**SUPPLEMENTARY INFORMATION:**

- I. Background on the Ohio Program
- II. Description of the Request
- III. Public Comment Procedures
- IV. Procedural Determinations

**I. Background on the Ohio Program**

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7). On the basis

of these criteria, the Secretary of the Interior conditionally approved the Ohio program on August 16, 1982. You can find additional background information on the Ohio program, including the Secretary’s findings, the disposition of comments, and conditions of approval in the August 10, 1982, **Federal Register**, 47 FR 34688. You can also find later actions concerning Ohio’s program and program amendments at 30 CFR 935.11 and 935.15.

**II. Description of the Request**

By letter dated April 11, 2019, Ohio sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*) that involves the regulatory definition of “transfer, assignment, or sale of permit rights” related to coal mining operations (Administrative Record No. OH–2198). Ohio seeks to add regulatory language at Chapter 1501:13–1–02, *Definitions*, section (VVVVVV) of the Ohio Administrative Code, which currently defines the term as “a change of a permittee, including, but not limited to, any fundamental legal change in the structure or nature of a permittee, or a name change.” With this amendment, Ohio seeks to expand the definition to include a change in the ownership and operational control of a permittee to a person who has not held a permit issued under Chapter 1513, *Coal Surface Mining*, of the Ohio Revised Code (ORC) for a period of not less than five years where the existence and name of the permittee remain the same. Ohio states that this change is intended to prevent a person who is not eligible to participate in the bond pool under section 1513.08(C)(2) of the ORC from gaining access to the bond pool through a change of ownership and operational control that does not change the existence and name of the permittee. Ohio states that requiring such a person to apply for a transfer, assignment, or sale of permit rights will assure that all performance security requirements are met.

The full text of the amendment is available for you to read at the locations listed above under **ADDRESSES** or at [www.regulations.gov](http://www.regulations.gov).

**III. Public Comment Procedures**

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether this amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the State program.

*Electronic or Written Comments*

If you submit written or electronic comments on the request during the 30-day comment period, they should be specific, confined to issues pertinent to the request, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence our decision will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

*Public Availability of Comments*

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

*Public Hearing*

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., e.s.t. on September 20, 2019. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold a hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at the public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak, and others present in the audience who wish to speak, have been heard.

### *Public Meeting*

If only one person requests an opportunity to speak, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

### **IV. Procedural Determinations**

#### *Executive Order 12866—Regulatory Planning and Review and Executive Order 13563—Improving Regulation and Regulatory Review*

Executive Order 12866 provides that the Office of Information and Regulatory

Affairs in the Office of Management and Budget (OMB) will review all significant rules. Pursuant to OMB guidance, dated October 12, 1993, the approval of State program amendments is exempted from OMB review under Executive Order 12866. Executive Order 13563, which reaffirms and supplements Executive Order 12866, retains this exemption.

#### *Other Laws and Executive Orders Affecting Rulemaking*

When a State submits a program amendment to OSMRE for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment. We conclude our review of the proposed amendment after the close of the public

comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.
