An objection must include the following (36 CFR 219.54(c)):

(8) All documents referenced in the objection (a bibliography is not sufficient), except the following need not be provided:

a. All or any part of a Federal law or regulation,

b. Forest Service Directive System documents and land management plans or other published Forest Service documents,

c. Documents referenced by the Forest Service in the planning documentation related to the proposal subject to objection, and

d. Formal comments previously provided to the Forest Service by the objector during the proposed plan, plan amendment, or plan revision comment period.

It is the responsibility of the objector to ensure that the reviewing officer receives the objection in a timely manner. The regulations prohibit extending the length of the objection filing period.

**SUPPLEMENTARY INFORMATION:**

**Background and Purpose**

Food supply veterinary medicine embraces a broad array of veterinary professional activities, specialties and responsibilities, and is defined as all aspects of veterinary medicine's involvement in food supply systems, from traditional agricultural production to consumption. A series of studies and reports<sup>1-6</sup> have drawn attention to

maldistributions in the veterinary workforce leaving some communities, especially rural areas, with insufficient access to food supply veterinary services.

Two programs, born out of this concern, aim to mitigate the maldistribution of the veterinary workforce: The Veterinary Medicine Loan Repayment Program (VMLRP) and Veterinary Services Grant Program (VSGP), both administered by USDA-NIFA. VMLRP addresses increasing veterinary school debt by offering veterinary school debt payments in exchange for service in shortage situations, while VSGP addresses other factors contributing to the

maldistribution of veterinarians serving the agricultural sector. Specifically, the VSGP promotes availability and access to (1) specialized education and training which will enable veterinarians and veterinary technicians to provide services in designated veterinarian shortage situations, and (2) practice-enhancing equipment and personnel resources to enable veterinary practices to expand or improve access to veterinary services.

**Paperwork Reduction Act**

In accordance with the Office of Management and Budget (OMB) regulations (5 CFR part 1320) that implement the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection and recordkeeping requirements imposed by the implementation of these guidelines have been approved by OMB Control Number 0524-0050.
