(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: I–102; USCIS.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Individuals or Households. Nonimmigrants temporarily residing in the United States can use this form to request a replacement of a lost, stolen, or mutilated arrival-departure record, or to request a new arrival-departure record, if one was not issued when the nonimmigrant was last admitted but is now in need of such a record. U.S. Citizenship and Immigration Services (USCIS) uses the information provided by the requester to verify eligibility, as well as his or her status, process the request, and issue a new or replacement arrival-departure record.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection I–102 is 4,100 and the estimated hour burden per response is .75 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The estimated total annual hour burden associated with this collection is 3,075 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this collection of information is $1,182,440.

Dated: August 30, 2019.

BILLING CODE 9111–97–P

DEPARTMENT OF HOMELAND SECURITY

U.S. Citizenship and Immigration Services

[OMB Control Number 1615–0060]

Agency Information Collection Activities: Revision of a Currently Approved Collection: Medical Certification for Disability Exception

ACTION: 30-Day notice.

SUMMARY: The Department of Homeland Security (DHS), U.S. Citizenship and Immigration Services (USCIS) will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. The purpose of this notice is to allow an additional 30 days for public comments.

DATES: The purpose of this notice is to allow an additional 30 days for public comments. Comments are encouraged and will be accepted until October 7, 2019.

ADDRESSES: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, must be directed to the OMB USCIS Desk Officer via email at dhodeskofficer@omb.eop.gov. All submissions received must include the agency name and the OMB Control Number 1615–0060 in the subject line.

You may wish to consider limiting the amount of personal information that you provide in any voluntary submission you make. For additional information please read the Privacy Act notice that is available via the link in the footer of http://www.regulations.gov.

FOR FURTHER INFORMATION CONTACT:
USCIS, Office of Policy and Strategy, Regulatory Coordination Division, Samantha Deshommes, Chief, 20 Massachusetts Avenue NW, Washington, DC 20529–2140, Telephone number (202) 272–8377 (This is not a toll-free number; comments are not accepted via telephone message). Please note contact information provided here is solely for questions regarding this notice. It is not for individual case status inquiries. Applicants seeking information about the status of their individual cases can check Case Status Online, available at the USCIS website at http://www.uscis.gov, or call the USCIS National Customer Service Center at (800) 375–5283; TTY (800) 767–1833.

SUPPLEMENTARY INFORMATION:

Comments
The information collection notice was previously published in the Federal Register on April 26, 2019, at 84 FR 17870, allowing for a 60-day public comment period. USCIS did receive one comment in connection with the 60-day notice.

You may access the information collection instrument with instructions, or additional information by visiting the Federal eRulemaking Portal site at: http://www.regulations.gov and enter USCIS–2008–0021 in the search box. Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) Type of Information Collection Request: Revision of a Currently Approved Collection.

(2) Title of the Form/Collection: Medical Certification for Disability Exception.

(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: Form N–648; USCIS.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Individuals and Households. USCIS uses the Form N–648 to substantiate a claim for an exception to the requirements of section 312(a) of the Immigration and Nationality Act. By certifying Form N–648, the doctor states that an applicant filing an Application for Naturalization, Form N–400, is unable to complete the English and/or civics requirements because of a physical or developmental disability or mental impairment(s).

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection N–648 is 4,138 and the estimated hour burden per response is 2.42 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The estimated total annual hour burden associated with this collection is 10,014 hours.
cost burden associated with this collection of information is $213,107.

Dated: August 30, 2019.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

[Docket No. FWS–R2–ES–2019–0016; FXES11140200000–190–FF02ENH00]

Final Environmental Impact Statement for the Lower Colorado River Authority’s Transmission Services Corporation’s Habitat Conservation Plan in Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service, under the National Environmental Policy Act, make available the final environmental impact statement analyzing the impacts of issuance of an incidental take permit (ITP) for implementation of the Lower Colorado River Authority’s Transmission Services Corporation’s Habitat Conservation Plan (HCP). Our decision is to issue a 30-year ITP for implementation of the HCP, which authorizes incidental take of 22 listed species, 21 federally endangered species, and 1 unlisted species under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.). The final environmental impact statement (EIS) was developed in compliance with the Service’s decision-making requirements under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 et seq.), and is based on the HCP submitted by the Lower Colorado River Authority’s Transmission Services Corporation (LCRA TSC, applicant). We described, fully evaluated, and analyzed three alternatives in detail in our 2019 final EIS.

Our proposed action is to issue an ITP to the applicant under section 10(a)(1)(B) of the ESA that authorizes incidental take of the following federally endangered species:

- Golden-cheeked warbler (Setophaga [Dendroica] chrysoparia)
- Whooing crane (Grus Americana)
- Red-cockaded woodpecker (Picoides borealis)
- Ocelot (Leopardus pardalis)
- Houston toad (Anaxyrus [=Bufo] houstonensis)
- Bartons Springs salamander (Eurycea sosorum)
- Comal Springs riffle beetle (Heterelmis comalensis)
- Peck’s cave amphipod (Stygobromus pecki)
- Bee Creek Cave harvesman (Texella reddelli)
- Tooth Cave spider (Tayshaneta [=Neoleptoneta] myopica)
- Tooth Cave ground beetle (Rhadinus persiphone)
- Madla Cave meshweaver (Cicurina madlia)
- Government Canyon Bat Cave spider (Tayshaneta [=Neoleptoneta] microps)
- Helotes mold beetle (Batrisodes venyivi)
- Ground beetle (no common name; Rhadinus exilis)
- Ground beetle (no common name; Rhadinus infernalis)

The ITP would also authorize incidental take of the following federally threatened species:

- Piping plover (Charadrius melodus)
- Rufa red knot (Calidris canutus rufa)
- Jollyville Plateau salamander (Eurycea chisholmensis)
- San Marcos salamander (Eurycea nana)
- Georgetown salamander (Eurycea naufragia)

Also included is the following species, which is petitioned for listing:

- Spot-tailed earless lizard (Holbrookia lacerata)

Collectively, these are the covered species. The permit area for ITP implementation includes 241 Texas counties (see figure 1 in the HCP). Activities covered under the HCP include construction; operation; upgrade; decommissioning; and repair and maintenance of electrical transmission lines, substations, access roads, and related infrastructure and facilities (covered activities). LCRA TSC activities are classified as (1) new construction, (2) upgrading and decommissioning, (3) operations and maintenance, and (4) emergency responses. The applicant requested a term of 30 years, starting on the date of ITP issuance. The applicant will fully implement avoidance, minimization, and mitigation measures to offset impacts to the covered species according to the HCP and ITP. The applicant has agreed to include the following minimization measures:

1. Meet annually with the Service to discuss upcoming LCRA TSC activities, updated distribution or occurrence information for covered species, opportunities for mitigation, and other concerns;
2. Perform pre-construction natural resource assessments to avoid adverse effects on sensitive environmental features (including species);
3. Implement best practices and other measures to reduce environmental impacts before, during, and after construction;
4. Provide annual training to LCRA TSC staff and contractors working on covered activities regarding the implementation of the HCP and any covered species overlapping with covered activities;
5. Clear and manage vegetation within rights-of-way using aboveground means when practicable;
6. Mark those sections of transmission lines that cross major rivers and out 300 feet from either side;
7. Limit herbicide applications to woody vegetation that is a potential threat to the reliability of LCRA TSC facilities and observe the Service’s Southwest Region guidance for pesticide applications;
