

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Tribal Participation in the Advance Notification Program.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* Not Applicable.

5. *How often the collection is required or requested:* Information would be requested (1) every five years, (2) after an Indian Tribe achieves Federal recognition, (3) when a transportation route is approved that is within an Indian Tribe's reservation or that crosses a reservation boundary, and (4) when there are changes. Information is requested from those Indian Tribes seeking to receive advance notifications. Some information is requested one time.

6. *Who will be required or asked to respond:* Federally recognized Indian Tribes. Only those federally recognized Indian Tribes with reservations and either receiving or seeking to receive the advance notifications would be asked to respond to the specific information request.

7. *The estimated number of annual responses:* 22 (7 reporting responses + 15 recordkeepers).

8. *The estimated number of annual respondents:* 15.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 36 (26 hours reporting + 10 hours recordkeeping).

10. *Abstract:* In order to receive notifications when certain shipments of nuclear waste or shipments of irradiated reactor fuel within or across the boundary of an Indian Tribe's reservation, Indian Tribes will submit certifications that Tribal official or their designee(s) has (or have) taken training on the handling of safeguards information (SGI) and the Indian Tribe has the necessary protection measures in place and the Indian Tribe will protect the SGI. If the Tribal official is designating another person to receive the advance notifications, information on the designation will be provided. The Indian Tribe will also provide the contact information for the Tribal official or the Tribal official's designee(s). The Indian Tribe will also

provide an affirmation of the boundaries of the Indian Tribe's reservation or the necessary corrections to a map provided by the NRC. The NRC will also collect the name and contact information for the Indian Tribe's emergency response contact(s). NRC licensees will use the information to comply with the NRC's regulations that require them to provide advance notice of certain shipments of radioactive material to participating Indian Tribes.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 5th day of August, 2019.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346; NRC-2019-0087]

FirstEnergy Nuclear Operating Company; Davis-Besse Nuclear Power Station, Unit No. 1

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; withdrawal by applicant.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has granted the request of FirstEnergy Solutions Corp. (FES) to withdraw the FirstEnergy Nuclear Operating Company (FENOC, the licensee) application dated February 5, 2019, for a proposed amendment to Renewed Facility Operating License No. NPF-3. The proposed amendment would have made changes to the Davis-Besse Nuclear Power Station (DBNPS), Unit No. 1, license and technical specifications (TS) to reflect the permanent cessation of reactor operation and permanent defueling of the reactor.

DATES: The withdrawal of the proposed amendment takes effect on August 9, 2019.

ADDRESSES: Please refer to Docket ID NRC-2019-0087 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC-2019-0087. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

Blake A. Purnell, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-1380, email: Blake.Purnell@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC has granted the request of FES to withdraw the FENOC application dated February 5, 2019 (ADAMS Accession No. ML19036A523), as supplemented by letters dated May 16 and June 26, 2019 (ADAMS Accession Nos. ML19136A240 and ML19177A289, respectively), for a proposed amendment to Renewed Facility Operating License No. NPF-3 for the DBNPS located in Ottawa County, Ohio. FES is the parent company of FirstEnergy Nuclear Generation, LLC, which owns DBNPS. The proposed amendment would have revised the DBNPS renewed facility operating license and TS following the permanent cessation of power operations to reflect the post-shutdown and permanently

defueled condition. The proposed amendment would have eliminated TS requirements and license conditions which would not have been applicable once DBNPS ceased power operations and could no longer place fuel in the reactor vessel. The proposed amendment would have also eliminated obsolete license conditions. In addition, the proposed amendment would have revised several license conditions and TS requirements, including limiting conditions for operation, usage rules, definitions, surveillance requirements, and administrative controls. The licensing bases for DBNPS, including the design bases accident analysis, would have also been revised.

The Commission previously issued a proposed finding that the amendment involves no significant hazards consideration published in the **Federal Register** on April 9, 2019 (84 FR 14149). However, by letter dated July 26, 2019 (ADAMS Accession No. ML19207A097), FES requested to withdraw the proposed amendment.

Dated at Rockville, Maryland, this 6th day of August, 2019.

For the Nuclear Regulatory Commission.

Blake A. Purnell,

*Project Manager, Plant Licensing Branch III,
Division of Operating Reactor Licensing,
Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2019-0154]

Release of Patients Administered Radioactive Material

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft regulatory guide; extension of comment period.

SUMMARY: On July 29, 2019, the U.S. Nuclear Regulatory Commission (NRC) requested comments on draft regulatory guide (DG), DG-8057, "Release of Patients Administered Radioactive Material." The public comment period was originally scheduled to close on August 26, 2019. The NRC is extending the public comment period to allow more time for members of the public to submit their comments.

DATES: The due date of comments requested in the document published on July 29, 2019 (84 FR 36127) is extended. Comments should be filed no later than September 26, 2019. Comments received after this date will be considered, if it

is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2019-0154. Address questions about NRC dockets IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Vered Shaffer, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 630-829-9862, email: Vered.Shaffer@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2019-0154 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2019-0154

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The DG-8057 is available in ADAMS under Accession No. ML19108A463.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One

White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC-2019-0154, in your comment submission. The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

On July 29, 2019, the NRC published a document in the **Federal Register** (84 FR 36127) requesting comments on DG-8057, "Release of Patients Administered Radioactive Material." This draft guide, Revision 1, provides licensees with more detailed instructions to provide to patients before and after they have been administered radioactive material than was in Revision 0. In addition, the guide includes a new section on "Death of a Patient Following Radiopharmaceutical or Implants Administrations," as well as requirements for recordkeeping. Also, Table 3, "Dosages of Radiopharmaceuticals that Require Instructions and Records When Administered to Patients who are Breastfeeding an Infant or Child," has been revised to provide information for the recommended duration of interruption of breastfeeding to ensure that the dose to an infant or child meets the NRC's regulatory requirements. The public comment period was originally scheduled to close on August 26, 2019. The NRC staff has decided to extend the public comment period on this document until September 26, 2019, to allow more time for members of the public to submit their comments.

Dated at Rockville, Maryland, this 6th day of August, 2019.
