

FSIS Public Health Information System (PHIS) Import Component. Applicants that do not file this information electronically can submit paper applications (FSIS Form 9540–1) to FSIS inspection personnel at an official import inspection establishment. The applicant is required to submit the FSIS Form 9540–1 in advance of the shipment's arrival, but no later than when the entry is filed with CBP (9 CFR 327.5, 381.198, 557.5, 590.920).

Return of Exported Products to the United States

When product inspected and passed by FSIS is exported, but then returned to this country, the owner, broker, or agent of the product (the applicant) arranges for the product's entry and notifies FSIS. In accordance with 9 CFR 327.17, 381.209, 557.17, and 590.965, exported product returned to this country is exempt from FSIS import inspection requirements upon notification to and approval from the Agency's Recall Management and Technical Analysis Division (RMTAD). RMTAD may require, however, that returned product be re-inspected at a federally-inspected facility for food safety and food defense determinations.

As part of this process, an applicant completes the FSIS Form 9010–1, *Application for the Return of Exported Products to the United States*. The purpose of the form is to allow RMTAD to decide whether re-inspection of the returned product is needed and to notify the appropriate FSIS office where to perform the re-inspection of the product, if necessary. If FSIS inspection program personnel determine that the product is safe and not adulterated or misbranded, the product may be released into domestic commerce.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of burden: The public reporting burden for this collection of information is estimated to average .202 hours per response.

Estimated total number of respondents: 939.

Estimated annual number of responses: 244,354.

Estimated Total Annual Burden on Respondents: 49,385 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250–3700; (202) 720–5627.

Comments are invited on: (a) Whether the proposed collection of information

is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to this **Federal Register** publication through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.

USDA Non-Discrimination Statement

No agency, officer, or employee of the USDA shall, on the grounds of race, color, national origin, religion, sex, gender identity, sexual orientation, disability, age, marital status, family/parental status, income derived from a

public assistance program, or political beliefs, exclude from participation in, deny the benefits of, or subject to discrimination any person in the United States under any program or activity conducted by the USDA.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request an extension of the current OMB approval to conduct a series of studies to research and evaluate how to improve data collection activities for data collection programs at the Census Bureau. These studies will explore how the Census Bureau can improve efficiency, data quality, and response rates and reduce respondent burden in future census and survey operations, evaluations, and experiments.

This information collection will operate as a generic clearance. The estimated number of respondents and annual reporting hours requested cover both the known and yet to be determined tests. A generic clearance is needed for these tests because, even though each test will follow a similar methodology, the exact number of tests and the explicit details of each test to be performed has yet to be determined. Once information collection plans are defined, they will be submitted on an individual basis in order to keep OMB informed as these tests progress.

The Census Bureau plans to test the use of new and improved data collection techniques for self-enumeration and interviewer data-collection tasks surrounding and following the ongoing census and survey operations. The research and evaluation may include: Developing alternative enumeration or follow-up questionnaires; usability issues; conducting interviews or debriefings;

and non-English language training and interviews. To study enumeration, the Census Bureau may conduct the enumeration directly with a household member or knowledgeable respondent. The questions asked in these studies will be typical census or survey questions and questions related to that content, along with potential attitudinal and satisfaction debriefing questions.

II. Method of Collection

The information will be collected through observations, self-response, face-face interviews, and/or telephone interviews.

III. Data

OMB Control Number: 0607–0971.

Form Number: Not yet determined.

Type of Review: Regular submission.

Affected Public: Individuals or households.

Estimated Number of Respondents: 100,000 per year.

Estimated Time per Response: 25 minutes.

Estimated Total Annual Burden Hours: 41,667 hours annually.

Estimated Total Annual Cost: There is no cost to the respondent other than time to answer the information request.

Respondents Obligation: Mandatory or Voluntary, depending on cited authority.

Legal Authority: Data collection for this project is authorized under the authorizing legislation for the questionnaire being tested. This may be Title 13, United States Code, Sections 131, 141, 161, 181, 182, 193, and 301 for Census Bureau sponsored surveys, and Title 13 or 15 for surveys sponsored by other Federal agencies. We do not now know what other titles will be referenced, since we do not know what survey questionnaires will be pretested during the course of the clearance.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or

included in the request for OMB approval of this information collection; they also will become a matter of public record.
