

open to development, subject to NSO, CSU, or TL stipulations. The Forest Supervisor also will decide under what conditions the Forest Service will authorize the BLM to modify, waive, or grant an exception to a stipulation. In accordance with leasing analysis requirements in 36 CFR 228.102, the Forest Supervisor will consider alternatives to the proposal, including that of not allowing leasing. Whether or not to lease specific lands is not part of this decision.

### Decision Will Be Subject to Objection

Before a decision is made, oil and gas leasing availability will be subject to the pre-decisional administrative review process (the objection process) outlined in 36 CFR 218; however, the decision to amend the Forest Plan for the NFGT will be subject to the objection process identified in 36 CFR 219 Subpart B. These two pre-decisional objection processes will run concurrently.

Under both the 36 CFR 218 and 219 administrative review processes, only those individuals and entities who have previously submitted substantive formal comments on the proposed project or the plan amendment may file an objection. Comments can be submitted by the public during scoping or any other designated opportunities for comment.

### Scoping Process

This Notice of Intent initiates the scoping process, which guides the development of the EIS by helping to define its scope. The Forest Service requests input on the proposed action, the proposed amendment to the Forest Plan, the content of the EIS, the issues and impacts to be addressed in the EIS, and the alternatives that it should consider. During scoping, commenters should clearly describe specific issues or topics that the EIS should address. This will assist the Forest Service in identifying significant environmental, social, and economic issues related to oil and gas leasing on NFS lands administered by the NFGT. The public may also provide comments on any other 36 CFR 219 substantive requirements that are likely to be “directly related” to the proposed plan amendment (refer to 36 CFR 219.13(b)(2)).

Four public meetings are planned. The meeting addresses, dates, and times will be provided on the project website, <http://www.fs.usda.gov/goto/texas/oil-and-gas>.

It is important that reviewers provide their comments before the Forest Service begins preparing the EIS; therefore, comments should be provided

before the scoping period closes, and commenters should clearly articulate their concerns about the alternatives and potential impacts. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the respondent with eligibility to participate in subsequent administrative review or judicial review.

### Lead and Cooperating Agencies

The Forest Service, NFGT, is the lead agency and the BLM, New Mexico State Office, is a cooperating agency in this analysis.

### Responsible Official

The responsible official is William E. Taylor, Jr., Forest Supervisor, National Forests and Grasslands in Texas, 2221 N. Raguette Street, Lufkin, Texas 75904.

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) determines that producers and/or exporters subject to this administrative review made sales of subject merchandise at less than normal value during the period of review (POR) June 8, 2016 through November 30, 2017.

**DATES:** Applicable August 27, 2019.

**FOR FURTHER INFORMATION CONTACT:** Manuel Rey or Whitley Herndon, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-5518 or (202) 482-6274, respectively.

**SUPPLEMENTARY INFORMATION:**

### Background

This review covers nine producers and exporters of the subject merchandise. Commerce selected two companies, Ajmal Steel Tubes & Pipes Ind. L.L.C. (Ajmal)/Noble Steel Industries L.L.C. (Noble Steel) (collectively, Ajmal Steel)<sup>1</sup> and Universal Tube and Plastic Industries, Ltd. (UTP)/THL Tube and Pipe Industries LLC (TTP)/KHK Scaffolding and Formwork LLC (collectively, Universal).<sup>2</sup> The producers and or exporters not selected for individual examination are listed in the “Final Results of the Review” section of this notice.

On February 21, 2019, Commerce published the *Preliminary Results*.<sup>3</sup> In March 2019, Ajmal Steel and Universal submitted case briefs.

On May 8, 2019, we issued a post-preliminary determination related to an alleged particular market situation in this administrative review.<sup>4</sup> In May 2019, the petitioners<sup>5</sup> submitted a case brief related to the post-preliminary determination,<sup>6</sup> and Ajmal Steel and Universal submitted rebuttal briefs on this topic.<sup>7</sup> On May 23, 2019, we

<sup>1</sup> On December 11, 2018, we preliminarily collapsed Ajmal and Noble Steel. See Memorandum, “Whether to Collapse Ajmal Steel Tubes and Pipes Ind. L.L.C. and Noble Steel Industries L.L.C. in the 2016-2017 Antidumping Duty Administrative Review of Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates,” dated December 11, 2018. Because no party commented on this decision, we continue to find it appropriate to collapse Ajmal and Noble for purposes of the final results.

<sup>2</sup> On January 31, 2019, we preliminarily found that TTP is the successor-in-interest to UTP. See Memorandum, “Successor-In-Interest Determination in the 2016-2017 Antidumping Duty Administrative Review on Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates,” dated January 31, 2019. Because no party commented on this decision, we continue to find TTP to be the successor-in-interest to UTP.

Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

**Scope of the Order**

The merchandise subject to the order is welded carbon-quality steel pipes and tube, of circular cross-section, with an outside diameter not more than nominal 16 inches (406.4 mm), regardless of wall thickness, surface finish (e.g., black, galvanized or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (e.g., American Society for Testing and Materials International (ASTM), proprietary, or other), generally known as standard pipe, fence pipe and tube, sprinkler pipe, and structural pipe (although subject product may also be referred to as mechanical tubing). **Changes Since the Preliminary Results**

Based on a review of the record and comments received from interested parties regarding our *Preliminary Results*, we made certain changes to the preliminary weighted-average margin calculations for Ajmal Steel and those companies not selected for individual review.<sup>10</sup>

**Final Results of the Review**

We have determined that the following weighted-average dumping margins exist for the following firms during the period June 8, 2016 through November 30, 2017:

Exporter/producer	Weighted-average dumping margin (percent)
Ajmal Steel Tubes & Pipes Ind. L.L.C. (Ajmal)/Noble Steel Industries L.L.C .....	2.83
Universal Tube and Plastic Industries, Ltd. (JTP)/THL Tube and Pipe Industries LLC (TTP)/KHK Scaffolding and Formwork LLC .....	1.65

We have determined that the review-specific average rate is applicable to the following companies:<sup>11</sup>

Exporter/producer	Weighted-average dumping margin (percent)
Abu Dhabi Metal Pipes and Profiles Industries Complex .....	2.24
Ferrolab LLC .....	2.24
Global Steel Industries .....	2.24
Lamprell .....	2.24
Link Middle East Ltd .....	2.24
PSL FZE .....	2.24

<sup>10</sup> See Issues and Decision Memorandum.

<sup>11</sup> This rate is based on the simple average of the margins calculated for those companies selected for individual review. Because we cannot apply our normal methodology of calculating a weighted-average margin due to requests to protect business proprietary information, we find this rate to be the best proxy of the actual weighted-average margin determined for the mandatory respondents. See *Ball Bearings and Parts Thereof from France, et al.: Final Results of Antidumping Duty Administrative Reviews, Final Results of Changed-Circumstances Review, and Revocation of an Order in Part*, 75 FR 53661, 53663 (September 1, 2010).

Exporter/producer	Weighted-average dumping margin (percent)
Three Star Metal Ind LLC .....	2.24

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding, in accordance with 19 CFR 351.224(b).

**Assessment Rates**

Pursuant to section 751(a)(2)(C) of the Act, and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

Pursuant to 19 CFR 351.212(b)(1), because Ajmal Steel and Universal reported the entered value of their U.S. sales, we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. Where either the respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. We intend to instruct CBP to take into account the "provisional measures deposit cap," in accordance with 19 CFR 351.212(d).

For the companies which were not selected for individual review, we will assign an assessment rate based on the average<sup>12</sup> of the cash deposit rates calculated for Ajmal Steel and Universal. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.<sup>13</sup>

Commerce's "automatic assessment" practice will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know that the merchandise they sold to the intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate

<sup>12</sup> This rate was calculated as discussed in footnote 10.

<sup>13</sup> See section 751(a)(2)(C) of the Act.

unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.<sup>14</sup>

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this administrative review.

### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated companies not participating in this review, the cash deposit will continue to be the company-specific rate published for the most recently-completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, or a previous segment of this proceeding, but the manufacturer is, the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 5.95 percent, the all-others rate established in the less than fair value investigation.<sup>15</sup> These deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent

assessment of double antidumping duties.

### Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

### Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act.
