ELECTION ASSISTANCE COMMISSION

Sunshine Act Notice

DATE AND TIME: The Security Forum will be held on Thursday, August 15, 2019 from 12:30 p.m. until 3:30 p.m., Eastern Time.

PLACE: The Election Assistance Commission, 1st floor conference room, Silver Spring, MD 20910, Phone 301–563–3919. The meeting will also be streamed on www.eac.gov.

STATUS: This Hearing will be open to the public. Identification is required to enter the building.

AGENDA: The Commission will hold a public forum wherein it will facilitate a 3 panel discussion regarding election security and voting system certification. The full agenda of panelists will be posted in advance at http://www.eac.gov. Members of the public who wish to make a statement for the record may submit their statement to the EAC by 5:00 p.m. EDT on Wednesday August 14, 2019.

Clifford Tatum,
Assistant Secretary for Special Education and Rehabilitative Services.

DEPARTMENT OF ENERGY

Notice of Recurring Public Meetings of the Supercritical CO2 Oxy-combustion Technology Group

AGENCY: National Energy Technology Laboratory, Office of Fossil Energy, Department of Energy.

ACTION: Notice of recurring public meetings.

SUMMARY: The National Energy Technology Laboratory (NETL) will host a public meeting via WebEx October 8, 2019, of the Supercritical CO2 Oxy-combustion Technology Group, to address challenges associated with oxy-combustion systems in directly heated supercritical CO2 (sCO2) power cycles.

DATES: The next public meeting will be held on October 8, 2019, from 1:00 p.m. to 3:00 p.m. ET. NETL plans to hold meetings every two months. Future meetings will be announced on the Event page of the NETL website: https://netl.doe.gov/events.

ADDRESSES: The public meetings will be held via WebEx and hosted by NETL.

For further information contact: For further information regarding the public
meetings, or if you would like to receive email notifications on the occurrence of future meetings, please contact Seth Lawson by email at Seth.Lawson@netl.doe.gov, or by postal mail addressed to National Energy Technology Laboratory, 3610 Collins Ferry Road, P.O. Box 880, Morgantown, WV 26507–0880. Please direct all media inquiries to the NETL Public Affairs Officer at (304) 285–0228.

Future meetings will be announced on the Event page of the NETL website: https://netl.doe.gov/events.

SUPPLEMENTARY INFORMATION:
Instructions and Information on the Public Meetings

The public meetings will be held via WebEx. The next public meeting on 10/8/2019 will begin at 1:00 p.m. and end at 3:00 p.m. NETL plans to hold meetings every two months. Future meetings will be announced on the Event page of the NETL website: https://netl.doe.gov/events. Interested parties may RSVP, to confirm their participation and receive login instructions, by emailing Seth.Lawson@netl.doe.gov.

The objective of the Supercritical CO2 Oxy-combustion Technology Group is to promote a technical understanding of oxy-combustion for direct-fired sCO2 power cycles by sharing information or viewpoints from individual participants regarding risk reduction and challenges associated with developing the technology.

Oxy-combustion systems in directly heated supercritical CO2 (sCO2) power cycles utilize natural gas or syngas oxy-combustion systems to produce a high temperature CO2 working fluid and have the potential to be efficient, cost effective and well-suited for carbon dioxide (CO2) capture. To realize the benefits of direct fired sCO2 power cycles, the following challenges must be addressed: chemical kinetic uncertainties, combustion instability, flowpath design, thermal management, pressure containment, definition/prediction of turbine inlet conditions, ignition, off-design operation, transient capabilities, in-situ flame monitoring, and modeling, among others.

The format of the meetings will facilitate equal opportunity for discussion among all participants; all participants will be welcome to speak. Following a detailed presentation by one volunteer participant regarding lessons learned from his or her area of research, other participants will be provided the opportunity to briefly share lessons learned from their own research. Meetings are expected to take place every other month with a different volunteer presenting at each meeting. Meeting minutes shall be published for those who are unable to attend.

These meetings are considered “open-to-the-public;” the purpose for these meetings has been examined during the planning stages, and NETL management has made specific determinations that affect attendance. All information presented at these meetings must meet criteria for public sharing or be published and available in the public domain. Participants should not communicate information that is considered official use only, proprietary, sensitive, restricted or protected in any way. Foreign nationals, who may be present, have not been approved for access to DOE information and technologies.

Dated: August 1, 2019.

Heather Quedenfeld,
Associate Director, Coal Technology Development & Integration Center, National Energy Technology Laboratory.

ENVIRONMENTAL PROTECTION AGENCY

Certain New Chemicals or Significant New Uses; Statements of Findings for June 2019

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(g) of the Toxic Substances Control Act (TSCA) requires EPA to publish in the Federal Register a statement of its findings after its review of TSCA section 5(a) notices when EPA makes a finding that a new chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment. Such statements apply to premanufacture notices (PMNs), microbial commercial activity notices (MCANs), and significant new use notices (SUNs) submitted to EPA under TSCA section 5. This document presents statements of findings made by EPA on TSCA section 5(a) notices during the period from June 1, 2019 to June 30, 2019.

FOR FURTHER INFORMATION CONTACT:
For technical information contact: Greg Schweer, Chemical Control Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: 202–564–8469; email address: schweer.greg@epa.gov.
For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554–1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:
I. General Information
A. Does this action apply to me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitters of the PMNs addressed in this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (D) number EPA–HQ–OPPT–2018–0097, is available at http://www.regulations.gov or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OPPT Docket is (202) 566–0280. Please review the visitor instructions and additional information about the docket available at http://www.epa.gov/dockets.

II. What action is the Agency taking?

This document lists the statements of findings made by EPA after review of notices submitted under TSCA section 5(a) that certain new chemical substances or significant new uses are not likely to present an unreasonable risk of injury to health or the environment. This document presents statements of findings made by EPA during the period from June 1, 2019 to June 30, 2019.

III. What is the Agency’s authority for taking this action?

TSCA section 5(a)(3) requires EPA to review a TSCA section 5(a) notice and make one of the following specific findings:

• The chemical substance or significant new use presents an unreasonable risk of injury to health or the environment;

• The information available to EPA is insufficient to permit a reasoned
