Laminated Woven Sacks From China

Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing and antidumping duty orders on laminated woven sacks from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted these reviews on February 1, 2019 (84 FR 2249, February 6, 2019) and determined on May 7, 2019, that it would conduct expedited reviews (84 FR 32221, July 5, 2019).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on August 15, 2019. The views of the Commission are contained in USITC Publication 4944 (August 2019), entitled *Laminated Woven Sacks from China: Investigation Nos. 701–TA–450 and 731–TA–1122 (Second Review)*.

defendants on April 2, 2019. The Complaint alleges that the defendants, New Bedford, Massachusetts-based Vila Nova do Corvo II, Inc., company managers Carlos Rafael and Stephanie Rafael DeMello, and vessel captain Carlos Pereira, are civilly liable for violations of Section 311 of the Clean Water Act, 33 U.S.C. 1321. The Complaint alleges that the company and individuals are liable for violations related to the commercial fishing vessel *Vila Nova do Corvo II's* operations in coastal waters off of southeastern New England. The Complaint addresses discharges of oily bilge waste and used oil filters from the vessel while at sea harvesting scallops. The Complaint also includes Clean Water Act claims for violations of the Coast Guard's pollution control regulations related to the defendants' operation of the vessel. The violations were discovered by the Coast Guard during boarding operations.

Under the proposed Consent Decree, the defendants will pay a total of \$511,000 as civil penalties and perform corrective and compliance assurance measures. The defendants will be required, among other things, to repair the vessel to reduce the generation of oily bilge water, operate within the vessel's capacity to retain oily bilge for the full length of planned voyages, provide crew and management training on the proper handling of oily wastes, document all oil and oily waste transfers on and off of the vessel, including documenting proper disposal of engine room bilge water at a shore reception facility, and submit compliance reports.

The penalties paid in this case will be deposited in the federal Oil Spill Liability Trust Fund managed by the National Pollution Funds Center. The Oil Spill Liability Trust Fund is used to pay for federal response activities and to compensate for damages when there is a discharge or substantial threat of discharge of oil or hazardous substances to waters of the United States or adjoining shorelines.
