

contractors that have developed items, components, or processes exclusively at private expense. Therefore, the clause at DFARS 252.227–7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, requires a contractor or subcontractor to submit a use and non-disclosure agreement when it obtains data from the Government to which the Government has less than unlimited rights. In addition, DFARS 227.7103–7, Use and non-disclosure agreement, requires intended recipients of technical data or computer software delivered to the Government with restrictions on use, modification, reproduction, release, performance, display, or disclosure, to sign the use and non-disclosure agreement at 227.7103–7(c) prior to release or disclosure of the data, unless the recipient is a Government contractor that requires access to a third parties data or software for the performance of a Government contract that contains the clause at 252.227–7025, Limitations on Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. According to 10 U.S.C. 2320(a)(2)(D), DoD may disclose limited rights data to persons outside the Government, or allow those persons to use limited rights data, if the recipient agrees not to further use, release, or disclose the data.

The provision at DFARS 252.227–7028, Technical Data or Computer Software Previously Delivered to the Government, requires an offeror to identify any technical data or computer software that it previously delivered, or will deliver, under any Government contract. DoD needs this information to avoid paying for rights in technical data or computer software that the Government already owns.

Jennifer Lee Hawes,
Regulatory Control Officer, Defense Acquisition Regulations System.

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DOD–2019–OS–0034]

Submission for OMB Review; Comment Request

AGENCY: Office of the Under Secretary of Defense for Personnel and Readiness, DoD.

ACTION: 30-Day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by September 30, 2019.

ADDRESSES: Comments and recommendations on the proposed information collection should be emailed to Ms. Jasmeet Seehra, DoD Desk Officer, at aira_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer, Docket ID number, and title of the information collection.

FOR FURTHER INFORMATION CONTACT:

Angela James, 571–372–7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Department of Defense Education Activity (DoDEA) School Registration and Sure Start Registration; DoDEA Form 600; OMB Control Number 0704–0495.

Type of Request: Revision.
Number of Respondents: 72,950.
Responses per Respondent: 1.
Annual Responses: 72,950.
Average Burden per Response: 22.5 minutes.

Annual Burden Hours: 36,237.5.
Needs and Uses: This information collection requirement is necessary to obtain information on Department of Defense military and civilian sponsors and their dependents. The information gathered on the sponsors is used to determine their dependents' enrollment eligibility to attend the Department of Defense Education Activity (DoDEA) schools. This includes determination of enrollment categories, whether tuition-free or tuition-paying, space-required or space-available. Information gathered for students is used for age verification, class and transportation schedules, record attendance, absence and withdrawal, record and monitor student progress, grades, course and grade credits, educational services and placement, activities, student awards, special interest and accomplishments.

Affected Public: Individuals or households.

Frequency: As required.
Respondent's Obligation: Voluntary.
OMB Desk Officer: Ms. Jasmeet Seehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number, and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Ms. Angela James.

Requests for copies of the information collection proposal should be sent to Ms. James at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

Dated: August 26, 2019.

Morgan E. Park,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DOD–2019–OS–0104]

Proposed Collection; Comment Request

AGENCY: The Office of the Under Secretary of Defense for Research and Engineering, DoD.

ACTION: Information collection notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, and as part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Defense Technical Information Center announces a proposed generic information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by October 29, 2019.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, Mailbox #24 Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Office of the Assistant Secretary of Defense for Research and Engineering Information Management Control Officer, 3030 Defense Pentagon RM 3C152, Washington, DC 20301, Mr. Steve Lippi or call 703-614-4161.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Customer Satisfaction Surveys Generic Clearance. OMB Control Number 0704-0403.

Needs and Uses: The information collection requirement is necessary to assess the level of service the DTIC provides to its current customers. The surveys will provide information on the level of overall customer satisfaction as well as on customer satisfaction with several attributes of service that impact the level of overall satisfaction. These customer satisfaction surveys are required to implement Executive Order 12862, "Setting Customer Service Standards." Respondents are DTIC registered users who are components of the DoD, military services, other Federal Government Agencies, U.S. Government contractors, and universities involved in federally funded research. The information obtained by these surveys will be used to assist agency senior management in determining agency business policies and processes that should be selected for examination, modification, and reengineering from the customer's perspective. These surveys will also provide statistical and demographic basis for the design of

follow-on surveys. Future surveys will be used to assist monitoring of changes in the level of customer satisfaction overtime.

Current Actions: Processing Extension as Generic.

Type of Review: Extension.

Affected Public: Business or other for-profit; individuals or households; Federal Government.

Estimated Number of Annual Respondents: 4,600.

Average Expected Annual Number of Activities: 8.

Below we provide projected average estimates for the next three years:

Average Number Of Respondents per Activity: 575.

Responses per Respondent: 1.

Annual Responses: 6,400.

Average Burden per Response: 7.875 minutes.

Annual Burden Hours: 1,273.

Frequency: On occasion.

Dated: August 26, 2019.

Shelly E. Finke,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

Office of the Secretary

Notice of Availability of Final Environmental Impact Statement for the Continental United States Interceptor Site

AGENCY: Missile Defense Agency, Department of Defense.

ACTION: Notice of availability and notice of activity in Wetlands as required by Executive Order 11990 (*Protection of Wetlands*).

SUMMARY: The Missile Defense Agency (MDA) announces the availability of the Final Environmental Impact Statement (EIS) for the potential deployment of a Continental United States (CONUS) Interceptor Site (CIS). The CIS Final EIS was prepared in accordance with the National Environmental Policy Act (NEPA) of 1969 and the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA and assesses the impacts of a potential deployment of a CIS. As required by the fiscal year 2013 National Defense Authorization Act, the MDA evaluated candidate sites for the potential future deployment of additional ground-based interceptors for homeland defense against threats from nations such as North Korea and Iran.

All potential sites analyzed in this Final EIS contain wetlands that would

be affected. All practicable measures were taken to arrange a CIS footprint to minimize and avoid impacts to wetlands while still maintaining operational effectiveness. However, there are no practicable deployment alternatives that would completely avoid impacts to wetlands. If a deployment decision were made, the MDA would coordinate with the U.S. Army Corps of Engineers and applicable state departments of environmental protection to determine appropriate mitigations for wetland impacts. As required by Executive Order (E.O.) 11990 (*Protection of Wetlands*), MDA would prepare a Finding of No Practicable Alternative (FONPA) for the selected site. The FONPA would explain why there is no practicable alternative to impacting wetlands at the identified site.

DATES: The Final EIS will be available for 30 days following publication of the NOA in the **Federal Register** by the U.S. Environmental Protection Agency (USEPA).

FOR FURTHER INFORMATION CONTACT: Mr. Mark Wright, MDA Public Affairs, at 571-231-8212, or by email: mda.info@mda.mil.

SUPPLEMENTARY INFORMATION: The USEPA's Notice of Availability (NOA) (ER-FRL-9027-4) and the Department of Defense's (DoD) NOA (81 FR 34315-34316) for the Draft EIS was published in the **Federal Register** on May 31, 2016 providing notice that the Draft EIS was available for comment from June 3, 2016 to July 18, 2016. The public review period was extended to August 17, 2016 (81 FR 46069). The public review period was from June 3, 2016 through August 17, 2016 (75 days). Public open house meetings were held June 21, 2016 through June 30, 2016. Comments from the Draft EIS review and public meetings have been considered in and included along with responses in the Final EIS.

Proposed Action and Alternatives: Consistent with the 2019 Missile Defense Review, the DoD does not have a proposed action, budget authority, or direction to deploy a CIS and does not propose to deploy a CIS at this time; therefore, the preferred alternative is the "No Action Alternative"—no deployment. Current sites in Alaska and California provide the necessary protection of the homeland from a ballistic missile attack by countries such as North Korea and Iran.

If deployed, a CIS would be an extension of the existing Ground-based Midcourse Defense (GMD) element of the Ballistic Missile Defense System. To the extent practicable, the CIS would be
