

properties, combined with rapid, ongoing advances in x-ray optics, insertion devices, detectors, computing and theory will make it possible for researchers at x-ray light sources to explore a new landscape of scientific problems that previously were completely inaccessible. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 5, 2019.

Docket Number: 19–006. Applicant: University of Chicago Argonne LLC, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Lemont, IL 60439–4873. Instrument: Q4 and Q5 magnets. Manufacturer: Danfysik, Denmark. Intended Use: The instrument(s) are the components of a 4th generation synchrotron accelerator, *i.e.*, the Advanced Photon Source Upgrade (APSU) accelerator, one of the most technologically complex machines in the world. APSU is a non-profit research facility, that will provide ultra-bright, high-energy x-ray beams to more than 5000 (and growing) scientists from across the United States. The research covers nearly every scientific discipline, from materials science to biology, chemistry, environmental, geological and planetary science and fundamental physics. APS provide x-ray beams of a broad parameters that allow them to collect data in unprecedented detail and in amazingly short time frames. According to the applicant, the research results achieved will constantly make real and positive impact on our technologies, health, economy and fundamental understanding of the materials that make up our world. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 8, 2019.

Docket Number: 19–007. Applicant: University of Chicago Argonne LLC, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Lemont, IL 60439–4873. Instrument: Fixed Masks, Photon Shutters, Grid Masks. Manufacturer: Strumenti Scientifici CINEL S.R.L., Italy. Intended Use: The instrument and components will be used to assemble the new high heat load front ends for the Advanced Photon Source upgrade. The front end consists of a series of components that connect the storage ring to the user beamline to deliver a photon beam that will be used as a three-dimensional X-ray microscope for experimental purposes. The materials/phenomena

studied vary from material properties analysis, protein mapping for pharmaceutical companies, X-ray imaging and chemical composition, but are not limited to grain structure, grain boundary and interstitial defects and morphology under high pressure, temperature, stress and strain. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 19, 2019.

Docket Number: 19–009. Applicant: Fermi Research Alliance (FRA), Kirk & Pine Street, Batavia, IL 60510. Instrument: Linac Coherent Light Source II (LCLS–II) cryomodules' vacuum vessels. Manufacturer: Wuxi Creative Technologies Company, Ltd., WXCX, China. Intended Use: The instrument will be used to study scientific research including the studies of elementary particles. Each vessel is assembled with other components to form a CW cryomodule. The Vessel is a cylindrical vacuum shell that the cold mass upper assembly (“Assembly”) is inserted into. The Vessel provides the insulating vacuum and other necessary conditions to cool down and operate the cryomodules in the LCLS–II upgrade. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 25, 2019.

Dated: August 14, 2019.

Citric Acid and Certain Citrate Salts From Canada: Final Results of Antidumping Duty Administrative Review; 2017–2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that Jungbunzlauer Canada, Inc. (JBL Canada), producer/exporter of citric acid and certain citrate salts, did not sell subject merchandise at prices below normal value (NV) during the period of

review (POR) May 1, 2017 through April 30, 2018.

DATES: Applicable August 19, 2019.

FOR FURTHER INFORMATION CONTACT: Joseph Dowling or George Ayache, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1646 or (202) 482–2623, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 9, 2019, Commerce published in the **Federal Register** the *Preliminary Results*¹ of the administrative review of the antidumping duty order on citric acid and certain citrate salts from Canada. This review covers one producer/exporter of the subject merchandise, JBL Canada. We invited parties to comment on the *Preliminary Results*.² No interested party submitted comments.³ Further, no party submitted a request for a hearing in the instant review. Commerce conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order⁴

The merchandise subject to the order is citric acid and certain citrate salts from Canada. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 2918.14.0000, 2918.15.1000, 2918.15.5000, and 3824.90.9290. Although the HTSUS numbers are provided for convenience and customs purposes, the written product description, available in the Preliminary Decision Memorandum,⁵ remains dispositive.

Changes Since the Preliminary Results

As no parties submitted comments on the margin calculation methodology

¹ See *Citric Acid and Citrate Salts from Canada: Preliminary Results of Antidumping Duty Administrative Review; 2017–2018*, 84 FR 32710 (July 9, 2019) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum (PDM).

² *Id.*

³ JBL Canada submitted a case brief stating: “Respondent JBL has no comments on the Department’s *Preliminary Results*. JBL reserves the right to submit a rebuttal brief in response to any issue(s) which may be raised by Petitioners in their case brief.” See JBL Canada’s Letter, “Ninth Administrative Review of the Antidumping Order on Citric Acid and Certain Citrate Salts from Canada—JBL Canada’s Case Brief,” dated July 31, 2019.

⁴ See *Citric Acid and Citrate Salts from Canada and the People’s Republic of China: Antidumping Duty Orders*, 74 FR 25703 (May 29, 2009) (*Order*).

⁵ For a complete description of the scope of the Order, see *Preliminary Results* PDM at 3.

used in the *Preliminary Results*, Commerce made no adjustments to that methodology in the final results of this review.

Final Results of the Review

As a result of this review, Commerce determines that the following weighted-average dumping margin exists for entries of subject merchandise that were produced and/or exported by the following company during the POR:

Manufacturer/exporter	Weighted-average dumping margin (percent)
Jungbunzlauer Canada, Inc	0.00

Assessment Rates

Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review, pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b).⁶ Because we calculated a zero margin for JBL Canada in the final results of this review, we intend to instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

Commerce intends to issue the appropriate assessment instructions to CBP 41 days after the date of publication of these final results of review, in accordance with 19 CFR 356.8(a).

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of these final results for all shipments of citric acid and certain citrate salts from Canada entered, or withdrawn from warehouse, for consumption on or after the publication date as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for JBL Canada will be zero; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a completed prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other

manufacturers or exporters will continue to be 23.21 percent, the all-others rate established in the *Order*. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

In accordance with 19 CFR 351.305(a)(3), this notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties

We intend to issue and publish these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h) and 351.221(b)(5).

Dated: August 12, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Chlorinated Isocyanurates From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2017-2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines

that certain companies covered by the administrative review made sales of subject merchandise at prices below normal value. Interested parties are invited to comment on these preliminary results.

DATES: August 19, 2019.

FOR FURTHER INFORMATION CONTACT: Sean Carey, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3964.

SUPPLEMENTARY INFORMATION:

Background

Commerce is conducting an administrative review of the antidumping duty order on chlorinated isocyanurates (chlorinated isos) from the People's Republic of China (China). The period of review (POR) is June 1, 2017 through May 31, 2018.¹ This administrative review covers two mandatory respondents, Heze Huayi Chemical Co. Ltd. (Heze Huayi) and Juancheng Kangtai Chemical Co. Ltd. (Kangtai). Commerce preliminarily determines that sales of subject merchandise by Heze Huayi and Kangtai have been made at prices below normal value (NV).

Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018 through the resumption of operations on January 29, 2019.² This extended the deadline for the preliminary results to April 11, 2019. Commerce extended the time limit for the preliminary results on April 10, 2019, which fully extended the deadline until August 9, 2019.³

Scope of the Order

The products covered by the order are chlorinated isos, which are derivatives of cyanuric acid, described as chlorinated s-triazine triones.⁴

¹ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 83 FR 39688 (August 10, 2018).

² See Memorandum to the Record from Gary Taverman, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, "Deadlines Affected by the Partial Shutdown of the Federal Government," dated January 28, 2019. All deadlines in this segment of the proceeding have been extended by 40 days.

³ See Memorandum, "Chlorinated Isocyanurates from the People's Republic of China: Extension of Deadline for Preliminary Results of Antidumping Duty Administrative Review," dated April 10, 2019.
