applicant will collect, analyze, and use data related to specific and measurable goals, objectives, and intended outcomes of the project. To meet this requirement, the applicant must describe how—

(i) Results of the evaluation will be used as a basis for improving the proposed project;

(ii) It will report the evaluation results to OSEP in its annual and final performance reports; and

(iii) Performance information (e.g., annual progress toward program goals) will be made publicly available on the project or State’s web page.

(d) Demonstrate, in the narrative section of the application under "Quality of the project evaluation," how—

(1) The applicant will use comprehensive and appropriate methodologies to evaluate how well the goals or objectives of the proposed project have been met, including the project processes and intended outcomes. The applicant must describe performance measures for the project that include participants’ acquisition of knowledge, skills, and competencies and for the retention of program completers in administrative and leadership positions; and

(2) The applicant will collect, analyze, and use data related to specific and measurable goals, objectives, and intended outcomes of the project. To meet this requirement, the applicant must describe how—

(i) Participants’ knowledge, skills, and competencies and other project processes and outcomes will be measured for formative evaluation purposes, including proposed instruments, data collection methods, and possible analyses; and

(ii) It will collect and analyze data on the quality of the leadership development programs offered; the infrastructure and implementation supports in place to deliver the program; the capacity of the State to retain a network of leaders at the State, regional, or local level; and the fidelity and impact of its implementation;

(3) The methods of evaluation will produce quantitative and qualitative data for objective performance measures that are related to the intended outcomes of the proposed project; and

(4) The methods of evaluation will provide performance feedback and allow for periodic assessment of progress toward meeting the project outcomes. To meet this requirement, the applicant must describe how—

(i) Results of the evaluation will be used as a basis for improving the proposed project;

(ii) It will report the evaluation results to OSEP in its annual and final performance reports; and

(iii) Performance information (e.g., annual progress toward program goals) will be made publicly available on the project or State’s web page.

(e) Demonstrate, in the narrative section of the application under “Quality of the management plan,” how—

(1) The proposed project will encourage applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability, as appropriate;

(2) The proposed key project personnel, consultants, and subcontractors have the qualifications and experience to carry out the proposed activities and achieve the project’s intended outcomes;

(3) The applicant and any key partners have adequate resources to carry out the proposed activities; and

(4) The proposed costs are reasonable in relation to the anticipated results and benefits.

(f) Address the following application requirements. The applicant must—

(1) Demonstrate, in the budget information (ED Form 524, Section B) and budget narrative, matching support for the proposed project at 10 percent of the total amount of the grant;

Note: Matching support can be either cash or in-kind donations. Under 2 CFR 200.306, a cash expenditure or outlay of cash with respect to the matching budget by the grantee is considered a cash contribution. However, certain cash contributions that the organization normally considers an indirect cost should not be counted as a direct cost for the purposes of meeting matching support. Specifically, in accordance with 2 CFR 200.306(c), unrecovered indirect costs cannot be used to meet the non-Federal matching support. Under 2 CFR 200.434, third-party in-kind contributions are services or property (e.g., land, buildings, equipment, materials, supplies) that are contributed by a non-Federal third party at no charge to the grantee.

(2) Include, in Appendix A, personnel-loading charts and timelines, as applicable, to illustrate the management plan described in the narrative;

(3) If the project maintains a website, include relevant information about the revised program and documents in a form that meets government or industry recognized standards of accessibility;

(4) Ensure that annual progress toward meeting project goals is posted on the project website;

(5) Provide an assurance that the project director, key personnel, and representatives from partner agencies will actively participate in the cross-project collaboration and learning opportunities (e.g., webinars, briefings) organized by OSEP. This cross-project collaboration will be used to increase capacity of participants, share resources, increase the impact of funding, and promote innovative leadership development models across projects; and

(6) Include, in the budget, attendance at a two- and one-half day project directors’ conference in Washington, DC, during each year of the project period.
Competitive Preference Priority: Within this absolute priority, we give competitive preference to applications that address the following competitive preference priority. Under 34 CFR 75.105(e)(2)(i), we award up to an additional 5 points to an application, depending on how well the application meets the competitive preference priority.

This priority is: Matching Support (Up to 5 points). An application that demonstrates matching support for the proposed project at—

(a) 20 percent of the requested Federal award (1 point);
(b) 40 percent of the total amount of the requested Federal award (2 points);
(c) 60 percent of the total amount of the requested Federal award (3 points);
(d) 80 percent of the total amount of the requested Federal award (4 points); or
(e) 100 percent of the total amount of the requested Federal award (5 points).

Applicants must address this competitive preference priority in the budget information (ED Form 524, Section B) and budget narrative.

References:
Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities. Section 681(d) of IDEA, however, makes the public comment requirements of the APA inapplicable to the priority in this notice.

Applicable Regulations: (a) The Education Department General Administrative Regulations in 34 CFR parts 75, 77, 79, 81, 82, 84, 86, 97, 98, and 99. (b) The Office of Management and Budget Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement) in 2 CFR part 180, as adopted and amended as regulations of the Department in 2 CFR part 3445. (c) The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, as adopted and amended as regulations of the Department in 2 CFR part 3474. (d) The regulations for this program in 34 CFR part 304.

Note: The regulations in 34 CFR part 86 apply to HEI only.

II. Award Information

Type of Award: Discretionary grants.
Estimated Available Funds: $2,600,000.
Contingent upon the availability of funds and the quality of applications, we may make additional awards in FY 2020 from the list of unfunded applications from this competition.
Estimated Range of Awards: $150,000 to $200,000.
Estimated Average Size of Awards: $200,000.
Maximum Award: We will not make an award exceeding $200,000 for a single budget period of 12 months.
Estimated Number of Awards: 13.
Project Period: 60 months.
Note: The Department is not bound by any estimates in this notice.

III. Eligibility Information

1. Eligible Applicants: SEAs or Part C lead agencies.
2. Cost Sharing or Matching: Cost sharing or matching is required for this competition.
3. Subgrantees: A grantee under this competition may not award subgrants to entities to directly carry out project activities described in its application. Under 34 CFR 75.708(b), a grantee may contract for supplies, equipment, and other services in accordance with 2 CFR part 200.
4. Other General Requirements: (a) Recipients of funding under this competition must make positive efforts to employ and advance in employment qualified individuals with disabilities (see section 606 of IDEA).

(b) Applicants for, and recipients of, funding must, with respect to the aspects of their proposed project relating to the absolute priority, involve individuals with disabilities, or parents of individuals with disabilities ages birth through 26, in planning, implementing, and evaluating the project (see section 682(a)(1)(A) of IDEA).

IV. Application and Submission Information

1. Application Submission Instructions: Applicants are required to follow the Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), and available at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf, which contain requirements and information on how to submit an application.
2. Intergovernmental Review: This competition is subject to Executive Order 12372 and the regulations in 34 CFR part 79. However, under 34 CFR 79.8(a), we waive intergovernmental review in order to make an award by the end of FY 2019.
3. Funding Restrictions: We reference regulations outlining funding restrictions in the Applicable Regulations section of this notice.
4. Recommended Page Limit: The application narrative (Part III of the application) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. We recommend that you (1) limit the application narrative to no more than 50 pages and (2) use the following standards:
   • A “page” is 8.5” x 11”, on one side only, with 1” margins at the top, bottom, and both sides.
   • Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, reference citations, and captions, as well as all text in charts, tables, figures, graphs, and screen shots.
   • Use a font that is 12 point or larger.
   • Use one of the following fonts: Times New Roman, Courier, Courier New, or Arial.

The recommended page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the abstract (follow the guidance provided in the application package for completing the abstract), the table of contents, the list of priority requirements, the resumes, the reference...
list, the letters of support, or the appendices. However, the recommended page limit does apply to all of the application narrative, including all text in charts, tables, figures, graphs, and screen shots.

V. Application Review Information

1. Selection Criteria: The selection criteria for this competition are from 34 CFR 75.210 and are as follows:

   (a) Significance (10 points).
   (1) The Secretary considers the significance of the proposed project.
   (2) In determining the significance of the proposed project, the Secretary considers the following factors:
      (i) The extent to which specific gaps or weaknesses in services, infrastructure, or opportunities have been identified and will be addressed by the proposed project, including the nature and magnitude of those gaps or weaknesses; and
      (ii) The importance or magnitude of the results or outcomes likely to be attained by the proposed project, especially improvements in teaching and student achievement.

   (b) Quality of project services (35 points).
   (1) The Secretary considers the quality of the services to be provided by the proposed project.
   (2) In determining the quality of the services to be provided by the proposed project, the Secretary considers the quality and sufficiency of strategies for ensuring equal access and treatment for eligible project participants who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability.
   (3) In addition, the Secretary considers the following factors:
      (i) The extent to which the goals, objectives, and outcomes to be achieved by the proposed project are clearly specified and measurable;
      (ii) The extent to which the time and duration to lead to improvements in practice among the recipients of those services; and
      (iii) The extent to which the services to be provided by the proposed project reflect up-to-date knowledge from research and effective practice.

   (c) Quality of the project evaluation (20 points).
   (1) The Secretary considers the quality of the evaluation to be conducted of the proposed project.
   (2) In determining the quality of the evaluation, the Secretary considers the following factors:
      (i) The extent to which the methods of evaluation are thorough, feasible, and appropriate to the goals, objectives, and outcomes of the proposed project;
      (ii) The extent to which the goals, objectives, and outcomes to be achieved by the proposed project are clearly defined and measurable;
      (iii) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible; and
      (iv) How the applicant will ensure that a diversity of perspectives are brought to bear in the operation of the proposed project, including those of parents, teachers, the business community, a variety of disciplinary and professional fields, recipients or beneficiaries of services, or others, as appropriate.

   (d) Adequacy of resources and quality of project personnel (15 points).
   (1) The Secretary considers the adequacy of resources and quality of project personnel for the proposed project.
   (2) In determining the quality of project personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability.
   (3) In addition, the Secretary considers the following factors:
      (i) The qualifications, including relevant training and experience, of key project personnel;
      (ii) The adequacy of support, including facilities, equipment, supplies, and other resources, from the applicant organization or the lead applicant organization; and
      (iii) The extent to which the costs are reasonable in relation to the objectives, design, and potential significance of the proposed project.

   (e) Quality of the management plan (20 points).
   (1) The Secretary considers the quality of the management plan for the proposed project.
   (2) In determining the quality of the management plan for the proposed project, the Secretary considers the following factors:
      (i) The adequacy of the management plan to achieve the objectives of the proposed project on time and within budget, including clearly defined responsibilities, timelines, and milestones for accomplishing project tasks;
      (ii) The extent to which the time commitments of the project director and principal investigator and other key project personnel are appropriate and adequate to meet the objectives of the proposed project;
      (iii) The adequacy of mechanisms for ensuring high-quality products and services from the proposed project; and
      (iv) How the applicant will ensure that a diversity of perspectives are brought to bear in the operation of the proposed project, including those of parents, teachers, the business community, a variety of disciplinary and professional fields, recipients or beneficiaries of services, or others, as appropriate.

2. Review and Selection Process: We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant’s use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

   In addition, in making a competitive grant award, the Secretary requires various assurances, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. Additional Review and Selection Process Factors: In the past, the Department has had difficulty finding peer reviewers for certain competitions because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The standing panel requirements under section 682(b) of IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the
review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications.

4. Risk Assessment and Specific Conditions: Consistent with 2 CFR 200.205, before awarding grants under this competition the Department conducts a review of the risks posed by applicants. Under 2 CFR 3474.10, the Secretary may impose specific conditions and, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

5. Integrity and Performance System: If you apply for a grant under this competition to receive an award that over the course of the project period may exceed the simplified acquisition threshold (currently $250,000), under 2 CFR 200.205(a)(2) we must make a judgment about your integrity, business ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Awardee Performance and Integrity Information System (FAPIIS)), accessible through the System for Award Management. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIIS.

Please note that, if the total value of your currently active grants, cooperative agreements, and procurement contracts from the Federal Government exceeds $10,000,000, the reporting requirements in 2 CFR part 200, Appendix XII, require you to report certain integrity information to FAPIIS semiannually. Please review the requirements in 2 CFR part 200, Appendix XII, if this grant plus all the other Federal funds you receive exceed $10,000,000.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Open Licensing Requirements: Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverables consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. Reporting: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c).

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

5. Performance Measures: Under GPRA, the Department has established a set of performance measures, including long-term measures, that are designed to yield information on the quality of the Personnel Development to Improve Services and Results for Children with Disabilities program. These measures include: (1) The percentage of preparation programs that incorporate scientifically or evidence-based practices into their curricula; (2) the percentage of scholars completing preparation programs who are knowledgeable and skilled in evidence-based practices that improve outcomes for children with disabilities; (3) the percentage of scholars who exit preparation programs prior to completion due to poor academic performance; (4) the percentage of scholars completing preparation programs who are working in the area(s) in which they were prepared upon program completion; and (5) the Federal cost per scholar who completed the preparation program.

In addition, the Department will gather information on the following outcome measures: (1) The percentage of scholars who completed the preparation program and are employed in high-need districts; (2) the percentage of scholars who completed the preparation program and are employed in the field of special education for at least two years; and (3) the percentage of scholars who completed the preparation program and who are rated effective by their employers.

Grantees may be asked to participate in assessing and providing information on these aspects of program quality.

6. Continuation Awards: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee’s approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
VII. Other Information

Accessible Format: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (e.g., Braille, large print, audio tape, or compact disc) by contacting the Management Support Services Team, U.S. Department of Education, 400 Maryland Avenue SW, Room 5081A, Potomac Center Plaza, Washington, DC 20202–5076. Telephone: (202) 245–7363. If you use a TDD or a TTY, call the FRS, toll free, at 1–800–877–8339.

Electronic Access to This Document: The official version of this document is the document published in the Federal Register. You may access the official edition of the Federal Register and the Code of Federal Regulations at www.govinfo.gov. At this site you can view this document, as well as all other documents of this Department published in the Federal Register, in text or Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the Federal Register by using the search feature at www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Johnny W. Collett, Assistant Secretary for Special Education and Rehabilitative Services.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Advanced Scientific Computing Advisory Committee

AGENCY: Office of Science, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Advanced Scientific Computing Advisory Committee (ASCAC). The Federal Advisory Committee Act requires that public notice of these meetings be announced in the Federal Register.

DATES: Monday, September 23, 2019, 8:30 a.m. to 5:00 p.m., Tuesday, September 24, 2019, 9:00 a.m. to 12:00 noon.

FOR FURTHER INFORMATION CONTACT: Christine Chalk, Office of Advanced Scientific Computing Research; SC–21/ Germantown Building; U.S. Department of Energy; 1000 Independence Avenue SW; Washington, DC 20585; Telephone (301) 903–7486; Email: christine.chalk@science.doe.gov

SUPPLEMENTARY INFORMATION:

Purpose of the Committee: The purpose of the committee is to provide advice and guidance on a continuing basis to the Office of Science and to the Department of Energy on scientific priorities within the field of advanced scientific computing research.

Purpose of the Meeting: This meeting is the semi-annual meeting of the Committee.

Tentative Agenda Topics:

• View from Washington
• View from Germantown
• Update on Exascale project activities
• Report from Subcommittee on 40 years of investments by the Department of Energy in advanced computing and networking
• Update from Exascale Transition Subcommittee
• In-Situ Data Management Workshop report
• Update on Mathematical Multifaceted Integrated Capability Centers (MMICCs)
• Technical presentations
• Public Comment (10-minute rule)

The meeting agenda includes an update on the budget, accomplishments and planned activities of the Advanced Scientific Computing Research program and the exascale computing project; an update from the Office of Science; technical presentations from funded researchers; updates from subcommittees and there will be an opportunity for comments from the public. The meeting will conclude at 12:00 noon on September 24, 2019. Agenda updates and presentations will be posted on the ASCAC website prior to the meeting: https://science.osti.gov/ascr/ascac.

Public Participation: The meeting is open to the public. Individuals and representatives of organizations who would like to offer comments and suggestions may do so during the meeting. Approximately 30 minutes will be reserved for public comments. Time allotted per speaker will depend on the number who wish to speak but will not exceed 10 minutes. The Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Those wishing to speak should submit your request at least five days before the meeting. Those not able to attend the meeting, or who have insufficient time to address the committee, are invited to send a written statement to Christine Chalk, U.S. Department of Energy, 1000 Independence Avenue SW, Washington DC 20585, email to: Christine.Chalk@science.doe.gov.

Minutes: The minutes of this meeting will be available within 90 days on the Advanced Scientific Computing website at: https://science.osti.gov/ascr/ascac.

Signed in Washington, DC, on August 6, 2019.

LaTanya R. Butler, Deputy Committee Management Officer.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[Case Number 2018–004; EERE–2018–BT–WAV–0007]

Energy Conservation Program:
Petition for Waiver of LG Electronics USA, Inc. From the Department of Energy Portable Air Conditioner Test Procedure and Notice of Grant of Interim Waiver

ACTION: Notice of petition for waiver and grant of an interim waiver, and request for comments.

SUMMARY: This document announces receipt of and publishes a petition for waiver from LG Electronics USA, Inc. (“LG”), which seeks an exemption from the U.S. Department of Energy (“DOE”) test procedure used for determining the efficiency of specified portable air conditioner basic models. LG seeks to use an alternate test procedure to address issues involved in testing the basic models identified in its petition. According to LG, the current DOE test procedure for single-duct portable air conditioners does not take into account the benefits of portable air conditioners that use variable-speed compressors (“variable-speed portable air conditioners”), due to their part-load performance characteristics, and misrepresents their actual energy consumption. LG requests use of an alternate test procedure, under which the test unit’s final combined energy efficiency ratio (“CEER”) metric would be calculated by multiplying the unit’s measured CEER value (as measured according to the existing procedure for a single-duct portable air conditioner) by a “performance adjustment factor.” The performance adjustment factor would reflect the performance improvement associated with avoiding...
