Information Collection Request Title:

U.S. Government Feed the Future Initiative Audience Segmentation Survey.

Abstract: The “USAID National Survey of U.S. Adults about Global Food Security” is a 20-minute nationally-representative survey of U.S. adults conducted for USAID by a professional research company. The purpose of the research is to inform the communications strategy, education, and outreach efforts for the Feed the Future Initiative. The research contractor will gather information and feedback by telephone and online from 1,000 voluntary adult participants using a nationally representative survey sampling method. Using the information collected in the survey, the research

consultant will measure opinions about global food security and hunger, program awareness, reasons for improving global food security and reducing hunger, questions and concerns about the initiative, as well as consumer segments and insights for each segment to more effectively hone communication, education and outreach efforts.

Likely Respondents: This study includes one respondent group, U.S. adults 18 years and older living in the fifty states and the District of Columbia.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions and survey screening criteria; to develop, acquire, install and utilize technology and systems for the purpose of providing opinions and feedback; to be able to respond to and complete the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated are summarized in the table below.
