SUPPLEMENTARY INFORMATION:

Background

On November 1, 2018, Commerce published a notice of opportunity to request an administrative review of the antidumping duty order on monosodium glutamate (MSG) from the People's Republic of China (China).¹ In response, on November 30, 2018, Ajinomoto North America, Inc. (the petitioner) requested a review of 28 companies.² Commerce initiated a review of all 28 companies on February 6, 2019.³ For a list of these companies, see the appendix to this notice. The deadline for interested parties to submit an SRA or an SRC was March 7, 2019.⁴ No party submitted an SRA or an SRC.⁵

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213.

Preliminary Results of Review

Commerce no longer considers the non-market economy (NME) entity as an exporter conditionally subject to an antidumping duty administrative reviews.⁷ Accordingly, the NME entity will not be under review unless Commerce specifically receives a request for, or self-initiates, a review of the NME entity.⁸ In this administrative review, no party requested a review of the China-wide entity. Moreover, we have not self-initiated a review of the China-wide entity. Because no review of the China-wide entity is being conducted, the China-wide entity's entries are not subject to the review and the rate applicable to the NME entity is not subject to change as a result of this review.

None of the 28 companies subject to this review filed an SRA or an SRC. Commerce preliminarily determines that these companies have not demonstrated their eligibility for separate rate status. Commerce also preliminarily determines that the 28 companies subject to review are part of
