The earliest this transaction may be consummated is September 5, 2019, the effective date of the exemption (30 days after the verified notice was filed).

The verified notice states that: (i) The rail lines operated by the OmniTRAX carriers and the HGS carriers, as well as the rail lines to be operated by CCR, do not connect with the rail lines to be operated by WWRR; (ii) the proposed transaction is not part of a series of anticipated transactions that would connect the rail lines that will be operated by WWRR with any railroad in the OmniTRAX and HGS corporate families, or with any rail line to be operated by CCR; and (iii) neither WWRR nor any of the carriers controlled by OmniTRAX or HGS, nor CCR, is a Class I rail carrier. Therefore, the transaction is exempt from the prior approval requirements of 49 U.S.C. 11323. See 49 CFR 1180.2(d)(2).

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. However, 49 U.S.C. 11326(c) does not provide for labor protection for transactions under 49 U.S.C. 11324 and 11325 that involve only Class III rail carriers. Because this transaction involves Class III rail carriers only, the Board, under the statute, may not impose labor protective conditions for this transaction.

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed no later than August 29, 2019 (at least fifteen days before the exemption becomes effective).

All pleadings, referring to Docket No. FD 36338, must be filed with the Surface Transportation Board via e-filing or in writing addressed to 395 E Street SW, Washington, DC 20423–0001. In addition, a copy of each pleading must be served on Applicants’ representative, Karl Morell, Karl Morell & Associates, 440 1st Street NW, Suite 440, Washington, DC 20001.

According to Applicants, this action is excluded from environmental review under 49 CFR 1105.6(c) and from historic preservation reporting requirements under 49 CFR 1105.8(b)(1).

Board decisions and notices are available at www.stb.gov.

Decided: August 16, 2019.

B. Overview of This Information Collection
Title: 301 Exclusion Requests. OMB Control Number: 0305–0015, which expires on December 31, 2019. Form Number(s): 301 Exclusion Request/Response/Reply Form.

Description: Following a comprehensive investigation, the U.S. Trade Representative determined that the Government of China’s acts, policies, and practices related to technology transfer, intellectual property, and innovation were actionable under section 301(b) of the Trade Act of 1974 (19 U.S.C. 2411(b)). The U.S. Trade Representative determined that appropriate action to obtain the elimination of these acts, policies, and practices included the imposition of additional ad valorem duties on products from China classified in certain enumerated subheadings of the Harmonized Tariff Schedule of the United States (HTSUS). For background on the proceedings in this investigation, please see the prior notices issued in the investigation, including 82 FR 40213 (August 23, 2017), 83 FR 14906 (April 6, 2018), 83 FR 28710 (June 20, 2018), 83 FR 33608 (July 17, 2018), 83 FR 38760 (August 7, 2018), 83 FR 40823 (August 16, 2018), 83 FR 47974 (September 21, 2018), and 83 FR 49152 (September 28, 2018), 83 FR 65198 (December 19, 2018), 84 FR 7966 (March 5, 2019), 84 FR 20459 (May 9, 2019), and 84 FR 21389 (May 9, 2019).

On May 15, 2019, USTR submitted a request to OMB for emergency processing of this ICR. USTR reviewed the six submissions in response to the notice requesting comments (84 FR 23145). Five comments expressed concerns regarding the ability to designate and protect business confidential information (BCI); three requested that the ICR provide additional guidance or clarification; two asked for an expedited review process; two requested certain questions be removed; and one indicated the ICR should better indicate whether a particular field was required.

In light of the comments and in further consideration of the issues, USTR published FAQs covering a wide range of topics pertaining to the
exclusions process and made changes to the ICR. The changes included updates to section one—Submitter Information—to include ‘country’ as a field, and to add a question to determine if the requestor meets the size standards for a small business established by the Small Business Administration. Other changes included designations to each field of the ICR to indicate whether the field is required and if the field is for BCI or public information.

OMB approved the emergency processing request on June 20, 2019, and assigned Control Number 0350–0015, which expires on December 31, 2019.

On June 24, 2019 (84 FR 29576), the U.S. Trade Representative established a process by which U.S. stakeholders could request the exclusion of particular products classified within a covered tariff subheading from the additional duties that went into effect on September 24, 2018, and May 10, 2019. Requests for exclusion have to identify a particular product and provide supporting data and the rationale for the requested exclusion. Within 14 days after USTR posts a request for exclusion, interested persons can provide a response with the reasons they support or oppose the request. Interested persons can reply to the response within seven days after it is posted.

On June 30, 2019, USTR opened an electronic portal for submission of exclusion requests—http://exclusions.ustr.gov—using the approved ICR. The deadline for submitting requests is September 30, 2019. A reproduction of the form used on the portal is attached as an annex to this notice.

Affected Public: U.S. stakeholders who want to request, or comment on a request, to exclude particular products from the additional duties on products from China classified in certain enumerated subheadings of the HTSUS.

Frequency of Submission: One submission per request, response, or reply.

Respondent Universe: U.S. stakeholders.

Reporting Burden:
Total Estimated Responses: 60,000 requests to exclude a particular product; 7,000 responses to a product exclusion request; and 3,000 replies to a response.

Total Estimated Annual Burden:
USTR has revised this burden estimate in accordance with comments received in response to the emergency processing notice. USTR estimates that preparing and submitting a request to exclude a particular product will take approximately 120 minutes and will cost about $200 per submission. The total time burden for requests is 120,000 hours and the estimated total cost is $12,000,000.

USTR estimates that preparing and submitting a response to a product exclusion request will take approximately 60 minutes, and will cost about $100 per submission. The total time burden for responses is approximately 7,000 hours at an estimated total cost of $700,000.

USTR estimates that preparing and submitting a reply will take approximately 30 minutes, and will cost about $50 per submission. The total time burden for replies is approximately 1,500 hours and the estimated total cost is $150,000.

USTR estimates that the cost to the Federal government to evaluate each request, and response or reply, if any, is 2.5 hours, for a total time burden of 175,000 hours at an estimated total cost of $9,700,000. The $9.7 million total cost estimate includes the average annual salary plus benefits, for the federal employees and contractors expected to work on the exclusion process. USTR estimates that it will take approximately one year to complete the process.

Status: After reviewing comments received in response to this notice, under the PRA and its implementing regulations, USTR plans to submit a request to OMB to renew approval of the ICR for three years.
