proceeding in accordance with Rule 2010, 18 CFR 385.2010. Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at www.ferc.gov using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, please contact FERC Online Support at FERConlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

Secretary.

DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission
[Docket No. ER19–2534–000]
Citizens Energy Corporation; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced Citizens Energy Corporation’s application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant’s request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is August 26, 2019.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at www.ferc.gov. To facilitate electronic service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission’s eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission’s Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERConlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: August 6, 2019.
Kimberly D. Bose,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY
Conference on Air Quality Modeling

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of conference.

SUMMARY: The Environmental Protection Agency (EPA) announces its Twelfth Conference on Air Quality Modeling. Such a conference is required by section 320 of the Clean Air Act (CAA) to be held every 3 years. The purposes of the Twelfth Conference are to provide an overview of the latest features of the currently preferred air quality models and to provide a forum for public review and comment on potential revisions to the way the Agency determines and applies the appropriate air quality models in the future.

DATES:
Comments: Comments on potential revisions to the way the Agency determines and applies the appropriate air quality models must be received on or before November 4, 2019.
Conference: The conference will be held on October 2 through 3, 2019, from 8:30 a.m. to 5:00 p.m. Requests to speak at the conference should be submitted to the individual listed below in the FOR FURTHER INFORMATION CONTACT section by September 13, 2019.

EMAIL: Comments: Submit your comments, identified by Docket ID No. EPA–HQ–OAR–2019–0454 by one of the following methods:
   • http://www.regulations.gov: Follow the on-line instructions for submitting comments. This is the EPA’s preferred method for receiving comments.
Regulations) part 51, is used by the EPA, other federal, state, territorial, local, and tribal air quality agencies, and industry to prepare and review new or modified source permits. State Implementation Plan (SIP) submittals or revisions, conformity, and other air quality assessments required under the CAA and EPA regulations. The Guideline serves as a means by which national consistency is maintained in air quality analyses for regulatory activities under 40 CFR 51.112, 51.117, 51.150, 51.160, 51.165, 51.166, 52.21, 93.116, 93.123, and 93.150.

The EPA originally published the Guideline in April 1978 (EPA–450/2–78–027), and it was incorporated by reference in the regulations for the PSD program in June 1978. The EPA revised the Guideline in 1986 (51 FR 32176), and updated it with supplement A in 1987 (53 FR 32081), supplement B in July 1993 (58 FR 38816), and supplement C in August 1995 (60 FR 40465). The EPA published the Guideline as appendix W to 40 CFR part 51 when the EPA issued supplement B. The EPA republished the Guideline in August 1996 (61 FR 41838) to adopt the CFR system for labeling paragraphs. Subsequently, the EPA revised the Guideline on April 15, 2003 (68 FR 18440), to adopt CALPUFF as the preferred model for long-range transport of emissions from 50 to several hundred kilometers (km) and to make various editorial changes to update and reorganize information and remove obsolete models. The EPA further revised the Guideline on November 9, 2005 (70 FR 68218), to adopt AERMOD as the preferred model for near-field dispersion of emissions for distances up to 50 km. The publication and incorporation of the Guideline into the EPA’s Prevention of Significant Deterioration (PSD) regulations satisfies the requirement under CAA section 165(e)(3) for the EPA to promulgate regulations that specify, with reasonable particularity, models to be used under specified sets of conditions for purposes of the PSD program.

On July 29, 2015, the EPA proposed the revisions to the Guideline in the Federal Register (80 FR 45340). To inform the development of these proposed revisions to the Guideline and in compliance with CAA section 320, the EPA held the Tenth Conference on Air Quality Modeling in March 2012. The conference addressed updates on (1) the regulatory status and future development of AERMOD and CALPUFF; (2) review of the Mesoscale Model Interface (MMIF) prognostic meteorological data processing tool for dispersion models; (3) draft modeling guidance for compliance demonstrations of the fine particulate matter (PM2.5) National Ambient Air Quality Standards (NAAQS); (4) modeling for compliance demonstration of the 1-hour nitrogen dioxide (NO2) and sulfur dioxide (SO2) NAAQS; and (5) new and emerging models/techniques for future consideration under the Guideline to address single-source modeling for ozone and secondary PM2.5, as well as long-range transport and chemistry. Based on comments received from stakeholders at the Tenth Modeling Conference, “Phase 3” of the Interagency Workgroup on Air Quality Modeling (IWAMQ) was formalized in June 2013 to provide additional guidance for modeling single-source impacts on secondarily formed pollutants (e.g., ozone and PM2.5) in the near-field and for long-range transport. A transcript of the conference proceedings and a summary of the public comments received are available in the docket for the Tenth Modeling Conference (Docket ID No. EPA–HQ–OAR–2012–0056).

The Eleventh Conference on Air Quality Modeling was held August 12–13, 2015, in continuing compliance with CAA section 320. This conference included the public hearing for the proposed revisions to the Guideline. It began with a thorough overview of these proposed revisions, including presentations from EPA staff on the formulation updates to the preferred models and the research and technical evaluations that support these and other revisions. Specifically, there were presentations summarizing the proposed updates to the AERMOD modeling system; replacement of CALINE3 with AERMOD for modeling of mobile source incorporation of prognostic meteorological data for use in dispersion modeling; the proposed screening approach for long-range transport for NAAQS and PSD increments assessments with use of CALPUFF as a screening technique rather than an EPA-preferred model; the proposed 2-tiered screening approach to address ozone and PM2.5 in PSD compliance demonstrations; the status and role of the Model Clearinghouse; and updates to procedures for single-source and cumulative modeling analyses (e.g., modeling domain, source input data, downwind data, and compliance demonstration procedures). At the conclusion of these presentations, the public hearing on the proposed revisions to the Guideline was convened. The EPA presentations and the presentations from the public hearing, along with the transcript of the conference proceedings, are available in the docket for the Eleventh Modeling Conference (Docket ID No. EPA–HQ–OAR–2015–0310). Additionally, all of the materials associated with the Eleventh Modeling Conference and the public hearing are available on the EPA’s SCRAM website at https://www3.epa.gov/ttn/scram/11thmodconf.htm.

The 2015 proposed revisions to the Guideline were finalized and published in the Federal Register (82 FR 5182) on January 17, 2017. Supporting information on this final rule is available on the EPA’s SCRAM website at https://www3.epa.gov/ttn/scram/appw-2016.htm and a direct link to the final rule publication is https://www3.epa.gov/ttn/scram/guidance/guide/appw_17.pdf.

III. Public Participation

The Twelfth Conference on Air Quality Modeling will be open to the public; no admission fee is charged and there is no formal registration. The conference will begin the first morning with introductory remarks by the presiding EPA official. The following topics will be presented:

1. Conference overview;
2. Currently preferred air quality models status and updates;
3. Expert panel discussions and invited presentations on model/technique enhancements:
   - Treatment of low wind conditions
   - Building downwash
   - Mobile source modeling
   - Overwater modeling
   - Prognostic meteorological data
   - Near-field and long-range model evaluation criteria
   - NO2 modeling techniques
   - Single source O3 and PM2.5 modeling techniques
   - Plume rise;
4. Model Clearinghouse and modeling guidance updates; and
5. Other presentations by the public.

Those wishing to speak at the conference, whether to volunteer a presentation on a special topic or to offer general comment on any of the modeling techniques scheduled for presentation, should contact us at the address given in the FOR FURTHER INFORMATION CONTACT section (note the cutoff date). Such persons should identify the organization (if any) on whose behalf they are speaking and the length of the presentation. If a
presentation of general comments is projected to be longer than 10 minutes, the presenter should also state why a longer period is needed. Persons failing to submit a written notice but desiring to speak at the conference should notify the presiding officer immediately before the conference, and they will be scheduled on a time-available basis.

The conference will be conducted informally and chaired by an EPA official. There will be no sworn testimony or cross examination. A verbatim transcript of the conference proceedings will be produced and placed in the docket. Speakers should bring extra copies of their presentation for inclusion in the docket and for the convenience of the recorder. Speakers will also be permitted to enter written comments into the record. Additional written statements or comments should be sent to the OAR Regulatory Docket (see ADDRESSES section). A transcript of the proceedings and a copy of all written comments will be maintained in Docket ID No. EPA–HQ–OAR–2019–0454, which will remain open until November 4, 2019, for the purpose of receiving additional comments.

Dated: August 2, 2019.
Panagiotis E. Tsirigotis,
Director, Office of Air Quality Planning and Standards.

ENVIRONMENTAL PROTECTION AGENCY

FIFRA Scientific Advisory Panel; Notice of Public Meetings and Request for Nomination of Ad Hoc Expert Reviewers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: There will be a 4-day, public, in-person meeting of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel (SAP) to consider and review the Approaches for Quantitative Use of Surface Water Monitoring Data in Pesticide Drinking Water Assessments. Preceding the in-person meeting, there will be a preparatory, public, virtual meeting, conducted via teleconference and webcast using Adobe Connect, to consider the scope and clarity of the draft charge questions for this peer review. In addition, EPA is requesting nominations of prospective candidates for service as ad hoc reviewers to assist the FIFRA SAP with this review. Any interested person or organization may nominate qualified individuals to be considered as prospective candidates for this review by following the instructions provided in this notice.

DATES:
Meetings: The 4-day, public, in-person meeting will be held November 19 to November 22, 2019, from 9:00 a.m. to approximately 5:00 p.m. (EST). The date, time, and registration instructions for the preparatory, public virtual meeting will be announced on the FIFRA SAP website and by late-August. You may subscribe to the following listserv for alerts when notices regarding this and other SAP-related activities are published:

Nominations: Nominations of candidates to serve as ad hoc reviewers, to assist the FIFRA SAP with this review, should be provided on or before September 12, 2019.

Special accommodations: Requests for special accommodations should be submitted on or before October 29, 2019, to allow EPA to process your request.

Comments: The Agency encourages written comments and requests for oral comments be submitted on or before October 4, 2019. However, written comments and requests to make oral comments may be submitted until the date of the in-person meeting, but anyone submitting such comments and requests after October 4, 2019, should contact the Designated Federal Official (DFO) listed under FOR FURTHER INFORMATION CONTACT. For additional instructions, see Unit I.D. and Unit I.E. of the SUPPLEMENTARY INFORMATION.

For further information contact: Tamue L. Gibson, MS, DFO, Office of Science Coordination and Policy (7201M), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: 202–564–7642; email address: gibson.tamue@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. This action may be of interest to persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug, and Cosmetic Act (FFDCA) and FIFRA. Since other entities may also be interested, the Agency has not attempted to describe all the specific
