AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with

a collection of information subject to the PRA that does not display a valid OMB control number.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.

Title: Enhanced Geo-Targeted Wireless Emergency Alerts.

Form No.: Not applicable.

Type of Review: New information collection.

Respondents: Individuals or households; State, Local or Tribal Government.

Number of Respondents and Responses: 12,000 respondents and 14,000 responses.

Estimated Time per Response: 0.25 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is authorized under the Warning, Alert and Response Network Act, Title VI of the Security and Accountability for Every Port Act of 2006 (120 Stat. 1884, section 602(a), codified at 47 U.S.C. 1201, *et seq.*, 1202(a)) (WARN Act) and 47 U.S.C. 151, 154(i), 154(j), 154(o), 218, 219, 230, 256, 301, 302(a), 303(f), 303(g), 303(j), 303(r) and 403.

Total Annual Burden: 3,500 hours.

Total Annual Costs: No Cost.

Privacy Act Impact Assessment: Yes. The FCC is revising the Privacy Impact Assessment (PIA) and modifying the existing System of Records Notice (SORN), FCC/PSHSB-1, FCC Emergency and Continuity Contacts System (ECCS),

for the Public Safety Support System to address the personally identifiable information (PII) that will be collected, used, and stored as part of the information collection requirements.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The WARN Act gives the Commission authority to adopt relevant technical standards, protocols, procedures and other technical requirements governing Wireless Emergency Alerts (WEA). The Commission adopted rules to implement the WEA system (previously known as the Commercial Mobile Service Alert System) pursuant to the WARN Act to satisfy the Commission's mandate to promote the safety of life and property through the use of wire and radio communication. The WEA system transmits emergency alerts to WEA-capable mobile devices, providing consumers with timely warnings and information in emergencies. In 2018, the Commission issued a Report & Order requiring that Participating Commercial Mobile Service Providers (providers) implement enhanced geo-targeting functionality by November 30, 2019 to allow WEA alert originators (e.g., local emergency management offices) to target a WEA alert to eligible devices in a prescribed geographic area (e.g., an area where there is imminent threat of the loss of life or property). See Federal Communications Commission, Wireless Emergency Alerts; Emergency Alert System, 83 FR 8619, 8623 (Feb. 28, 2018) (announcing a Nov. 30, 2019 amendment to 47 CFR 10.450).

The Commission now seeks to evaluate WEA performance, particularly with respect to the accuracy of providers' geo-targeting capabilities. To do so, the Commission will use surveys to collect information and evaluate performance during a WEA test. Survey respondents affiliated with two alert originators, partnered with the Commission in different geographic areas of the country, will be asked to complete a preliminary survey. This survey will improve the utility of a "live test" survey, which respondents will subsequently receive via a hyperlink embedded in a WEA test alert. The Commission has developed survey templates, which are available at <https://www.fcc.gov/files/preliminarysurvey0719pdf> and <https://www.fcc.gov/files/livetestsurvey0719pdf>, that are representative of how the surveys will appear on the Commission's Public Safety Support Center, and seeks OMB approval of these templates as a new information collection. The information sought in

this collection is necessary and vital to ensuring that WEA is effective at protecting the life and property of the public.
