

defueled condition. The proposed amendment would have eliminated TS requirements and license conditions which would not have been applicable once DBNPS ceased power operations and could no longer place fuel in the reactor vessel. The proposed amendment would have also eliminated obsolete license conditions. In addition, the proposed amendment would have revised several license conditions and TS requirements, including limiting conditions for operation, usage rules, definitions, surveillance requirements, and administrative controls. The licensing bases for DBNPS, including the design bases accident analysis, would have also been revised.

The Commission previously issued a proposed finding that the amendment involves no significant hazards consideration published in the **Federal Register** on April 9, 2019 (84 FR 14149). However, by letter dated July 26, 2019 (ADAMS Accession No. ML19207A097), FES requested to withdraw the proposed amendment.

## II. Discussion

On July 29, 2019, the NRC published a document in the **Federal Register** (84 FR 36127) requesting comments on DG-8057, "Release of Patients Administered Radioactive Material." This draft guide, Revision 1, provides licensees with more detailed instructions to provide to patients before and after they have been administered radioactive material than was in Revision 0. In addition, the guide includes a new section on "Death of a Patient Following Radiopharmaceutical or Implants Administrations," as well as requirements for recordkeeping. Also, Table 3, "Dosages of Radiopharmaceuticals that Require Instructions and Records When Administered to Patients who are Breastfeeding an Infant or Child," has been revised to provide information for the recommended duration of interruption of breastfeeding to ensure that the dose to an infant or child meets the NRC's regulatory requirements. The public comment period was originally scheduled to close on August 26, 2019. The NRC staff has decided to extend the public comment period on this document until September 26, 2019, to allow more time for members of the public to submit their comments.

Dated at Rockville, Maryland, this 6th day of August, 2019.
