SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Transmittal for Unemployment Insurance Materials. The Social Security Act (SSA) section 303(a)(6) requires as a condition of a State receiving an administrative grant, that State laws contains a provision for the making of such reports, in such form and containing such information, as the Secretary of Labor may from time to time require and compliance with such provisions as the Secretary of Labor may from time to time find necessary to assure the correctness and verification

of such reports. Regulations 20 CFR 601.3, in part, implement this requirement by requiring submission of all relevant State materials, such as statutes, executive and administrative orders, legal opinions, rules, regulations, interpretations, court opinions, etc. In addition, the Unemployment Compensation for Federal Civilian Employees program regulations at 20 CFR 609.1(d)(1) and the Unemployment Compensation for Ex-Service Members program regulations at 20 CFR 614.1(d)(1) require submission of certain documents to ensure States properly administer these programs. Trade Adjustment Assistance (which includes Trade Readjustment Allowances) program regulations provide similar requirements at 20 CFR 617.52(c)(1). Form MA-8-7 is the mechanism for implementing these submittal requirements. Form MA-8-7 also provides the Secretary with sufficient information to determine if (a) Employers in a State qualify for tax credits under the Federal Unemployment Tax Act; (b) the State meets the requirements for obtaining administrative grants under SSA Title III; and (c) the State is fulfilling its obligations under Federal unemployment compensation programs. This information collection is a revision, because the Short Time Compensation (STC) Policies and Review of State Self-Employment Assistance (SEA) Policies were removed as ETA is only seeking information on state legislation and policies relating to work search at this time. Social Security Act of 1935 authorizes this information collection. See 42 U.S.C. 503(a)(6).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB, under the PRA, approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0222. The current approval is scheduled to expire on August 31, 2019; however, the DOL notes that existing information collection requirements submitted to the OMB will receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For

additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 28, 2018 (83 FR 67354).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty-(30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0222. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the American Time Use Survey. The ATUS is the Nation's only

federally administered, continuous survey on time use in the United States. It measures, for example, time spent with children, working, providing eldercare, sleeping or doing leisure activities. In the United States, several existing Federal surveys collect income and wage data for individuals and families, and analysts often use such measures of material prosperity as proxies for quality of life. Time-use data substantially augment these quality-of-life measures. The data also can be used in conjunction with wage data to evaluate the contribution of non-market work to national economies. This enables comparisons of production between nations that have different mixes of market and non-market activities. The ATUS supports the mission of the Bureau of Labor Statistics by providing data on when, where, and how much employed Americans work. Individuals aged 15 and up are selected from a nationally representative sample of approximately 2,060 sample households each month for the ATUS. There are no changes to the ATUS interview. However, BLS is requesting approval for an incentive study during the extension period: BLS is proposing a study to test the effectiveness of using \$0, \$5, and \$10 cash incentives on survey response. The study will test the effectiveness of using cash incentives instead of a prepaid debit card. It will also test whether a \$5 or \$10 cash incentive can boost survey response among certain underrepresented populations. 29 U.S.C. 1 and 13 U.S.C. 8 authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0175. The current approval is scheduled to expire on December 31, 2019; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information
