

steel propane cylinders from China and Thailand pursuant to section 736(a) of the Act. Interested parties can find a list of antidumping duty orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

These orders are published in accordance with section 736(a) of the Act and 19 CFR 351.211(b).

Dated: August 7, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Orders

The merchandise covered by these orders is steel cylinders for compressed or liquefied propane or other gases (steel propane cylinders) meeting the requirements of, or produced to meet the requirements of, U.S. Department of Transportation (USDOT) Specifications 4B, 4BA, or 4BW, or Transport Canada Specification 4BM, 4BAM, or 4BWM, or United Nations pressure receptacle standard ISO 4706 and otherwise meeting the description provided below. The scope includes steel propane cylinders regardless of whether they have been certified to these specifications before importation. Steel propane cylinders range from 2.5 pound nominal gas capacity (approximate 6 pound water capacity and approximate 4–6 pound tare weight) to 42 pound nominal gas capacity (approximate 100 pound water capacity and approximate 28–32 pound tare weight). Steel propane cylinders have two or fewer ports and may be imported assembled or unassembled (*i.e.*, welded or brazed before or after importation), with or without all components (including collars, valves, gauges, tanks, foot rings, and overflow prevention devices), and coated or uncoated. Also included within the scope are drawn cylinder halves, unfinished propane cylinders, collars, and foot rings for steel propane cylinders.

An “unfinished” or “unassembled” propane cylinder includes drawn cylinder halves that have not been welded into a cylinder, cylinders that have not had flanges welded into the port hole(s), cylinders that

are otherwise complete but have not had collars or foot rings welded to them, otherwise complete cylinders without a valve assembly attached, and cylinders that are otherwise complete except for testing, certification, and/or marking.

These orders also cover steel propane cylinders that meet, are produced to meet, or are certified as meeting, other U.S. or Canadian government, international, or industry standards (including, for example, American Society of Mechanical Engineers (ASME), or American National Standard Institute (ANSI)), if they also meet, are produced to meet, or are certified as meeting USDOT Specification 4B, 4BA, or 4BW, or Transport Canada Specification 4BM, 4BAM, or 4BWM, or a United Nations pressure receptacle standard ISO 4706.

Subject merchandise also includes steel propane cylinders that have been further processed in a third country, including but not limited to, attachment of collars, foot rings, or handles by welding or brazing, heat treatment, painting, testing, certification, or any other processing that would not otherwise remove the merchandise from the scope of these orders if performed in the country of manufacture of the in-scope steel propane cylinders.

Specifically excluded are seamless steel propane cylinders and propane cylinders made from stainless steel (*i.e.*, steel containing at least 10.5 percent chromium by weight and less than 1.2 percent carbon by weight), aluminum, or composite fiber material. Composite fiber material is material consisting of the mechanical combination of two components: Fiber (typically glass, carbon, or aramid (synthetic polymer)) and a matrix material (typically polymer resin, ceramic, or metallic).

The merchandise subject to these orders is properly classified under statistical reporting numbers 7311.00.0060 and 7311.00.0090 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS statistical reporting numbers are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Marine Mammals and Endangered Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permits and permit modifications.

SUMMARY: Notice is hereby given that permits or permit amendments have been issued to the following entities under the Marine Mammal Protection Act (MMPA) and the Endangered Species Act (ESA), as applicable.

ADDRESSES: The permits and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone: (301) 427–8401; fax: (301) 713–0376.

FOR FURTHER INFORMATION CONTACT: Shasta McClenahan (Permit No. 21482), Amy Hapeman (Permit Nos. 21367–01 and 22218), and Carrie Hubbard (Permit No. 22965); at (301) 427–8401.

SUPPLEMENTARY INFORMATION: Notices were published in the **Federal Register** on the dates listed below that requests for a permit or permit amendment had been submitted by the below-named applicants. To locate the **Federal Register** notice that announced our receipt of the application and a complete description of the research, go to www.federalregister.gov and search on the permit number provided in the table below.

Permit No.	RIN	Applicant	Previous Federal Register notice	Permit or amendment issuance date
21367–01	0648–XF862	Christopher Marshall, Ph.D., Texas A&M University at Galveston, 200 Seawolf Parkway, Galveston, TX 77553.	84 FR 23020; May 21, 2019	July 24, 2019.
21482	0648–XG359	Dan T. Engelhaupt, Ph.D., HDR, Inc., 4173 Ewell Road, Virginia Beach, VA 23455.	84 FR 22452; May 17, 2019	July 19, 2019.
22218	0648–XG499	NMFS Northeast Fisheries Science Center, 166 Water Street, Woods Hole, MA 02543 (Responsible Party: Dr. Jon Hare).	83 FR 50646; October 9, 2018 ...	July 30, 2019.
22965	0648–XG961	Sea to Sea Productions Ltd., 477 Island View Drive, Boutiliers Point, Nova Scotia, Canada B3Z1R3 (Responsible Party: David Kent Nason).	84 FR 15602; April 16, 2019	July 10, 2019.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final

determination has been made that the activities proposed are categorically excluded from the requirement to

prepare an environmental assessment or environmental impact statement.

As required by the ESA, as applicable, issuance of these permit was based on a finding that such permits: (1) Were applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) are consistent with the purposes and policies set forth in Section 2 of the ESA.

Authority: The requested permits have been issued under the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226), as applicable.

Dated: August 12, 2019.

Julia Marie Harrison,

*Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.*

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2009–0044]

Agency Information Collection Activities; Submission for OMB Review; Comment Request—Safety Standard for Cigarette Lighters

AGENCY: Consumer Product Safety
Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC) announces a submission to the Office of Management and Budget (OMB), requesting an extension of approval for a collection of information associated with testing and recordkeeping requirements in regulations implementing the Safety Standard for Cigarette Lighters, approved previously under OMB Control No. 3041–0116. On June 5, 2019, CPSC published a notice announcing the agency's intent to seek an extension of approval of this collection of information. CPSC received no comments in response to that notice.

DATES: Written comments on this request for extension of approval of information collection requirements should be submitted by September 16, 2019.

ADDRESSES: Submit comments about this request by email: *OIRA_*

submission@omb.eop.gov or fax: 202–395–6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. In addition, written comments that are sent to OMB also should be submitted electronically at: *https://www.regulations.gov*, under Docket No. CPSC–2009–0044.

FOR FURTHER INFORMATION CONTACT:

Bretford Griffin, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504–7037, or by email to: *bgriffin@cpsc.gov*.

SUPPLEMENTARY INFORMATION: The CPSC seeks to renew the following currently approved collection of information. CPSC previously published a notice announcing the agency's intent to seek an extension of approval of this collection of information (84 FR 26079), and did not receive any comments. Accordingly, the information collection has been submitted to OMB without change.

Title: Safety Standard for Cigarette Lighters.

OMB Number: 3041–0116.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of cigarette lighters.

Estimated Number of Respondents: In 2018, 42 firms submitted information to the CPSC on 231 lighter models. There were four new lighter models and 227 lighters that were comparable to models previously tested (comparison lighters).

Estimated Time per Response: The burden associated with the standard includes the time and cost spent testing and maintaining the test records, either by the firm or by outside contractors. If tests are conducted in-house, staff expects that testing new lighter models would take about 90 hours per model. The total testing time for the four models would be 360 hours. Recordkeeping consists of two separate components: Recordkeeping for new lighter models, and recordkeeping for comparison lighters.

*New Lighter Models—*Staff estimates the time burden for recordkeeping for new lighter models to be 20 hours per model. Staff expects the total time for recordkeeping to be 80 hours (20 hours × 4 models). If tests are conducted in-house for each new model, product testing for each firm would take approximately 90 hours per model, for a total of 360 hours (90 hours × 4 models).

*Comparison Lighters—*Firms may also submit comparison lighters to demonstrate compliance with the standard. In 2018, 227 comparison lighters were reported to the CPSC. Although firms bear no testing costs for comparison lighters, staff estimates the burden hours for recordkeeping to be 3 hours per model. Thus, staff estimates recordkeeping for comparison lighters would take 681 hours (227 models × 3 hours).

*Reporting Requirements—*Firms will require approximately 1 hour per model to submit forms to CPSC, for a total annual reporting burden of 231 hours (231 models × 1 hour).

Total Estimated Annual Burden: The annual total number of hours could be as high as 1,352 hours (360 testing + 761 recordkeeping hours + 231 reporting hours) per year. If some firms elect to outsource testing of new models, the burden could be less. The CPSC estimates the total cost for firms to test, and prepare, maintain, and submit records to the CPSC in compliance with the lighter regulation would be in the range of \$59,064 to \$115,929, depending upon the test method chosen.

General Description of Collection: In 1993, the CPSC issued the Safety Standard for Cigarette Lighters (16 CFR part 1210) under the Consumer Product Safety Act (CPSA) (15 U.S.C. 2051 *et seq.*) to eliminate or reduce risks of death and burn injury from fires accidentally started by children playing with cigarette lighters. The standard requires certain test protocols, as well as recordkeeping and reporting requirements. 16 CFR part 1210, subpart B. In addition, section 14(a) of the CPSA (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program.

Alberta E. Mills,

*Secretary, Consumer Product Safety
Commission.*
